

**ENGLISHMAN DON'T  
THINK MUCH OF HIS  
AMERICAN COUSINS**

LONDON, Oct. 7.—An opportunity for Americans to see themselves as at least some others see them, is afforded by an English correspondent who comments on the number of American tourists he has met in his travels through the country recently.

"At Chester," he writes, "one would have thought that the Mayflower's passengers had all taken dateless return tickets and sent the whole of their descendants back to the old country in a bunch."

The hotel where I stayed was full of sharp-faced men, elastic girls and shrivelled old ladies with eye glasses and a drawl, who drank their water hot at breakfast and

sold at dinner with an air of trying to believe, for the credit of the Stars and Stripes and the laws of the United States, that they preferred it to wine.

"On the city walls, in the Cathedral, by the pleasant Dee, everywhere one heard the Chicago burr, the western nasal twang, and what I beg leave paradoxically to describe as the long-drawn snappiness of New York.

"There never were more Americans here, a resident told me, "but they are mostly middle-class people who have been induced by the European rates of exchange to take a cheap holiday across the pond, and they don't lavish money like the millionaires of pre-war days."

"This comfortable assurance," says the writer, "enabled me to leave the city without ruining myself in tips."

**Will Search Ruins  
Of Patriarch Abraham**

PHILADELPHIA, Oct. 7.—When work begins October 15 in exploring the dust buried ruins of the city of Ur, ancestral home of the Patriarch Abraham, by a joint expedition of the British Museum and the University of Pennsylvania museum, the archaeologists will have to contend with few of the extraordinary difficulties which hitherto have hampered work of the sort in Southern Mesopotamia.

That country is now under a British mandate. Hence the first difficulty—that of sharing the best of the discoveries with the museum in Constantinople—is removed. Then, before the war virtually everything had to be done by hand. The expedition now on its way will be the first to utilize a complete modern mechanical equipment. Streets once thronged with men and women, silent now and buried for three thousand years, will echo the roar of locomotives and motor trucks.

"The expedition will start work under the most favorable auspices," said Dr. G. B. Gordon, director of the university museum. "Since the British museum is a governmental institution it was a simple matter to obtain equipment. The colonial office gave the utmost cooperation. A military railway and motor lorries have been provided to maintain communication with headquarters of the expedition, which will be at Bagdad."

Dr. C. L. Wolley, who has been at work recently on a Hittite site on the upper Euphrates river, has been selected by Dr. Gordon to head the expedition, the British museum having asked him to name a chief. Colonel T. W. Lawrence, a war hero and explorer of international reputation, will be second in command. Colonel Lawrence is credited with winning the Arab tribesmen over to the allies in the world war. He was captured by the Turks and spent two years in a prison camp.

**Flapper Styles**

"The latest thing is the dishrag sweater."

"Ought to go nicely with the bath towel skirt."

**Learning How to Use It**

This squirrel resident of the White House glimpsed a news photographer's camera on the steps and decided to investigate. Perhaps he's looking for the nut.

**FREE LEGAL ADVICE  
FOR TOURISTS PLAN  
OF YAKIMA, WASH.**

YAKIMA, Wash., Oct. 7.—Free legal advice for tourists arrested for violation of traffic laws in Union Gap, the first incorporated town south of Yakima, is to be furnished by commercial organizations of the Yakima valley, in an effort to curb activities of the speed officer and judge at the Gap.

The stretch of pavement in the city limits of Union Gap looks just like any other piece of pavement, it is claimed, and has become known as a speed trap. Other towns fear that its fame will spread and keep tourists out of the valley. Hence the free lawyers.

"Union Gap is not out to get flagrant offenders, but the get money," the Sunnyside, Wash., commercial club declared in a resolution, terming actions of the small town "arbitrary and unreasonable."

**Egypt Adopts Modern  
Cigarette Machinery**

ALEXANDRIA, Egypt, Oct. 7.—Egypt has finally come to the introduction of modern machinery for the making of cigarettes, and as a result the industry is being revolutionized.

Formerly a thousand cigarettes rolled by hand involved a labor cost of \$1.00; now the same number is being produced by machine for eight cents. As a result the number of cigarette hand rollers has been reduced from 1519 to 318, and there is much dissatisfaction among them. The labor conciliation board has taken on the matter in hand and hopes to compose the difficulty.

Athena—School district No. 2, to get new \$175,000 school house.  
Hood River—Market road paving complete at cost of \$26,000.  
Helix—New \$50,000 union high school planned.

**Sea to Be Named In  
Memory of War Heroes**

SYDNEY, N. S. W., Oct. 7.—Naming of the Tasman sea, the waters of which touch Australia and New Zealand, the "Anzac" sea as a lasting memorial to the soldiers of both countries who took part in the landing at Gallipoli, which was the genesis of the word Anzac, has been suggested here.

**Christian Science Society  
OF KLAMATH FALLS**

**"HOME"**

Make the family circle complete.  
**PRESBYTERIAN CHURCH**  
SIXTH AND PINE STS  
ARTHUR L. RICE, Minister

KLAMATH FALLS, ORE. October 5, 1922.

**To Klamath County Chamber of Commerce, Business Men and Citizens:**

We the undersigned employees of the Southern Pacific Company in Klamath Falls and Klamath County believe that our interests, the interests of the Company which employs us and the citizens and business people of this County are the same.

We are vitally interested in the final disposition of the Central Pacific properties. Should the Central and Southern Pacific lines be torn apart the Central Pacific which serves this community being forced to operate independently would be a financial weakness.

Such a condition would be a grave misfortune for us and we believe it would be a calamity for this County and State. We are therefore taking the liberty of respectfully petitioning your honorable body to intercede for us, for the Company employing us and for this community with the Interstate Commerce Commission to the end that the Central Pacific and Southern Pacific may continue to remain as one system financially strong and vigorous.

When this has been accomplished the Company will immediately begin that major construction work long neglected on account of litigation.

This will mean much in the expenditure of funds in this community for supplies and labor.

In this the employes of the Southern Pacific as well as the citizens of this County will be permanently and substantially benefitted:
