

The Office Cat

BY JUNIUS

Disappointment

Tenderly retrieve it From moth-proof chest; Of all the fine raiment This did I love best. In fabric 'twas fragile, But oh, boy! a beauty. Now look at the dern'd think— My Palm Beach suit!

When a man stands aside to let a woman board a street car, you can't tell whether it is chivalry or curiosity.

Must Be

"Wife inherits cigar manufacturer's millions."—headline. She must be one of those rich weeds we hear so much about.

Enlightenment

"What is the difference between a lamp and a woman?" "When you clean the lamp it doesn't go out; when the woman cleans up she does go out."

Doc. Truax says a man will smoke eight cigars in one evening and then blame his indisposition next day on one ripe olive which he ate for dinner.

Corset Week in Arkansas

"Miss Ferbe Lowe has been in this vicinity the last few days, introducing a new line of corsets. Several of our young ladies are trying to walk as if they had bought one."

Sure

It costs a lot to live these days. More than it did of yore; But when you stop to think of it, It's worth a whole lot more.

In Deslacs, North Dakota, every public office is filled by a woman. Well, it's no more than fair that something is being done for the women who live in Deslacs, N. D.

Perfectly Plain

He: To fair maiden sitting on the running board of a stalled car: "What's the trouble?" She: "It's the thing-um-bob in the what's-its-name; whatever it doesn't."

Do you remember when young gentlemen wore watch-fobs woven from some fair maiden's hair? That was before the general bobbing of hair, made the material too easy to procure. And, by the way, did you ever see a red watch-fob of that kind?

Trouble-Seekers

C. R. Delap says some people cross bridges before they are reached, others go to the trouble of building bridges where it isn't likely there will ever be any water.

Ever Do It?

The man who loves, he plays no part Like motion picture stars. But clasps the damsel to his heart Regardless of cigars.

The Wisest Man

Wisest is the man who knows what to say, and remembers not to say it.

Blame It On Him

SULPHUR CLEARS ROUGH, RED SKIN

Face, Neck and Arms Easily Made Smooth, Says Specialist

Any breaking out of the skin, even fiery, itching eczema, can be quickly overcome by applying a little Mentho-Sulphur, declares a noted skin specialist. Because of its germ destroying properties, this sulphur preparation begins at once to soothe irritated skin and heal eruptions such as rash, pimples and ring worms.

It seldom fails to remove the torment and disfigurement, and you do not have to wait for relief from embarrassment. Improvement quickly shows. Sufferers from skin trouble should obtain a small jar of Mentho-Sulphur from any good druggist and use it like cold cream.—Adv.

DARING VOYAGE PLANNED

Capt. George Waard, Veteran of Seven Seas, to Cross Pacific Ocean in Chinese Junk

SHANGHAI, Aug. 4.—A trip across the Pacific from Shanghai port to Victoria, B. C., in a Chinese fishing junk with a registered tonnage of 23.15, manned by three Chinese sailors, is the plan of Captain George Waard, veteran of the Seven Seas.

Captain Waard declared his purpose aboard his junk, the Amoy, which he had built himself at Amoy in the winter. His purpose was to sail from Shanghai on June 23 and steer a course along the coast of Korea through the Straits of Hakodate and then follow the northern route across the Pacific stopping possibly at the Aleutian Islands. He said he believed he could complete the voyage and arrive at Victoria in the latter part of August.

"I'm carrying no cargo and no passengers," Captain Waard said, "and it isn't going to be a pleasure trip exactly, for I expect we will meet with rough going." At the age of 29

PERFUME USERS ARE WARNED

Little Honey-Makers Said to Dislike Certain Odors; Wearer May Experience Discomfort

NEW YORK, Aug. 4.—Ever since a bee census was ordered in Goshen, N. Y., metropolis of the buzzing honey makers, tender hearted persons have been shuddering at the thought of the danger assessors might undergo in plucking each bee from its workroom or den and counting it. But they might as well stop worrying, for W. E. Thorndyke, who knows bees from stem to stunted stern, said today that all the census takers have to do is count the hives.

"Even if they did have to number each bee, it wouldn't be so bad," he said. "Some men could count them one by one and never have to use a mask. Of course, a lot would depend on whether the bees were aristocratic bluebloods, or hybrids. The hybrids are usually the fierce ones. Still when it comes to getting intimate with bees, discretion is the better part of valor."

Girls with perfume and men who use hair oil, smelly pomades or scented talcum better get out of the way whenever they see a bee coming

HARD TIMES HIT TOY MAKERS IN JAPAN

TOKYO, Aug. 4.—Hard times have hit the toy makers, dealers and the children of Japan. During the boom there were 500 celluloid toy factories in Tokio and shops and peddlers did big business in Asia.

Even and other resorts about the city. Despite the fact that the toys are now sold at one-fourth their day prices, customers have become so scarce that factories are going into bankruptcy or out of business.
