

It's Bargain Day in London Town

A provincial postman in England starts the day with hands and handle-bars full. The ladies have mailed back the bargains—chiefly in hats—which they bought at summer sales in London.

MARSHAL HAIG MAKING WHISKEY

England's Military Leader Active on Board of Distillery Company

LONDON, Aug. 12.—Field Marshal Earl Haig has been elected a director of the Distillers' company at the annual meeting held in Edinburgh. The chief product of the company is whiskey. There are some people who think it rather detracts from the field marshal's dignity and reputation to be interested in a business of that sort, but their disapproval is hardly as vocal as it would be in America. The Haigs have long been financially interested in whiskey.

Earl Haig is usually credited with being thorough in all that he does, and he intends to be thorough in the whiskey business. When he was asked to join the board of directors he consented. It was stated, "on the understanding that he would be no mere figure-head, but would take his full share of the work as well as of the responsibility attached to the office."

He is likely to have plenty to do. The distiller's company is planning to increase greatly its whiskey output, both in Ireland as well as Scotland. It has acquired half the shares of the United Distilleries of Belfast and expects soon to acquire the entire concern.

NEW JAPANESE STAR FOR DAVIS CUP TEAM

TOKIO, Aug. 12.—This year's tournament of the Tokio lawn tennis club has brought to the front another Japanese star and an aspirant for next year's Davis cup team in Mr. Fukuda, who defeated Nomura, last year's champion in straight sets 6-0, 6-3, 6-0. Fukuda contemplates a visit to America to play in this year's tournaments on the Pacific coast. He is a member of the Poplar club, a purely Japanese organization and has played for two years in the summer tournaments at Karuzawa besides coaching the students of Waseda university. Eukuda did not have much difficulty in reaching the finals of the Tokio tournament, his most formidable rival, Harada, the school boy wonder, having fallen an easy victim to the new champion's tactics, which keeps his opponents on the back line.

Besides the singles champions Fukuda with his partner again won the doubles championship.

Mr. Hoover doubtless hopes that his coal-rationing plan will be helped out by a resumption of coal mining.

England bottled its own coal strike in time to give us its sympathy and substantial tonnage at a profit.

So far as coal is concerned, the government is still a good deal of an innocent bystander.

The side of Armageddon has its dull moments, in spite of all the strikes in the world.

We grow democratic. Almost anybody can afford hay fever in this advanced day.

NOTICE FOR PUBLICATION—ISOLATED TRACT (Publisher)

Public Land Sale Department of the Interior, U. S. Land office at Lakeview, Ore. July 12, 1922.

NOTICE is hereby given that, as directed by the Commissioner of the General Land office, under provisions of Sec. 2455, R. S., pursuant to the application of Lester C. Washburn, Serial No. 011529, we will offer at public sale, to the highest bidder, but at not less than \$3.00 per acre, at 11:00 o'clock A. M., on the 5th day of September, next, at this office, the following tract of land: SE 1/4 SW 1/4, Sec. 9, T. 40 S., R. 13 E., W. M. (containing 40 acres.)

The sale will not be kept open, but will be declared closed when those present at the hour named have ceased bidding. The person making the highest bid will be required to immediately pay to the receiver the amount thereof.

Any persons claiming adversely the above-described land are advised to file their claims, or objections, on or before the time designated for sale.

50,000 AMERICANS NEEDLESSLY BLIND, ASSOCIATION HOLDS

NEW YORK, Aug. 12.—Fifty-thousand Americans are blind who need never have lost their sight, asserts the National committee for the prevention of blindness in an appeal to normal schools, teachers' colleges and universities, asking their co-operation in spreading the doctrine of sight conservation in their health and education courses.

There are 17 topics, all relating to the conservation of vision, which should be included in any course on general health education, the committee points out. This course, with study periods and practice classes, should have a recognized place in the curriculum of schools, and students who qualify should be accorded adequate credits, it is held.

In the proposed course of 17 topics are included: The structure of the eye and its methods of functioning; common diseases of the eyes of children and detection of obvious signs of communicable diseases; examinations by teachers to determine children's visual acuity; teaching of the necessity for refraction by competent eyesight specialists in cases of defective vision, and the necessity for glasses that "fit"; co-operation of teachers with school doctors and nurses; adequate school room lighting and seating arrangements and interior decorations to obviate eye hazards and strains, and consideration of type sizes and styles for textbooks which are best adapted to youthful eyes.
