The present administration with rare window undertook to secure concrete and definite international agreements which would result in diminishing the bility of future wars by limiting the armament of those nations whose competitive strife could only result in future wars. Accordingly, the President called a Conference to meet at Washington to consider the limitation of armament and to make such settlements and agreements especially with regard to the Pacific and adjoining ry as would determine existing and remove causes of future

discord.

Fudged by practical results the Washington Conference was the great est actual achievement in the cause of never accomplished. It secured a treaty agreement by the five great maritime powers for a definite limitation of naval armament. It secured a definite agreement regarding the me of submarines and mozious grees in warfary. It secured by the fluorest traity all agreement fixing the status, defining the rights and illimiting the building and cularging of furtifications and naval bases on the Pacific. HOLDS THAT COMPULSORY EDUCATION BILL IS VICIOUS

Editor, The Herald:

Many people throughout the county are puzzled about the so-called Compulsory Education Bill and wonder ing what all the stir is about. This opportunity is taken to explain as clearly as possible the nature of this vicious bill. The purpose of the bill as it reads, is to force all children under the age

of sixteen to attend the public school and no other. The history of its enreading for those who wish to keep America clear from the Black-Hand methods of Europe and to preserve our schools intact from the influence of pernicious polities. It was conceived in the minds of some leaders of organizations who visited Europe two years ago and brought back with the Idea that they could force Communism and Sovietism into this country by closing the private schools. Oregon was chosen as the weakest state and the most likely to fall for freak laws. These people were helped by the Ku Kluxers, who imagine and aim to deprive some citizens of the rights given them by God and guaranteed by the constitution. Acting under this un-American impulse, a petition was produced sev-eral menths ago, to have the bill put on the ballet. Sufficient signatures were procured through migrepresentation and fraud. The people were told that it was a compulsory education bill, without having explained to Leading Clothiers. without being told that we already have a Compulsory Education bill. This fraud was continued, through the papers, by declaring fifty thousand signatures had been secured When these signatures were counted were only twenty-eight | thousand. and of these twenty-eight thousand, twelve thousand were found to be epetitions or otherwise illegal.

We say his bill is vicious because it would have vicious results should it ever become a law. It would unjustly tax the people over two million lollars annually, besides placing an extra bond of over six million dol-lars for new building. It is vicious because, under the phase of law, it would deprive without compensation some citizens of the lawful use of the buildings for which they have spent millions of dollars; it is vicious because it makes for class distinction and class hatred among the citizens of our community, and above all it is vicious because it deprives people the right which God implanted in the nuture of things; the right of the parent over the child, and would deprive them of the freedom guaranteed by the Constitution of the Unit-

Some have false impressions that this is a fight between the Musons the Catholies and other religious or-ganizations on the other. We absol-utely maintain that such is not the case: that not vive per cent of the Manons ingthis county; or any other county in the state, knew such a bill was to be proposed. The supreme officers of the Scottish Rite Masons only have had a hand in this. We have the public statement of many prominent Masons that it is not the practice of their order to encourage such freak and anti-American propa-ganda: that they believe in a square deal for all. These of you who have read Secretary Kozer's pamphlet and who happen to know the original source of this proposed bill are struck with the audacity of the faction-makers who, coming from other hood to inject this bill into Oregon

ter seriously must be impressed with the threatening results: strifes and hatreds of the bitterest kind; injury to the business man; people moving out of the state; others refusing to out of the state; others refusing to enter. And what do the promoters of the so-called Compulsory Education Bill offer in exchange? What good has any one of these promoters brought to the county? And when they have succeeded in their attempt, will they decrease your taxes? Be mindful of that extra two million, and six million dollars, to be imme-diately placed on your shoulders. and six million dollars, to be immediately placed on your shoulders. Will they make more law-abiding citizens? Will their begetting of feeds and factions head the already loathsome wounds of Klamath? Look to your sister-kity, Medford, or to any city where they have obtained an entry, for a sample of their nefarious work; there brother has entered battle with brother; Mason against Mason; Elk against Elk; Legionaire against Legionaire; until a pall has come upon the city that no number of years or efforts can remove.
