MEN WANTED! For service as Railroad Machinists, Boilermakers, Blacksmiths, Electricians, Sheet Metal Workers, Pipe Fitters, Copper Smiths, Car Repairers, Tinners, Car Inspectors, Helpers—all classes.

Under strike conditions best explained by Chairman Ben W. Hooper of the U. S. R. R. Labor Board, in his statement of July First reading as follows:

"In this case the conflict is not between the employer and the oppressed employees. The people of this country, through an act of congress signed by President Wilson established a tribunal to decide conditions which are submitted to it in a proper manner over such dispute. It is the decisions of this tribunal against which the shop crafts are striking. Regardless of any question of the right of men to strike the men who take strikers places are merely accepting wages and working conditions prescribed by a government service. They are not accepting the wages and working conditions which an employer is trying to impose. For this reason public sentiment and full government power will protect the men who remain in their positions and new men who may come on."

Adequate provisions have been made for the full protection of all new employees the same as old employees who have remained loyally at work. Applicants should apply to the office of the Superintendent at Portland Union Station, or to the assistant Superintendent at Roseburg.
