"It's the little things that tell," said the Conger avenue young lady as she pulled her younger brother from beneath the sofa.

She Investigated

A woman was entertaining some friends at a small afternoon tea party. Her irrepresible little daughter behaved faultlessly until the party was nearly over.

One particular guest had not ceased to arouse the child's curiosity. Finally she walked twice very slowly around the guest's chair.

"Well, dear, what is it?" the guest asked curiously.

"Mummy said you were two faced," replied the child, "so I was just trying to find the other one."

What would happen if the women of this country would go on a strike and do no cooking or other household drudgery until certain things were agreed to. That kind of a strike would last not one day.

Little four-year-old Margie, whose big sister brought her chum home to spend the night, thought it would be a great treat to sleep with them and having gained permission, she took her place in the center of the bed. She soon found it uncomfortable, and not wishing to appear selfish, asked:

"Sister have you plenty of room?" "Yes, dear," was the reply. "Then to the sister's chum!" "Have you plenty of room, Miss Manning?" "Sure, dear."

"Well, then, both of you move over!"

"Is your husband up?" asked the early visitor of a lady.

"Yes, sir," rejoined the lady with great innocence, "the butler and I carried him up at 3 o'clock."

MOVIE HOUSE BACK TO PRE-WAR PRICES

Tonight the price of admission at the Strand will be 19 cents—for everybody. Three days each week—Tuesday, Wednesday and Thursday—an opportunity will be given the public to enjoy the same quality of entertainment regularly given and at the rate of two shows for the price of one.

In making the reduced price Manager White says that it is done primarily with a view of catering to the wage earner. "The quality of my shows is not reduced at all," said Mr. White. "In fact this week the shows are of the latest—only 26 to 66 days out and of the best obtainable. I will continue the three-day reduction for a number of weeks and it is up to the public to show me that they want as good a show as can be seen in the city and at a price where the whole family can go for the customary charge for a single admission."

"I also wish to state that as long as I continue in business here in Klamath Falls I will continue my fight for the rights of the working class of people so that a laboring man and his family can go to see a show and know that he don't have to spend a days wages to see it. The war is over so is the high price for shows in Klamath Falls if I can prevent it."

SAYS ANTELOPE SLAIN

11 Dead Animals Reported in Humboldt County, Nevada

WINNEMUCCA, (Nev.) Aug. 23.—Slaughtering the herd of antelope in northwestern Humboldt county and adjacent Oregon districts is reported here. A. D. Callahan of McDermott recently found 11 antelope slain with bullets, and Superintendent Chalmers McCormick of the Union Land and Cattle company states stockmen are wantonly killing the animals. McCormick states the herd last year contained over 500 animals, but that not more than 200 have been found this year. Game lovers are seeking to have the government establish a game preserve and selfish stockmen are said to be exterminating the antelope to prevent losses of range land which would form part of the federal game preserve. It is probable action will be immediately taken by state and county officials to prevent further slaughter of the antelope.

Wallowa—Nibley-Minnaugh Lumber company building new dry lumber shed.

Milton tomato crop good.

Oregon City calling for sewer bids.

Bend—Pilot Butte road completed opening up another of Oregon's scenic wonders.

Roseburg to make saving of \$1200 in school expenses for next fiscal year.

New York—For the woman who is not satisfied with either a silk or a nainsook costume slip, there is now the costume slip of knitted silk or silk fibre. This is necessarily warmer than slips of the other sort, but it is ideal for year on a cool day beneath a diaphanous gown. A knitted silk slip in orange, for ex-

ample, is very lovely beneath a gown of ocean georgette, or a slip of ocean green beneath smoke gray.

New York—The dressiest of aprons of the young lady of about 7 years is made of cretonne and percale. It is the sort of garment that can be slipped on over rompers and worn as a regular dress or slipped on in its order. The flaring skirt is over a regular dress when romping cretonne in a gay design of red and green birds, blue and cinnamon posies. The bodice is of cinnamon percale, in solid color. Patch pockets and sash are of the percale also.

Paris—Even the vogue for red is supposed to be quite overdone but there still holds up an occasional touch of this flaming color even in the smartest of gatherings. A frock which featured sealing wax red recently was so charming as to make one regret that sealing wax tones have been killed by too much popularity. The frock was of palest sand crepe de chine and the touch of red came in very tiny poppies embroidered in a long spray from the center of the bodice to about the knees. Other little sprays of the flower were on the sleeves, and the girdle was a narrow taffeta picot ribbon of sealing wax.

London—A loose cloak intended for wear over the thin summer gown on cool days and in the evening, was of eoca crepe marocain, with a remarkable trimming of loops of silk braid. The loops were quite tiny, only two inches in length. There were nine rows of them around the hem of the cloak. Several rows more extended from the armpit to the wrist on the undersides of the sleeves. There were four rows also around the hem of the turnover collar.

TOO MUCH MEAT HURTS KIDNEYS
Take a Glass of Salts to Flush Kidneys if Bladder Bothers You.
Eating too much meat may produce kidney trouble in some form or other, says a well-known authority, because the uric acid excites the kidneys, they become overworked, get sluggish, clog up and cause all sorts of distress, particularly backache and misery in the kidney region; rheumatic twinges, severe headaches, acid stomach, constipation, torpid liver, sleeplessness, bladder and urinary irritation.
The moment your back hurts or kidneys aren't acting right, or if bladder bothers you, get about four ounces of Jad Salts from any good pharmacy; take a tablespoonful in a glass of water before breakfast for a few days and your kidneys may then act fine. This famous salt is made from the acid of grapes and lemon juice, combined with lithia, and has been used for generations to flush clogged kidneys and stimulate them to normal activity; also to neutralize the acids in the urine so that it no longer irritates, thus often ending bladder disorders.
Jad Salts cannot injure anyone; make a delightful effervescent lithia-water drink which millions of men and women take now and then to help keep the kidneys and urinary organs clean, thus often avoiding serious kidney disorders.—Adv. 192.
