ACCUSED WOMAN GIVEN HEARING, MURDER CHARGE

Mrs. Ollie Blowers on Trial In Connection With Death Of Sheep Herder

Preliminary hearing for Mrs. Ollie Blowers in connection with the death near her roadhouse near Crescent last Friday night of Tom Montoya, Mexican sheep herder, was started in the justice court today.

The body of Montoya with two bullet holes in the chest and one near the left ear was found near the old Knott ranch after Mr. and Mrs. Lowry, auto tourists of Amity, Oregon, reported the shooting which occurred near their camp. H. E. Meads, R. Thorek Morton and F. A. McDaniels were notified and called Sheriff Low. Mrs. Blowers was arrested and brought to this city where a charge of murder was lodged against her by the sheriff.

Testimony today largely concerned the footprints discovered on the road leading to the point where the body was found. Meads was called as witness and testified to finding the body with the two sheep dogs standing on either side.

At the coroner's inquest yesterday the verdict was that Montoya had been killed by a gun in the hands of an unknown person.

Mrs. Blowers is represented by W. P. Myers, an attorney of Bend. It is expected the hearing will end today.

All's got. Bring on the bear and let's go!

That was the word sent out this morning by Californians who will observe the birthday of their state with a banquet at the chamber of commerce tonight.

The doings will start at 7 o'clock and from all indications those who are late will have to eat with the chef or else accept such California tidbits as the more fortunate ones may deign to toss them from the table.

Speaking—short and snappy—stunts, music and other features will eliven the evening. California fruit will be plentiful.

Golden nuggets have been imported. These, however, are for decorative purposes only and may not be carried away by the guests.

The petition contends that the supreme court of the District of Columbia has no authority to review or modify the order.

HAVE NARROW ESCAPE

Trees Save Medford Autoists from 200-foot Plunge Into River

MEDFORD, Sept. 9.—W. H. Barnum and wife, pioneer residents of this county, narrowly escaped death this week, in an auto accident on the Green Springs mountain road, a short distance from Keno. A tree saved the couple from a 200 yard plunge into the Klamath river, and down the side of a mountain. The car was badly damaged, but the aged couple escaped without serious injury.

Barnum and wife were driving home from a trip to Klamath county and while traveling over the mountain, encountered a car, just before a short turn on the narrow road.

They met another car, and in turning out struck a bump, which caused their car to skid in the soft dirt, and plunge over the embankment. The car with the occupants, turned over twice before striking the tree, which Barnum says saved them from death. Other cars were near and rescued the Medford people from their precarious position.

A force of men from a nearby saw-mill pulled their car out, and they returned home, and highly grateful at their miraculous escape.

NEVADA RACE CLOSE

Chandler Leading Arentz for Sen- ator By 178 Votes

RENO, Nev., Sept. 9.—The republican nomination for United States senator is the only result now in doubt in the Nevada primaries held Tuesday. Tabulation today showed that Charles S. Chandler of Ely was leading Congressman Samuel S. Arentz by 178 votes, with only a few unimportant precincts in isolated sections to be heard from.

On the democratic ticket James G. Scruggs of Reno was nominated for governor and Charles S. Richards of Reno for congress.

On the republican ticket John N. Miller of Hawthorne was nominated for governor and A. Grant Miller of Reno for congress; E. W. Griffith of Las Vegas for lieutenant governor. The official count may affect the result in the republican nomination for United States senator as the vote from hundreds of distant precincts was sent in by telephone and couriers, making errors probable.

SEEK HIGHWAY ROUTE

Bridge May Link River at Upper End of Conger Avenue

A preliminary meeting was held this afternoon by the county court and a committee appointed by the chamber of commerce, composed of W. O. Smith and Mayor W. S. Wiley, to determine the course to be pursued in connecting Conger avenue with the proposed west side highway.

One proposal is to declare an improvement district in the Conger avenue vicinity to raise funds for building an approach to a bridge spanning Link river. The bridge would be built at the upper end of the island at a narrow point in the river. The California Oregon Power company has agreed to furnish right of way and to complete the road bordering Link river without cost to the county or city.

Should the committee and the county court reach an agreement it will be up to the property owners affected to decide on the question of an improvement district.

PROSPERITY IS WAITING TO BE WELCOMED, HELD

Industry Will Forge Ahead With Settlement of Controversies

WASHINGTON, Sept. 9.—Predictions of prosperity to come have been taking much space in the public press for the last year. Opinions of many men supposedly qualified to speak with authority have been sought and eagerly published. But here is not a prediction based on hope or "general conditions" but upon statistical facts.

Some New York banks took the trouble to gather up the facts and present them as real evidence. According to these figures, bank clearings in 1921 were 15.7 per cent higher than a year ago; industrial employment in New York state 11 per cent and throughout the country 15 per cent; pig iron production 177 per cent; zinc production 84 per cent; copper production 30 per cent; automobile 59 per cent; sugar molasses 78 per cent; electric power production 21 per cent; building contracts 61 per cent, etc.

These figures are the true index of what has happened and a firm foundation on which to build a tremendous prosperity for the immediate future.

From these facts the banks draw the obvious conclusion that real prosperity is here and that within the settlement of most industrial conditions to be visible. An officer of one of these organizations puts it: "When all allowances have been made for the whole new year head and for the great seriousness of the times of depression, the economic picture presents a picture of contrasts with that prevailing one year ago, when American business was at the lowest ebb in many years."

To measure some of these contrasts is to gain the two-fold conviction that business recovery has been substantial and that, when strikes are settled, the revival will logically continue many months before reaching the crest of a new prosperous era."

CHURCH PLANS WORK

Two Objectives of Christian By First Christian

The First Christian church of this city is undertaking an intensive program for the next few weeks. Two big objectives are before the members of the church. The first is the tithing campaign, which consists of morning sermons during the month of September on the "Tithing and its value to the Christian life." To culminate this feature of church work, will be the Every Member canvass on September 24. C. F. Swander, the state superintendent of the Christian churches, will occupy the pulpit that day, and will speak in the interests of the local and state work.

The second event will be the revival to be held the first part of October. The Rev. Johnson, pastor of the Princeton Christian church will be the evangelist, with the Rev. A. B. Bristol, minister of the local church, as the singing evangelist. The Rev. Johnson comes very highly recommended both as a man and an evangelist.

Beginning next Sunday evening, September 10, the minister of the Christian church will begin a series of sermons on "The Bible." The sermon Sunday evening will be "The Bible, the greatest book in the world." The Sunday evening following there will be another sermon dealing with the same subject. This, however, will be a chart sermon.
