A Question of Gas

A foreigner, whose knowledge of English language was somewhat limited was looking at a car, with a purchasing eye. The salesman said: "This automobile is a bargain! It will go twenty-five miles with a gallon of gasoline!"

"Well, I want!" the foreigner exclaimed. "How far will she go vid-out any?"

Bumper Crops are Reported in Idaho

BOISE, Idaho, Aug. 18.—Excellent roads, bumper crops and an adequate irrigation water supply is reported in central Idaho by W. G. Swendsen, state commissioner of reclamation, who has just returned from that section of the state where he has been looking over irrigation projects. Swendsen's inspection began at Hailey and continued eastward through Arco, ending at Idaho Falls. The commissioner was over the new highway from Hailey to Arco and says it is an excellent condition. Swendsen also visited the two Owsley projects near Mud lake. His purpose in visiting these projects was to study, in co-operation with the United States geological survey and general land office, the possibilities of the amount of water supply of this lake. In the construction of the two Owsley projects last year, Swendsen said parts of the skeletons of a camel and an elephant were unearthed in the excavations for two ditches. The identity of the skeletons was established by the Smithsonian institute in Washington, D. C.

FREE TRIPS FOR COUNTRY MAIDS

Winning Members of Canning Clubs Will Go to Europe, Expenses Paid

CHICAGO, Aug. 18.—A three months trip to Europe for four country girls, with all expenses paid, is the prize that has just been announced for winning members of the canning clubs of the United States. These clubs are conducted by the agricultural colleges and the United States department of agriculture. The American committee of devastated France is providing the prize trip for which 55,000 girls the country over are expected to compete this summer and fall.

The plan, provides for the usual local, country and state elimination contests conducted by the state agricultural college extension departments. Following that there will be five interstate or sectional contests held at convenient expositions, namely: Eastern states exposition, Springfield, Mass.; South eastern states exposition at Atlanta, Georgia; Interstate fair and exposition, Sioux City, Iowa; Colorado state fair, Pueblo, Colorado and the Pacific international livestock exposition, Portland, Ore.

The first and second highest scoring teams at each sectional contest will compete for national honors during the week of the international exposition at Chicago, December 2 to 9. At this contest the honors and prize trips will be awarded on the basis of efficiency in demonstrating canning in judging canned products and by the home canning record.

The unit will leave next June and will spend three months in Europe; eight weeks of the time will be spent in visiting places of interest in France and in demonstrating canning in the devastated regions under the supervision of the American and French department of agriculture.

The purpose of the contest, according to G. L. Noble, secretary of the committee on boys and girls club works is to encourage thrift in the conservation of all available products during the season of abundance; to emphasize through canning the importance of a constant, well rounded diet that will make for farm and rural home efficiency; to stimulate a greater interest in canning clubs and boys and girls club work and to determine prize winners worthy of a trip to Europe and capable of demonstrating canning to the French people.

It is estimated that the competitors will can \$675,000 worth of fruits and vegetables this year in preparation for the contest. A committee of state leaders and members of the states relation service of the United States department of agriculture have been collaborating with the national committee on boys and girls club work in preparing the rules and regulations of the contest so that they will be satisfactory to every state in the union.

The following state leaders are acting as chairman of each sectional contest in their respective districts: Miss Lois P. Dövedle, assistant state agent, Georgia, southeastern section; Miss Maude Sheridan, state club leader, Colorado, Rocky Mountain southwest section; Miss Elsie Traube, assistant state leader, Connecticut, Northeastern section; Miss Helen Cowgill, assistant state leader, Oregon, Pacific northwest section.

Three leaders who will train the winning teams will accompany the party, two coming from the state having the champion team and one from the state having the near champion team.

In order to be eligible, the contestants must be sixteen years of age or more by January 1, 1923 as well as to be members of a bona fide canning club for 1922, organized and

directed by a government extension agent. Forty or more states of the union will be represented in this contest, which is the largest ever conducted for the boys and girls club work in the United States in point of prize money and in the number of competitors. The 55,000 canning club girls are a part of 600,000 farm boys and girls in the clubs demonstrating the better farm and home practices under the supervision of the agricultural colleges and the United States department of agriculture.
