LAWLESSNESS

DECLARING that "there are doctrines abroad in the land which, if not controverted and overcome, may lead to the fall of this great country as the countries of the past have fallen..."

"I am going to point out to you certain matters that must be taken in hand if our country is to make its march of progress..."

"Were I to tell you that I thought all things were running smoothly and that I saw for our country a course lying clear before you across a calm sea, I would be telling a deliberate lie."

"But a few short weeks ago, in southern Illinois, in an atrocious murders as are known in our annals, men were killed, not cleanly killed, but brutally killed and up to the time in which I speak there is no shadow of a conviction of the murderers in sight."

"I know not who was to blame, whether employer or employe—but if our country is to stand, we must mete out justice in this case regardless of the affiliations. On the law depends our society. Without law, our civilization crumbles."

"There is no excuse for breaking laws. Nevertheless, we seem to be increasingly lawless; we seem bent on destroying the structure we have builded."

A POOR JOKE

THE American Bankers Association reports that deposits in banks in the United States amount to more than sixteen and one-half billions. "And outside of that," queries a humorous writer, "how much do you suppose there is in pockets, stockings and old topcoats?"

"If an accounting could be had of all the savings stored in unofficial repositories the total would be surprising. It is a pity that some sort of reliable record cannot be kept for comparative purposes, to show how rapidly the American people progress toward intelligent bestowal of their savings."

Practically every dollar of those billions in the banks is safe, and it is all earning interest. Every dollar which is kept in the more informal repositories is a potential loss to its owner. It is not earning interest, it is subject to theft, to loss, to destruction, and to easily accessible for unsafe investment and an easy prize for the swindler. Not such a joke when you come to think of it.
