VETERANS' LAND

(Portland Telegram)

AFTER the close of the Civil War many thousand veterans made farms and homes out of the broad acres west of the Mississippi which a grateful nation gave to them.

Now we have millions of veterans of the world war. Many of them desire to lead their lives on profitable farms. Our free arable lands are gone, but we have millions of acres of arid land which can be made fruitful by artificially watering them.

These facts were presented recently by Senator McNary in a speech supporting an amendment to the soldiers' bonus bill. He did not speak figuratively when he said that a splendid opportunity is given to congress to do great things in empire building.

Yes, shirts are longer. But we still have mice.

What makes a half bald man madder than buying a whole hair cut?

Love nests are hatching out breach of promise suits.

Miners won't dig down as deep as the man who buys their coal.

Some towns have all the luck. Philadelphia landlord is missing.

Men who long for the long days would hate long underwear.

Every man deserves a living wage except a saxophone player.

When school opens a boy's neck thinks every day is Saturday night.

Why don't some women have to pay income tax on three-fourths of what their husbands make?

Travel broadens some. Others return as skinny as ever.

This may be an awful country; but a Swiss firm is using Austrian money to wrap soap in.

Love makes the world go round; but knocking a man on the head has the same effect.

Hunt the bright side. If we know what the weather was going to be, how could strangers talk?

Lightning never strikes twice in the same place, but miners do.

OFFICE SEEKERS COME IN FLOCKS

67 Aspire to Represent Central States in United States Senate

CHICAGO, Ill., Sept. 9.—Sixty-seven citizens, aspiring to represent their states in the United States senate, became candidates for that office in ten states of the central west in primary races this spring and summer.

Nebraska led in the "open field and no favor" contest for senator, six men fighting for the republican nomination, three for the democratic and three for the progressive.

Iowa had eight candidates for the senate office, six republicans and two democrats. Texas, Minnesota, and Indiana followed close with seven candidates.

Ohio proved the favorite field for gubernatorial candidates, thirteen jumping into the race for the one executive office of that state.

This sudden increase in the number of candidates for state offices is in marked contrast with the number placed before the voters under the old party convention system.

Indiana had candidates for the nomination for 13 congressional offices. Four hundred and forty were out for the 100 vacancies in the state house of representatives.

In Ohio there were 104 republican candidates for the legislature, 34 for the senate and 70 for the house. The number was further increased by 44 candidates on the democratic ticket.

Sixty-eight candidates sought county offices in Sedgewick county, Kansas, eighteen of whom will be elected to office.

WILL TRY TO SHOW MOTHER'S METHODS ARE OUT OF DATE

CHICAGO, Ill., Sept. 9.—Scientists will attempt to demonstrate that mother's methods in baking bread are out of date when the bakery exposition and conventions of national baker associations are held September 11 to 16.

How modern scientific control has taken all chance and possibility of mishap out of what was once mother's "intuition" in getting a good bake of family bread will be shown at the exposition to be held on the municipal pier.

Huge steel-armed mixers, each having the strength and working force of 300,000 women, traveling ovens and other modern machinery will demonstrate the exactitude in the modern bake shop.

Progress of the baking industry within the last fifteen years will be shown in machinery valued at more than \$1,000,000 which will be in operation, turning out bread, pies and cakes according to present day quantity production methods.

Among the prominent speakers will be H. C. Spillman, who will talk on "The Man Behind the Loaf"; H. A. Wheeler, vice president of the Union Trust Co., Chicago; I. K. Russell, editor of "Baking Technology"; and Dr. W. W. Skinner, assistant chief of the U. S. Bureau of Chemistry.

High Light Achievements of the Republican Administration. Debt and Expenses Slashed, Liberty Bonds at Par, Unemployed at Work, Peace Promoted, Budget Established, Prosperity Revived. JOHN T. ADAMS, CHAIRMAN, REPUBLICAN NATIONAL COMMITTEE.

Sixteen months ago the Republican Party took over the management of the largest business concern in the world. It found the organization of this concern utterly demoralized, as a result of eight years of riotous waste, gross mismanagement and class legislation.

The last year of Wilson's administration the actual cost of running the government was \$5,528,000,000. The actual cost of running the government for the fiscal year just ended June 30 was \$2,785,000,000. This is an annual saving of \$2,743,000,000 which the Republican administration has made in the routine expenditures of the government.

The work of Congress, the wise administrative policies and the introduction of business methods by the departments in the conduct of public affairs have all combined to revive individual and corporate enterprise, so that today, in contrast to a year ago, unemployment has ceased to be a factor outside of those industries in which there are strikes.

The Republican party will go before the country this fall without any apology for this record. It is a record which needs no defense. The people are not going to stop the magnificent work so well begun. They are not going to retreat to the conditions which prevailed prior to March, 1921.

As a result of their joint effort there has been within the last 16 months a marvelous transformation. The bond indebtedness has been reduced by \$1,014,000,000. Today every issue of Liberty and Victory Bonds is selling at par or above, representing an increase of \$2,200,000,000 in the value of government securities in 16 months.

TODAY AT THE LIBERTY. THE WIZARD OF OZ. THE DUKE OF CHIMNEY BUTTE. SIC 'EM, BROWNIE. Continuous show Sunday starting at 1 p. m. The attraction is "SISTERS" featuring Seena Owen. The story is by Kathleen Norris and was one of "Good Housekeeping's" features last year.

WILL LOG LAST BIG PINE TRACT

80 Miles of Main Line Railway necessary to Tap Virgin Territory

WASHINGTON, Sept. 9.—The last great tract of untouched pine timber in the United States and the last frontier of settlement, are about to pass.

Behind the announcement of the forest service regarding the proposed sale of timber in the Malheur national forest, Oregon, says a statement by the National Lumber Manufacturers association, lumbermen see the last opportunity for their trade to deal initially with a virgin forest of great extent, and the last opportunity for the settler to take possession of a region, now remote, from railways and markets, and virtually unused agriculturally.

The opening for sale of the timber of the Bear valley unit of the Malheur national forest, says the statement, "affects 890,000,000 feet of the great Blue mountains forests now, and means the beginning of the lumbering of the entire forest with its more than 7,000,000,000 feet of timber. To begin the lumbering operations it will be necessary to build about 80 miles of main line railway, besides tap lines, which will open for settlement an agricultural country with area of 10,000 square miles.

While this ancient forest is doomed, the terms are such that the succession of its sylvan posterity is secure. Though the timber now offered for sale by the forest service is sufficient only to keep a moderate sized mill running continuously for 20 years, the service will at the end of that time open up another unit and eventually 7,000,000,000 feet of timber will be available.

The agricultural development to ensue upon the lumbering activities which will employ hundreds of men and the necessary railway building, also will demonstrate the policy of using the national forests as an adjunct of the general progress and welfare of adjacent regions.

YELLOWSTONE NATIONAL PARK. NATURE'S WONDERFUL AND AMERICA'S MOST FAMOUS PLAYGROUND. THROUGH SLEEPING CAR. Operated DAILY between PORTLAND and WEST YELLOWSTONE by the UNION PACIFIC SYSTEM. Round trip fare, via Portland, going and returning \$64.25. GO NOW. The Park closes September 19.

Farmer. Enter your dairy stock at the COUNTY FAIR. October 4, 5, 6. It will encourage others to get better stock. Let's all get behind the fair and make it the best we have ever had. Housewives ask for Klamath Creamery Butter and help the dairyman. Klamath Falls Creamery.
