MOVIES

THE STAR

"Sis Hopkins" that wonderful rural comedy drama will be the play at the Star theatre tonight, Saturday matinee and night.

This drama abounds in good clean comedy and gives Miss Violet Neitz, the charming little leading lady of the Hildebrand company, a chance to do some clever character comedy work as Sis.

As Obadiah Odium, Nick Baker has another role that will prove his worth as a comedian.

During the action of "Sis Hopkins" there will be specialties by Miss Charlotte Fletcher, Al Pleau, Nick Baker and Miss Florence Underhill.

On Saturday afternoon there will be a special matinee for the children.

THE LIBERTY

She was the snappiest little vamp model that her firm boasted. When she went out on a party with the boss and a visiting buyer you could bank on it that the order was going to be a good one. The firm thought as much of her as they did of their credit standing. Her one ambition in life was to hook a live millionaire and spend the rest of her days in luxury. But Cupid started shooting around reckless like and one of his

bulbs landed squarely in her heart. The guy was just a plain fellow from the country. You can take it from Molly it was a hard problem to thresh out. To find out how she did it see Marie Prevost in "Her Night of Nights" at the Liberty theatre tonight.

THE STRAND

A characteristic which makes "The Mysterious Rider," an adaptation of the novel of Zane Grey, which is the feature attraction at the Strand theatre tonight, a truly powerful screen document and enthralling as entertainment, is the producer's selection of players for the various roles. It may be said with confidence that players meriting the rank of star are seen in every important role of the big production.

Aggie Herring, who plays "Marion," the cook at the ranch house, is an example. Her function in "The Mysterious Rider" is to carry a comedy role. As Miss Herring is one of the best known artists of her type in pictures, and has been starred in comedy drama as well as with her own theatrical company on the legitimate stage, she is a rare choice for the part, and adds no small amount to the enjoyment of the picture.
