"Why, strain it through a silk handkerchief and see if you get any splinters," replied the young soak.

"No, growled Gap Johnson of Rumpus Ridge, who had but lately had a fower with his wife. "A Free Thinker is a feller that hain't married and don't have to go to revivals."

ATLANTIC LINERS WILL RACE

Ocean Derby Will Determine Which is Swiftest of Greyhounds; Mauretania Holds Record

LONDON, Aug. 19.—An Ocean Derby will be held on the Atlantic this summer to determine the fastest of the great liners on the Southampton-New York run. The position of the vessels in this contest for the Atlantic blue ribbon is as follows, the figures denoting the best speed for a whole voyage during the current season:

- 1. Mauretania.....25.29 knots
- 2. Majestic.....24.92
- 3. Berengaria.....23.38
- 4. Aquitania.....23.28
- 5. Olympic.....22.69
- 6. Homeric.....18.99

All these vessels, with the exception of the Homeric, burn oil fuel. Thus, as well as setting the speed championship, the race will provide useful data for comparing the new method of making steam by oil with the old method of using coal.

The contest has progressed far enough to reveal that the race now lies between the Mauretania and the Majestic. Can the latter deprive the former of her proud and long-held position as the "Atlantic Speed Queen." This is the great topic in ocean shipping circles. There is much argument and heavy betting.

The Majestic, like the Berengaria, is German built. She was designed to capture from Britain size and speed records. Her backers point out that she has shown her qualities in the latter respect by doing a recent sprint of 27.82 knots, and that as she is only beginning to "feel her engines", she will make things hum for her British-built competitors.

The Mauretania's backers reply that she, too, has not yet settled down since her conversion to oil-burning; that if spurring counts for anything she has a 28.2 knots spurt to her credit, and that with a former whole voyage achievement of over 26 knots she will, if needed, still show all-comers a clean pair of heels.

With all this keen but good-natured rivalry among the "greyhounds of the ocean," new records may be looked for before long. The new Berengaria may produce some surprises, now that she has taken to oil fuel, and she is looked upon as "the dark horse" of the Atlantic.

BIG ELEPHANT STAGED STRIKE

But Soft Hindustani Words Soon Brought Pachyderm Back to Normalcy

LONDON, Aug. 19.—A big female Indian elephant that went on strike at the Zoo last spring and refused to do what all big elephants at the Zoo are required to do—earn money by carrying children around on her back—has been cured of the sulks and laziness by the seeming magic treatment of an Indian mahout.

She was presented to the Zoo by the Maharajah of Cooh Behar two years ago. She had been well trained and acted at all times like a sensible, well-behaved elephant and obeyed orders properly. She developed no vices beyond that of picking pockets for edible dainties. But every elephant that has any sense at all learns to do that in the Zoo.

Then she took it into her big head that she would not submit to being bossed any longer. She declined to stand between the new riding steps that had been fixed up for the convenience of juvenile elephant riders. When the old wooden steps were substituted for the new ones she proved equally obdurate. In the end she declined to leave the elephant yard at all.

As the elephant is a fine animal, and quite good tempered, it was decided to obtain a mahout from India. He was enlisted for, and arrived in due course. He was taken to the elephant house. He at once entered the enclosure and formally saluted the animal, standing first at her head and then at her tail. Next he took off his shoes, and knotted a rope loosely round the elephant's neck, which he afterward used as a kind of stirrup.

With little difficulty he persuaded her to kneel and mounted her neck in less than two minutes, soothing, patting, and talking volubly to her in Hindustani. He had got on good terms with the animal. Then he took her round to the elephant ride, and apparently had her in complete control.

Phrases of his admonitions, freely translated, were as follows: "I am told that you eat your food, and will not work; it is wrong; Allah will not work; it is wrong; Allah will work for us all that we must work if we would eat. You are cheating your masters, and it is unworthy of you. I am only a black man, and you must not mind me. Put fear out of your mind; take it up from your heart, and throw it out."

The elephant certainly seemed to understand, and now obeys every order. The mahout was given quarters in another part of the gardens, but he obtained leave to sleep in the elephant house, as he says that he wishes to talk to the elephant during the night. He has not yet tried to saddle her, as he wants to take things slowly, but he is confident he will conquer all her fears and make her permanently obedient.

Candler Denies Charge

Mrs. Byfield, who claimed in her damage suit that she was so injured in the alleged attack on the night of July 16 in her stateroom that she was forced to undergo an operation last Monday, remained today at the home of her father, a city detective. Candler, who it was indicated might soon file an answer to her charges, issued a denial that he "had touched Mrs. Byfield" or that "anything of an improper nature occurred," and also asserted that "if she suffered any injuries on the trip it was from the terrific beating her husband gave her" that night. Byfield had admitted that in his encounter with the banker he also had struck his wife.

Barring a possible counter petition by Candler, the next step awaited in the case was the hearing set for September 2 of Chandler's suit to prevent Byfield from realizing on a note exchanged for the \$25,000 check given him after the affair aboard ship.

Whereabouts Is Mystery

Friends of Mrs. Chandler, who was formerly a stenographer in the Central Bank, refused to say to what place in California she had gone, but it was said she had taken her young son with her. The two children who made the trip to Europe are daughters of Candler's first wife, whom he wooed while a student at Emory university and who died a number of years ago.
