hat Ben Olcott is not more popular than he is, is because he is a typical business man, his attention centered at all times on the commercial develspment of the state; careless of his personal fortunes and a stranger to the strategems and subterfuges of

We'll cheerfully admit that either Walter Pierce or Charles Hall would make a more pompous governor than Ben Olcott; but pomp and bluff are not the attributes that are needed in Oregon for the next decade.

Forget these foolish politicians; full of unfulfillable promises; offering anything that is likely to get a

Let's quit kidding ourselves. We can't lift ourselves by our bootstraps. The lifting power must come from outside ourselves; through new settlers and new capital to develop the immense raw resources of Oregon and make them available for taxation: As the valuation of the state increases, taxes will decrease

The only way to get the settlers and the money is to stamp out our feolish quarrels, o defeat by & derisive majority the foolish measures hat have been placed upon the ballot, to cast a vote that will let the world know that Oregon's people are same and resent the meddling interference of radical politicians from the four corners of the country, with" their freak experiments.

Walter Pierce is not the apostle of such a program and this last desperate grab for the radical and prejuuntil married men stay at home. diced vote proves he is not.

The record of Ben Olcott is a record of sound business administration, representative of no class, class or group but in the interests of all the people of the state.

lsn't it about time for the rightthinking citizens of Oregon to come out of their Ku Klux trance and line up on the side of common sense and commercial development?

PINE IMPORTATION TO BE ENCOURAGED BY JAP GOVERNMENT

TOKIO, Sept 13 .- The Japanese government has decided to encourage the importation of American pine with a view to regulating the market quotations of timber in general. There has been such a steady increase in the importation of American pine that some timber dealers here regard it as a menace to the domestic forestry enterprise and an attempt by the imperial government to. keep the influx of the timber in

check, is advocated. Nakai, chief of the forestry affairs bureau in the department of agriculture and commerce, however, belittled the suggestion while admitting the growing increase of the import from the United States, "it is true," he stated, "that during the past few years the import of American pines has been more than doubled chiefly because of its lower quo-What makes a country hotel bod tations.
