FRATERNITY

THE development of brotherly affection in lodges and fraternities and other organizations is one of the finest aspects of our so-called American life.

But if they would compare their situation with that of many struggling people, they would realize that they have little to complain of.

These complainers have perhaps had to give up some luxuries that they used to enjoy.

The enjoyments that come from extravagant spending quickly disappear.

The world will be in a good deal of turmoil until this spirit of consideration and friendship becomes more general and until people do their utmost to remove evils that cause suffering and distress.

Alaskan Railroad Marks Passing of River Camps

CORDOVA, Alaska, Oct. 9.—The practical completion of the government railroad in Alaska marks the passing of the famous river camps along the Yukon, according to George Anderson, an experienced Alaskan traveler, who declared that river travel already has been virtually abandoned.

steamers recently left only the small mail launches plying along the river that was once the main thoroughfare between Dawson and the coast.

Without regular steamer advice, says Anderson, the bustling communities of gold rush days will be cut off from communication with the outside world and other parts of the territory, and unless new interest in the section is stimulated by the re-establishment of lines to handle tourist travel, Anderson believes these towns will soon be virtually deserted.

S. P. PROMISING THE IMPOSSIBLE

(Continued from Page 1)

also line, and they know that the Interstate Commerce commission so regards the decision of the supreme court, witness letter from Chairman McChord at the summition to the Medford chamber of commerce, July 19, 1922, reading as follows:

July 18, 1922. Mr. H. O. Frohbach, Secretary, Chamber of Commerce, Medford, Oregon.

Dear Sir: I have your letter of the 16th instant urging that this commission take appropriate steps to avoid the recent decree of the supreme court of the United States requiring separation of the Southern Pacific and Central Pacific properties.

In reply I have to say that, so far as I know, there is no pending proceeding in which this commission could undertake what you ask, unless the omnibus proceeding looking to the voluntary consolidation of all railway properties of the country into a limited number of systems is one in which that matter could competently be considered. As far as I am advised our power is and by any proceeding to reverse or nullify the decree of the supreme court is at best an open question.

In the meantime, I may add, the decree of the court does not have the effect of closing any transportation routes or of increasing any transportation rates, and those matters are at all times within our regulatory control.

Very truly yours, (Signed) C. C. McCHORD.

They are therefore simply trying to prevent the entry of a competing line into the Oregon field, and this is the most they hope to accomplish. Will the people of Klamath county assist them in their exclusive control or will they enter into the situation in a determined way to accomplish competition with the benefits and developments that must ensue from it to your community?

Plan Drive For Funds For Stanford Hospital

SAN FRANCISCO, Oct. 9.—Plans for the launching next month of a campaign to raise \$1,000,000 for additions and improvements to the Stanford university hospital here have been decided upon by the board of trustees. This is the third of three million dollar campaigns looking toward a greater Stanford university.
