

# WHO ARE THEY?

Name These Screen Players and Win Free Tickets To Motion Picture Theatres!!!

Can you name these two popular screen players? Write their names on the blank lines, sign your own name, slip and mail to MOVIE CONTEST, THE EVENING HERALD, or leave at THE HERALD office.

Two pictures will appear each day for two weeks, 24 pictures in all. Each picture will be numbered.

All guesses must be received at THE HERALD not later than noon of the second day following publication and the correct names will be published that day. Your guess for today's pictures must be in not later than Wednesday noon. The correct names of today's pictures will be published Wednesday.

Prizes will be awarded to the three persons submitting the nearest correct number of names as follows:

FIRST PRIZE—15 free tickets to the STRAND, STAR, AND LIBERTY THEATRE.

SECOND PRIZE—9 free tickets.

THIRD PRIZE—6 free tickets.

In event of a tie, the winner will be judged by the time the guesses are received at the Herald office. Each envelope will be marked with the time of receipt.

Tickets will be divided to give winners, as nearly as possible, an equal number for each theatre.

THERE ARE NO STRINGS TO THIS CONTEST — IT'S FREE.

# MACHINE PHOTOS PICTURE, SOUND

Remarkable Invention Perfected by Professor After 10 years' Work

URBANA, Ill., Aug. 1.—Prof. Joseph T. Tykociner of the University of Illinois, after ten years' work, has constructed a machine which not only photographs the usual moving picture as seen on the screen but at the same time and on the same film photographs sound. It was announced by the university today. So far have the experiments gone that the ring of a bell, the slam of a door, and the human voice are reproduced in the laboratory tests, it was stated.

With the patenting of this machine, the university has obtained the second of its patents on apparatus fundamental in the art of talking motion pictures. Six months ago that institution announced another of its staff, Professor, Jacob Kunz, had perfected a selenium cell which, unlike its predecessors, it was stated, did not show any fatigue through use. This cell is used for photographing sounds.

The apparatus which is working daily at the university takes moving pictures simultaneously with the photographing of the speech of the setting persons. The machine is equipped with a mercury arch of special construction. The intensity of light varies in accordance with

the speech of the acting person; and the light from the arc is focused upon the moving film by a sound recording instrument. The sound record is a narrow band of varying transparency, running along the edge of the film. As the film passes through the camera, about two-thirds or three-fourths of it is exposed to the scene being photographed. The remainder of the film is given over to photographing the various sounds. In this manner, every section and every sound is reproduced in corresponding places on the record, guaranteeing synchronism of visual and sound impression, the university statement said.

"As to the reproduction of the sound—this is possible because of the photo-electro cell, invented by Professor Kunz," the statement continued. "This cell is similar in shape to an electric light bulb. When light passes through it, it sets up an electric charge. Although the amount of the electricity thus generated is small in amount, it is amplified to the point necessary where sound waves are produced by means of a loud speaking telephone."

### Why He Decided

"Why have I never married?" the confirmed bachelor repeated a leading question. "Well, once upon a time in a crowd I trod on a lady's gown. She turned, furiously, beginning 'You clumsy brute!' Then she smiled sweetly, and said: 'Oh, I beg your pardon, I thought you were my husband. No it really doesn't matter in the least.'"

And when I came to think it over I decided that I'd better let marriage alone."

# FLASH IN SKY BRINGS WONDER

Moonshiners or Meteor, Ask Spectators When Flaming Object Falls

SANTA BARBARA, Cal., Aug. 1.—Consensus of opinion here today was that the great object which fell from the heavens into the ocean near Santa Barbara or onto Santa Cruz Islands, 18 miles south, last night, was a meteor.

As no report came from the islands that any one there had seen the object strike the earth, the general belief was that it fell into the sea. The island, however, is of considerable size, and the object might have fallen upon it without attracting the attention of the few residents.

Early reports that the object was a burning aircraft were generally disbelieved today, as was, also, a suggestion it might have been a signal from rum smugglers, the argument being advanced the brilliancy of the object was entirely too spectacular for bootleggers.

### SHASTA VIEWS

Claude Kirkpatrick of Dorris visited his brother, C. M. Kirkpatrick, and sister Mrs. W. A. Layman, one day last week.

Mrs. C. C. Miller spent Sunday night with Mrs. Emma Wilson and Monday went with Mr. and Mrs. G. W. Myers at her son, C. W. Miller's home near Klamath Falls.

A surprise party was given Mr. and Mrs. Maurice Harter and family last Saturday night by a large number of neighbors and friends. The Harters have disposed of their ranch and expect to leave next week for Southern California but had not decided just where they will locate. Their many friends wish them abundant success in their new home.

The ladies of the Helping Hand society were entertained by Mrs. Jacobs Wednesday and will meet with Mrs. Lida Kirkpatrick Wednesday, August 3.

O. E. Hunt and family returned from Portland Friday where they have been the past six weeks attending the Apostolic Faith camp meetings.

Friday morning the house of Oliver Martin with all contents was burned. With the assistance of neighbors who came quickly to help, all the other buildings were saved. Pete McNeil and wife who live near the Clear Lake dam were shopping in Malin Saturday.

Miss Lorida Sauter of the Klamath Agency has been visiting her sister, Mrs. Charlie Pickett, for a few days. Another sister, Mrs. Anna Huriburt, of College City, is with Mrs. Pickett for a few weeks. Margaret Childers of Medford and her sister, Bess, have also been visiting their old home and are now visiting relatives in California.

Mr. and Mrs. E. M. Bubb of Klamath Falls were here Friday last. Mr. Bubb is one of the directors of the Malin Irrigation district and attended the meeting. Mrs. Bubb spent the day with Mrs. Wm. Crandall.

# IN THE COURT

Stemwell vs. Wilde, et al.

Charles P. Stemwell has filed suit to collect \$1,000 alleged due on a note given by F. J. Wilde and Louis Boldischar. Interest at 8 per cent is asked from December 20, 1921 and \$150 attorneys' fees.

Union Oil vs. Switzer

The Union Oil company of California has filed suit in the circuit court against A. A. Switzer for the collection of \$275.95 which is alleged to be due for goods sold. Interest at 6 per cent from August 25, 1921 is also demanded.

Surely

Chicago woman has been jailed for refusing to talk. Any woman who does that is entitled to the freedom of the city.

# KLEPPER FAILS TO LEAVE CLUB

Interpretation of Landis Decision Sought By League Directors

SAN FRANCISCO, Aug. 1.—Conservative league directors today decided to ask Commissioner Landis to state whether his decision barring William H. Klepper from participation in organized baseball meant that Klepper must resign as president of the Portland club. This action was taken after the failure of a resolution proposed by Manager Graham of the San Francisco club calling upon Klepper and Brewster to resign.

Colonel E. J. Mackpole, Jr. (left) is in charge of the state militia ordered to Coakburg, Pa., where mine strike trouble is anticipated. They are conferring in the field with Captain Thomas McLaughlin who commands the state police.

# How A Dollar Does Travel!

# HOW THE DOLLAR'S FLOW FROM HAND TO HAND WHEN THE PAY-ROLL IS OPERATING

THE worker who creates wealth benefits going and coming. He is on the receiving end, no matter matter which way the stream flows.

Study the illustration with this advertisement.

Uninterrupted pay-rolls mean abundant prosperity.

Prosperity for the man at the lathe, at the forge, at the wood-working machine; for the carpenter, the brick-layer, the butcher, the merchant, the clerk, for every producer and every one who is part of the distributing system that necessarily accompanies production.

Klamath's army of workers is again busily engaged in coining dollars in Nature's mint. The stream of prosperity is again in full flow.

We can keep it flowing by co-operation, and we can enlarge it.

Need what you buy, but buy what you need.

The time is past for throwing away money on needless luxuries. But it is equally as far past for senseless hoarding and denying necessities to yourself and those who are entitled to look to you for comfortable support. If we all do our share, and all pull together, we can look forward to not only a comfortable but a prosperous winter.

The dollars are on the go again. Keep them traveling.
