

How strong are YOU

For Klamath Falls?

How much does civic loyalty mean to you? How anxious are you to see the return of 100% business-activity and full employment for our wage-earners? All of which means—

Prosperity for the City of Klamath Falls

YOU CAN'T DODGE your share of the responsibility for the growth of our city. What we accomplish as a community is but the sum total of the efforts of our individual citizens, IN SHORT, YOUR EFFORTS.

HELP ONE ANOTHER!

A splendid, big, broadminded spirit is this "HELP-ONE-ANOTHER" talk that is foremost in the minds of the big business interests of this nation.

HELPING ONE ANOTHER is simply the co-operation between buyer and seller which works to the advantage of both. It is one of the biggest factors today in developing the resources of the United States.

This spirit of HELPING ONE ANOTHER is expressed in no stronger or more helpful manner than in the desire to patronize home-enterprises.

In just so far as we spend our money, earned in Klamath County with local business institutions, will we individually and as a community PROSPER.

It is a self-evident fact that every dollar which leaves Klamath County takes away just that much from the general prosperity of this community.

Think well over the loss that you, your neighbor, and his neighbor, inflict not only upon the citizens of Klamath Falls, but yourself, every time you send money away for something that could just as well be purchased from some local store at the same price.

HELP ONE ANOTHER—and you'll be helping your own family and your own friends, as well as yourself individually.

ADD TO—Don't take away from the PROSPERITY of yourself and your fellow citizens. Always fill your needs by trying Klamath Falls stores FIRST.

KLAMATH FALLS

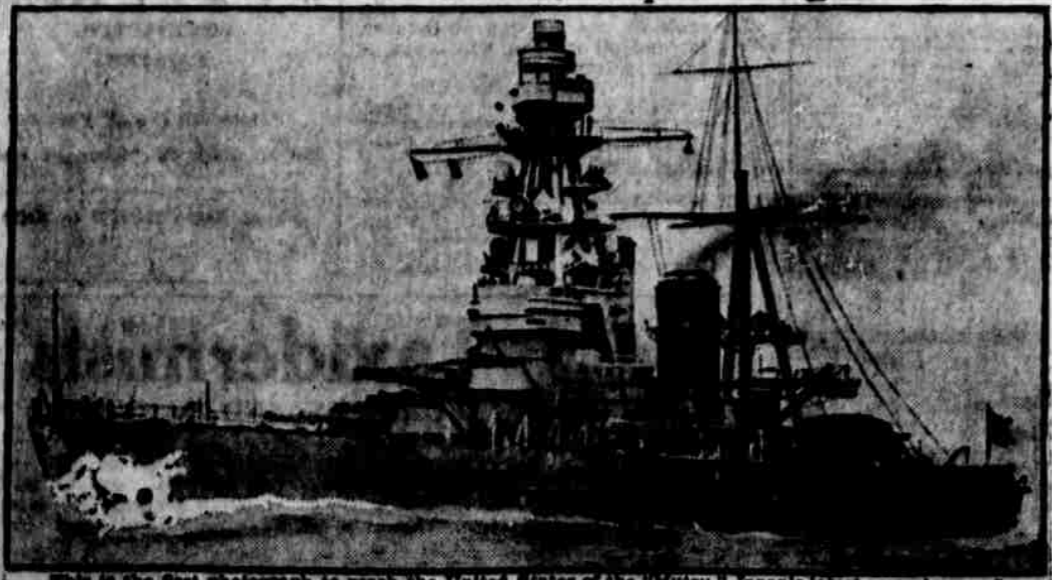

Help Your Own City & You Help Yourself

This space paid for by the business men of Klamath Falls for the benefit of the community.

First Photo of "Mutsu," Japan's Mightiest

This is the first photograph to reach the United States of the "Mutsu," Japan's latest man-o-war. Japan was allowed to save it from the scrap pile under the "5-5" agreement largely through sentiment. School children helped to pay for it with their pennies. Japanese designers and workmen built it and the material was entirely furnished by Japan. It travels 23 knots an hour, has a tonnage of 25,000 and is equipped with 12-inch guns.

PEGGY JOYCE SAYS HER NEXT HUSBAND WILL BE REAL HE-MAN

By JACK JUNGMEYER

LOS ANGELES, Aug. 12.—What dividends has Peggy Hopking Joyce drawn from her varied ventures in men, matrimony and millions?

What tips has she for other fair dealers in heart-ware who have envied "the million-dollar doll" for chances at happiness de luxe?

These, from her own earned lips, as she settles down to a prospective business career and calculates the salvage of her romantic shipwrecks:

"I have learned from experience that hard work and sincere effort, not pampered idleness, point the only way to happiness.

"The gay white ways don't even give an approximation of it.

"My possessions"—said to be somewhere near \$2,000,000—"and my heart conquests have brought me nothing but wretchedness.

"I don't know what sort of man I should prefer if I were to look for one. Every ideal I have had has been woefully shattered.

"My respect goes to the man who is clever, courteous and considerate, who has brains and personality, irrespective of his appearance or possessions.

"It is that type that starts the real glow in a woman's heart, not jewels and motors.

"The most successful wooers, I have observed, are those who think of the little things that please a woman's whims, not the sleek tops who are invariably selfish.

"And the most durable husband is he who takes his wife into his confidence and makes a real partner of her.

"Beauty is the least important ingredient in charm.

"Brains are the chief requisite for fascination. Without them a man or woman is vapid and inconsequential.

"Then there is the attraction of eyes—especially those indicating understanding and kindness.

"Tact and a smiling countenance are very important elements.

"Almost any woman can acquire the qualities that captivate worthwhile men, and they put mere good looks completely in the shade."

Peggy herself is thin, almost angular, and not a pronounced beauty. But she has the challenging violet eyes, the tact and the smiling countenance.

We do quality kodak finishing. Currins For Drugs. 12

ALGOMA

S. A. Masters has returned from Kirby with his brothers who will assist him to put up hay for the Algoma Lumber company.

The California Oregon Power company is building a dam across the mill pond of the Algoma Lumber company to keep sufficient water to float the logs.

Ketsdever brothers have overhauled their combined harvester so as to have it ready for threshing this fall.

We sell all kinds of preparations to kill flies. Currins For Drugs. 12

Bake Electrically

PERFECT baking of bread, cake and pie depends on absolute uniformity of heat and on its accurate control. In no other way can the best results be assured. The scientific application and easy adjustment of heat to the purposes of baking reach their highest development in the

Hotpoint HUGHES ELECTRIC RANGE

The heavily insulated Hotpoint Hughes oven and the convenient control of the heat leave nothing to chance.

This Hotpoint Hughes accuracy of result is equally demonstrated in boiling, roasting, frying and broiling. The heat is all applied to the cooking and cannot radiate into the kitchen. There is no open flame with its resulting soot and stain and its attendant dangers.

Inquire about our special cooking rate.

Electric Cookery is Correct Cookery

Let us tell you how you can equip your home electrically by a small payment down and balance as installments.
