den of taxation on real property, that is already bearing more than its share. There is a bill authorizing a orid exposition at taxpayers' ex-There are two income tax measures, either of which would take an army of tareaters to enforce and greatly increase taration, without any assurance of lowering the tax rate. Last but not least, there is the

measure erroneously inbeled "com-pulsory school bill," which aims to close all private and church schools in the state, and confiscate investments made in these recognized worthy and legitimate enterprises. How can Oregon expect to grow

and develop when measures like these are constantly agitated and per-petually before the people? What investment or business is safe when such discriminatory legislation receives serious i consideration and every long baired dreamer, wild eyed visionary and crank inflicts his schemes on the public, when every prohead and every grafter capitalises prejudice and intolerance to gratify spicen. or commercializes the Initistive to blackmail Industry?

Of all these measures, the school bill is the worst, because it is an infringement of the constitutional right of the individual, because it makes the child the ward of the state, and deprives parents of voice in training offspring, because it stamps the state as the abode of medieval sigotry, and brings an element of divwith that must still further retard relopment by driving away needed lation. It is unfair and unjust and of full my in that it destroys established and nerve had made ligatised business, already upder state supervision, to which there ex-

Taxation in Oregon is already prohibitive to investment, and to close the private schools and compel the state to pay for the education of the many thousands of children non recetving instruction at private pense will enormonaly increase taxa-tion. School rooms all over the state are badly crowded and it will involve ad; that the alternative an enormous expense for the construction of new buildings and intion for their maintenance. Anyone who claims to have the

THAT it has demonstrated at all times, its willingness to help all sections of your trade territory?

- THAT recognizing the value that there is in working aggressively. their sole and only purpose is to develop practically all the natural resources that are in your section and to that end, assuring progress and prosperity for all the people who are now residents or may become residents by reason of invitations extended and conditions made inviting by the combined efforts of all the people?
- THAT it has never been selfish in its endeavors and has demonstrated its entire willingness at all times, even of its time and money, and to give the benefit of its experiences to your neighbors who have become aspirants for a "place in the sun" of your state's prosperity?
- THAT it has at all times, brought a quickening influence that will be for those who are now backward as well as for the greater advancement of those upon whose shoulders rest the twin blessings of PROGRESS AND PROSPERITY, making for the exalted greatness of an already great community that is "marching on" to a greater growth by the combined work of the forward going citizens, who comprise your Chamber of Commerce ?-----E. R. Waite, Secretary, Shawnee Oklahoma Board of Commerce.

Letters from the People

CATHOLIC SCHOOLS ARE LOYAL SAYS DEFENDER

Editor Herald :----

Inasmuch as comments are being understandings; therefore, if the Oregon will be benefitted by the do- church. feat of this very iniquitous measure.

often stated and hammered home "Compulsory school attendance" bill; Oregon has had such a law and do attend some school. The bill public schools, which means the closing of all private schools, and Catholic schools in particular, which, after all, is the real purpose of agitation.

whole appeal for the passage of this triotic American citizonship. measure falls to the ground.

charge for the reason that the attack is too indefinite. No particular instance is cited where Catholic schools have ever taught disloyalty -nothing that can be investigated and proved to be untrue; no time, place or individual is named. Sim! ply the charge is made and re-made and parroted about the state that the Catholic schools are un-American, they do not teach one hundred per cent Americanism, and therefore they must go.

Now of course if this charge had even the slightest semblance of truth in 'it, then in all sincerity and patriotism we all should join in the crusade and thus rid our country of a menace. But there is not one scintilla of evidence anywhere to substantiate it. The Catholic church. from her pulpits and schools preaches

CREDIT

When a store extends credit to you-Usually it has to purchase on credit-Why? Because a man with a surplus of capital usually is not operating a small store. When a credit store closes its do ors who stands the loss. You will say its creditors of course, but we will disagree with you, its creditors could not continue to stand such losses or they would likewise close. We believe you will find they add such loss to the merchand ise they sell other credit stores and if you continue to patronize a credit store we believe you will in the end foot the whole loss. You may ask why wholesalers do not add this loss to the cash store as well, the reason is simple, the cash store has the cash to pay for merchandise purchased. If anything is added he is in a position to look elsewhere and no one realizes this quicker than jobbers of merchandise.

This store is operated strictly for cash upon delivery of merchandise and from our investigation we believe we are the only store in Klamath County operating for strictly cash. Some store may hand you bait now and then to endeavor to make our price look out of line. We never cut one piece of merchandise to draw you in the store and raise another to equal up our profits, of course it is true we can sell some things cheaper than we are but only when you give us enough patronage to enable us to purchase such merchandise in large volume. We are glad to say that the generous patronage on much of the merchandise we now handle is enabling us to purchase such quantities as will insure you the right price.
