NEW ORLEANS TO ENTERTAIN VETS

150,000 Legion Members Expected at Convention; Harding May Attend

NEW ORLEANS, La., Aug. 22.—"The Crescent City" is preparing to entertain the largest gathering in its history when 150,000 members of the American legion and other visitors come to the legion's national convention here, October 16-20.

With the tentative acceptance of the convention invitation by President Harding and General Pershing, and the definite acceptance of Major General John A. Lejeune, commander of the United States Marine Corps, Samuel Gompers, president of the American Federation of Labor, and Keenaw Mountain Landis, commissioner of baseball, the legion meeting will assume national importance. Convention officials also expect to entertain a famous marshal of France and other world war notables. Prominent among the distinguished guests will be twenty-five wearers of

the congressional medal of honor, the highest award for bravery made by the United States.

President Harding has written convention headquarters that he will come to New Orleans if the pressure of public affairs does not interfere and a similar message has been received from General Pershing, who led the legion men to France, and who was a guest at their national gathering in Kansas city last year. The visit of General Lejeune will be of special interest to legionnaires since the marine corps leader is a native of Louisiana and was one of the most popular commanding generals in the American expeditionary forces. The presence of Gompers of the convention is expected to develop closer relations between the legion and organized labor. Judge Landis is the father of a former service man and has spoken at legion gatherings in all parts of the country.

In preparation for the visit of the thousands of former service men, the convention committee has prepared an elaborate program of entertainment. Convention sessions will be held only in the mornings, enabling delegates and visitors to partake in the festivities the remainder of the day.

BOUT IS CALLED OFF

Formal Notification Given by Promoter of Dempsey-Brennan Go

MICHIGAN CITY, Ind., Aug. 23.—Floyd Fitzsimmons, promoter of the boxing exhibition to have been staged on Labor day between Jack Dempsey and Bill Brennan, today made public a letter to Governor McCray in which he formally notified the governor that the bout had been called off.

"While I do not admit that it had been my intention to violate the law by putting on a prize fight contrary to the statutes of Indiana, yet I am bowing to your will," the letter said. "As governor of the state of Indiana you have spoken, and your word with me is law, although in yielding without a struggle, as I do, I am sorry to admit that I am financially embarrassed far more grievously than you can imagine.

"The publicity given, not only to the boxing exhibition but primarily as to your decision, was national, and now that I have publicly spoken, there will be no blaring headlines carrying defiance to the wishes of the governor of the state of Indiana."

Dempsey is expected to leave for California after a conference with Manager Kearns, who will leave here tomorrow.

P. S. Would Sell County To S. F. Booster Party

Dear Ed: Well, Ed, I have to ask yr. chk. for \$10 (ten dollars) which I asked you for and believe me I did not lose any time in cashing same on acc. as I said before your last one was n.g. Another thing Ed you forget to sign this check but I took it to my bank and got the money after I signed it myself and changed the name of your bank to the one here. So 'm much obliged.

Now that I have got the dough I will prepond my plan to make a barrel of jack when the S. F. boosters come here next month, which is like this: You no theys always been a lot of talk about Klamath see seedling to Calif. and this talk has been considerably aggravated since the recent visit here of Temperamental George, the Hon. Mare of the Rose City. As soon as T. G. left here the C of C got busy and invited a bunch of S. F. boosters to come here and they wire O. K. we will come such and such a day.

Now my idear is that in the mean time I will get options on a lot of land hear abouts and when these birds come I will sell them the options. Then they will go to the Gov. of Oregon and say look hear we have got options on about all of Klamath co. and unless you deed us the remainder of the co. we will buy this land and let it lay idol for ever and ever amen.

Well you can easily see what will happen, Ed. If the Gov. does not agree the people of Klamath will arise up on there feet and get soar and the Gov. will not have no chance to be elected in November. Besides, he would not take the chance anyways on acc. he knowa if the land is held idol the S. F. birds will not allow the Natron Cut Off Ry company to build its right of way over it and then he will have Portland soar at him also as well.

This idear is the bee's knees I'll say. All we need is a little jack for expences so you better sent along another check only do not forget to sign this one.

Yrs. and Oblige,

PHIL SPACE.

WILL TEST AERO TORPEDO ATTACK

Sham Battle to Be Held By Pacific Fleet Upon Return Next Month

LOS ANGELES, Aug. 23.—Efficiency of the navy's new aero-torpedo attack will be tested in the first manoeuvres of the Pacific fleet after its return to local waters next month. A sham sea battle, in which dreadnaughts will pit their prowess against the deadly swiftness of torpedo planes, is to be staged in the waters off Santa Catalina island, famous among sportsmen as the scene of many a thrilling battle between adventurous anglers and the fighting tuna or swordfish.

The ships of the battle force will put to sea from the Los Angeles base and the attempt to return to port without being detected by "enemy" air squadrons. Meanwhile, speedy scout planes will hop off from the air station at San Diego and will endeavor to locate the fleet and report its position to the slower torpedo planes. When these are given the position of the approaching fleet they will put out from port, release their torpedoes in the midst of the battleships and dart out of reach of the anti-aircraft guns.

These manoeuvres will take place within 50 miles of shore, on account of the necessity of the torpedo planes starting from a short base, but in December, when the new airplane carrier Langley arrives, similar tests will be conducted about 200 miles at sea.

The Pacific fleet is scheduled to arrive here September 12.

THE STAR

The popular Hildebrand company will offer tonight and tomorrow night the thrilling comedy drama "Bought and Paid For" at the Star theatre.

ber as an actor. The cast of characters is as follows: Robert Stafford—Rodney Hildebrand, James Gilley—Jack Phipps, Okee, a Jap valet—Nick Baker, Virginia Blain—Florence Underhill, Fanny Blain—Violet Neitz, Josephine, a maid—Charlotte Fletcher.

THE LIBERTY

It is obvious why Nazimova is called "the incomparable." This brilliant actress' performance in "Camille," shown yesterday at the Liberty theatre, where it began a run of two days, evinces such a mastery of

technique and emotional quality as makes her deserve the epithet to perfection.

In "Camille" Nazimova has done for the silver screen what Hornhardt, Eleanora Duse, Clara Morris, Olga Nethersole, and Ethel Barrymore did for the stage. These artists won fame for their interpretation of the role of "Camille". Nazimova, no less than they, has endowed the part with a charm and power.

Local picturegoers will not miss this picture. And after seeing the picture, one easily understands the statement that it is one of the finest love stories of all times, and that the play still thrills and delights, seventy years after being produced in Paris.

Nazimova's supporting cast includes Rudolph Valentino, celebrated for his performance in "The Four Horsemen of the Apocalypse" and "The Conquering Power".

THE STRAND

In "A Western Adventurer" shown at the Strand tonight, you will see a movie star—William Fairbanks, formerly an actor on the legitimate stage. Young, strong and virile, he typifies the ideal young American. Full of action, thrills and romance, his pictures will appeal to every red-blooded person who loves good, clean action and heart appeal in a story.

Stunts, action, thrills and romance in "A Western Adventurer," with William Fairbanks, shows what a daredevil cast may accomplish. At least a dozen times each member of the cast was in danger of losing their lives. The result is a picture that you will long remember.

An aeroplane stunt that will make you gasp. A horse and rider go up on an aeroplane 500 feet in the air and are shot off, dropping into the water. An all-metal plane was used and a half dozen cameras were stationed at various places to get the falling effect. One horse was killed, an aeroplane was wrecked and one man injured taking this stunt.

Klamath Falls, Ore., Aug. 22, 1922.

The Evening Herald, Klamath Falls, Ore. Gentlemen:

Opening our business July 15, just about a month ago, we have in that short time grown to where the three people in this store can scarcely wait upon the customers and we have arranged for additional help. Our sales frequently run above \$1000 a day.

We place as the reasons for our success two things as most important. One is our advertising in The Herald and the second is our living up to our advertisements with fair prices and good service.

We have done no other advertising than what has been given The Evening Herald and we are convinced that your paper reaches all parts of Klamath county and over the line into California. It seems certain to us that practically everyone within this field reads The Herald. At least they read our advertisement when it appears in your paper.

We appreciate the service you have rendered us in the building up of a new business in Klamath Falls.

Very truly yours,
Santford & Company.
By SANTFORD JONES.

ANY business in Klamath Falls that is a legitimate business can be made a bigger and a better business by advertising. If you are not getting all the business you want, or even if you are, and wish to hold that business, it is necessary to advertise.

MONEY expended for advertising is no more an expense than is that money which you spend for labor-saving machinery. Advertising reduces your overhead percentage.
