

Personal Mention

Dan Driscoll is a city visitor here today from his ranch at Bonanza.

A marriage license was issued yesterday to Cecil O. Caldwell and Nola Elma Deal.

D. B. Campbell is back in town from his Spring Creek camp after having spent the greater part of the summer there.

Mr. and Mrs. T. E. O'Neil arrived here last night and are registered at the White Pelican hotel from San Francisco.

F. A. Ohlemeyer left this morning for Stewart, Nevada, after an extensive visit here with friends and relatives.

Mrs. Roy Evans and small daughter, Elise, are in town today from Dorris, where they are spending the summer with Mr. and Mrs. John Clemens.

Miss Haas, who recently arrived here from Hood River has accepted a position with the American National bank. She is a sister of Mrs. E. M. Igl.

A. F. Holden Jr., is here from Portland attending to matters of business this week. Holden is special agent for the Providence & Washington Insurance company.

Kenneth Lamsfield and Richard Van Loan are here today en route to their homes in Portland after seeing Crater Lake. After a brief visit with friends they will leave for home.

John Hauber, of Williamsport, Pa., district manager of the Mutual Life Insurance company, accompanied by Mrs. Hauber and daughter, Louise, is visiting Paul Lambert and family.

H. E. Calkins, who has been in Medford for the past few days, returned home yesterday afternoon. He was accompanied by his daughter, Miss Clara, and by Miss Marjorie Delzell.

Mr. and Mrs. E. J. Murray accompanied by their nephew, Murray Hanson, left this morning for California. Mr. and Mrs. Murray will spend the next few months in San Francisco, while Murray will enter school in Oakland, California.

Mr. and Mrs. H. N. Moe were hosts on Sunday for a group of friends on a launch ride to Rocky Point where they picnicked for the day. Their guests were Mr. and Mrs. Leslie Rogers and family, Mrs. Fred Schalklock, and Miss Constance, and Mr. and Mrs. Sidney Abbott.

Hale and hearty in spite of his 80 odd years, G. W. Rumble, Civil war veteran and one of the few survivors of the Andersonville prison tragedy, arrived here with Mrs. Rumble and his daughter, Miss Frank Rumble, on their way to their Berkeley home from Crater Lake. The trip between the lake and Klamath Falls was a bit trying for the visitors and they are staying over here another day before going on to California.

William Wood, one of the oldest pioneers of Shasta county, residing at Redding, was the guest of his nephew, Leslie Rogers yesterday afternoon and last evening, when he stopped over here for a few hours on his way to Crater lake. Wood was accompanied by his daughter, Mrs. A. E. Mulburn, and two children, Ruth and Robert, and by Mrs. Jordan, all of Redding. From Crater lake the party will continue on to Portland.

Dr. Geo. I. Wright has returned from a trip to Diamond Lake with Dr. Ed F. Kanavel of Kansas and Dr.

HUNGER CAUSES HUGE DEATH RATE AMONG RUSSIANS

GENEVA, Aug. 14.—Reports to the health section of the league of nations show that in the Kharkov district of Russia early this year people were dying at the rate of 49,000 a month, or a mortality of 600 in every 1,000. Between March 1 and 26, 125,000 persons died of hunger.

Of the 3,126,277 inhabitants of the Tartar republic, 2,500,000 had died of starvation by March. From January 1 to March 15 there were 392,399 cases of infectious disease.

In the Ukraine cholera was spreading and the death rate was 60 percent. There was a grave lack of medical supplies, and hospital accommodation had decreased by 80 percent.

Up to May 2 the number of cases of typhus in Soviet Russia, the Caucasus and Central Asia was 513,219, compared to 526,695, during the corresponding period last year. There were 467,078 cases of relapsing fever.

A. B. Kanavel, professor of surgery at Northwestern university and editor of Surgery, Gynecology and Obstetrics, the leading surgical journal of the United States, they devoted their time to fly fishing and reported fishing very good. They found the road between Crater Lake and Diamond Lake open and most of it in fine condition. On their return they found Crater lake marvellously beautiful with its colorings as their best. About 40 cars were parked at the lodge while as many more were at the camp around.

W. K. Brown, of the Klamath Meadows and Drainage company, arrived here last night with E. R. Beams, C. N. Hawkins and E. E. Hilbrook both of Hollister, California, and J. G. Hooper, manager of the Federal Trust company and First National bank of San Francisco. They left this morning in a motor boat for a trip around the Upper Klamath lake to the Weed ranch.

Burmese Romance

Miss Sylvia Helen Forde of England is to marry Prince Maung Maung Gyi, of Mandalay, son of Theebaw, last king of Burma.

One Wedding Not Delayed by Strikes

Sergeant Frank Becker of the Illinois guards and Miss Theresa Frank, Chicago, had everything arranged for their wedding when he was ordered to rail strike duty at Bloomington. So they were married at 5:30 p. m. Here Lieut. Col. Richmond is kissing the bride just after the ceremony.

SOUTHERN GOLD MEET ATTRACTS MANY ENTRANTS

NASHVILLE, Tenn., Aug. 15.—The fourth open championship of the Southern Golf association to be played on the Belle Meade course here September 28-30 offers probably the richest prizes of the season to professionals and promises to bring together the leading professionals and several of the best amateurs of America as well as representative British players.

More than seventy professionals have indicated their intention of taking part including Gene Sarazen at Pittsburgh, American and Southern open champion; Walter Hagen, British open champion; Joe Kirkwood, Australian open champion; Jim Barnes, American champion of 1921; Jack Hutchins, British open champion of last year; George Duncan and Sandy Ilerd, former British open champion.

Chick Evans, who has held both the amateur and open American titles; Willie Hunter, former British amateur champion, and Frank Godchaux, New Orleans, runner-up in the southern amateur this year, are among the amateurs expected to play. Bobby Jones, Atlanta, who holds the Southern amateur title and was tied with John Black of Oakland, Calif., for second place in the American open, will be unable to contest because of matriculating at Harvard, while Black probably will be unable to make the trip from the coast.

The prizes offered for the tournament total \$5,000 in cash for the professionals and plate for the amateurs. The prize list runs: first prize \$1,500; second \$1,000; third \$750; fourth \$500; fifth, \$300; sixth \$200; seventh \$175; eighth \$150; ninth \$125; tenth \$100; eleventh \$100; twelfth, \$100. Other prizes include \$50 for the professional turning in the lowest score for 36 holes; gold medal for the lowest qualifying score; medal for the amateur turning the lowest score for 72 holes; medals for all amateurs finishing among first ten contestants.

MUNICIPAL DANCE HALL AT PASADENA HAS GREAT SUCCESS

PASADENA, Calif., Aug. 15.—A municipal open air dance so successful that three privately owned public dance halls were forced to close. It is attended by more than a thousand persons every Friday night at the Tournament of Roses park. The dance, held by the city of Pasadena, draws visitors from a dozen surrounding towns including many persons from Los Angeles, 11 miles distant.

The admission price, ten cents, is low enough that a family of five can dance all evening in the cool open air for a half dollar. And families do take advantage of the city supervised dance. Gray haired men and women, middle aged persons, rich people, poor people, flappers and even small children gather here and can be seen dancing old fashioned waltzes and the latest "jazz" steps in the two large tennis courts on which the dance is held.

During the two months that dances have been held at the park not one person has been ordered from the park for improper conduct. Persons who haven't danced for years now never miss a Friday night at the park. At 11 o'clock the music stops and everyone must leave.

A large automobile park, operated by the city without charge to the dancers, is always filled to overflowing and while the dance is in progress the streets about the park for several blocks are lined with automobiles belonging to the dancers.

The floor, made smooth by applying soap chips, is claimed as suitable to dance on as any ballroom floor, while the music, furnished by an eight piece orchestra, is declared by the dancers, especially the youngsters, to be "jazzy."

The first woman's yachting championship ever held in America, and perhaps in the world is to be staged at Marblehead, Mass., the week of August 28th.

TEN MILLIONS LOST ANNUALLY BY BLUE STAIN

PORTLAND, Aug. 15.—According to W. H. Gibbons, in charge of the Portland office of forest products, United States forest service, the losses to the lumber and wood-working trade amount to 10 million dollars through loss in grade of lumber by sap stain and mold. This is a recent estimate by the United States forest service and the bureau of plant industry, based on a survey of the southern pine and hardwood field. The survey is preliminary to a study to be made by the forest products laboratory, Madison, Wisconsin, on sap stain and molds as they affect the wood industries throughout the United States, which includes the western yellow pine industry of the northwest.

Price reductions based on blue stain degrade have varied from \$10 to \$27 per M board feet in the sash and mill work field alone, according to figures obtained in the survey. In the cooperage industry the annual loss due to blue stain sap gum lumber were decreased in amounts varying from \$1.50 to as high as \$15 per M board feet. Continued calls made by manufacturers upon the forest products laboratory for suggestions as to means of controlling stain indicate that the problem cannot be completely solved by any method now used. The western pine association is much interested in this proposed study.

Further details of the stain and mold problem in every branch of the wood-using industry are now being gathered by the forest products through questionnaires. The facts so collected will provide a basis for a broad study in cooperation with the various associations of stain control methods in all stages of the manufacture of wood products. Both dipping and air seasoning methods will be studied.

It is anticipated, Gibbons says, that this work will assume major importance and that the demands on the laboratory will be much greater than can be met from the government funds available and the active financial cooperation of manufacturers affected by sap stain troubles will be needed.

Afraid? Pooff

Miss Theodora Olsen, Brooklyn, knows the Florida gopher turtle she's holding is tame and harmless. And besides he likes her.

U. S. GOVERNMENT PLANS TO PROTECT RAILROADS

(Continued from Page 1)

left here yesterday and one this morning, while the regular freight and a train of empties will arrive tonight. Bradford said tickets are being sold to all points as usual and that passengers on the Southern Pacific are experiencing no discomfort because of the strike.

LOS ANGELES, Aug. 15.—Passengers arriving here on the Santa Fe from Ashfork, Arizona, reported that a fireman named Henderson was shot last night in the cab of a locomotive near Needles. Officials denied the report, but said a fireman named Mickey was unconscious as the result of a rock thrown in Needles.

LAS VEGAS, Aug. 15.—Seven westbound trains are held here account of the strike moved to Albuquerque this afternoon, to make room for more trains, officials announced.

SAN FRANCISCO, Aug. 15.—Big four returned to work at Tracy relieving the Southern Pacific labor troubles in California except the shophouses, but the embargo was not lifted. The Tracy brotherhood followed the men of Roseville.

VALUES FACE AT \$25,000

INEZ FORD

Owner Says It Is Worth That In Inspiration; Man Thinks Otherwise; Jury Will Have to Decide

NEW YORK, Aug. 15.—Is there \$25,000 worth of inspiration in this face?

Could it move one's soul to write beautiful songs?

Miss Inez Ford, New York girl, who owns the face, says so. And a man she's suing for alleged breach of promise to marry says no.

A jury will have to decide. Meanwhile study the face and make up your own mind. Would it inspire you?

Miss Ford in her complaint declares she was the inspiration of a writer of popular song hits. After

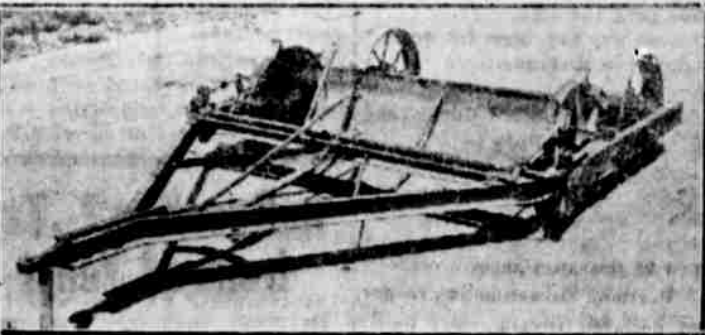

looking deeply into her eyes, she says, he'd reel off his compositions. All this he denies—and also that he pledged to lead her to the marriage altar.

AMERICAN LEGION TO HOLD REGULAR MEETING TONIGHT

The regular semi-monthly meeting of the American Legion will be held tonight and Commander Westfeld urges a large attendance in order that much pending business may be disposed of.

English women are said to smoke much more than do Americans.

LYTLE ONE-MAN Scrapper and Checker

To move more dirt and move it quickly and cheaply means cash in the pocket of the farmer or contractor. The Lytle land leveler has been designed to do this work most efficiently. It will move more dirt with less power than other scrapers, and will easily do the work of four two-horse teams.

The Lytle leveler is absolutely a one-man machine, to be used with any make of tractor. As you will note from the cut, there are no levers, hand-wheels, worm gears, or other superfluous parts on this leveler, its loading being entirely automatic. The tractor driver has the Lytle under control at all times, as the pull of a rope makes it as easy to operate as a good power lift plow. When the bucket is full the load is automatically lifted and carried on the wheels.

The Lytle leveler frame is made of channel steel, and designed to give maximum strength with a minimum of weight. The bucket works on the principle of revolving bowl, which turns completely over when dumping. The wheels are mounted on an axle at the rear of the leveler and behind the bucket, which permits working closer to trees, fences, etc., than would be possible with wheels at side. We will build the Lytle with WHEELS AT THE SIDE if you so specify when ordering.

The depth of cut or the amount of dirt to be moved is determined by the operator by simply adjusting the two forward stop blocks on each side of the bucket. When the bucket is full of dirt it automatically raises, and the weight is carried on the wheels. This is one of the reasons why the "Lytle" has such a light draft and it is impossible to stick your tractor when loaded.

The Lytle is made in five, six and seven-foot, and larger sizes on special order.
