

SOCIETY

A steady round of social functions filled the calendar for the week past and many bids are out for coming functions. Church activities continue to occupy a part of the women's time. Halloween parties are scheduled to be the next big affairs for which arrangements are being made.

The Elks lodge held its first informal dance Thursday evening in the ball room of the temple. The affair was attended by the majority of Elks and their ladies, who danced until the conventional hour of 12 o'clock to the strains of Hous-ton's orchestra.

The Klamath county high school entertained with a dancing party Saturday night for their own student body and for the visiting football team from Medford.

Mrs. William Duncan was hostess Wednesday to The Bridge club. Three tables were in progress throughout the afternoon, at the close of which dainty refreshments were served.

TESTED UNDER TONS OF WATER

EVERY Clark Grave Vault before it leaves the factory withstands the severest possible tests. It is completely submerged in water—subjected to two and one-half tons pressure. It must be absolutely air-tight and not any time permit water to leak through. (Stone, brick and concrete vaults let water in and hold it.) Its proved protection is made permanent through the use of heavy twelve gauge Keystone copper-bearing steel—the most perfect rust resisting steel made. All joints are doubly welded; are thicker and stronger than the plates themselves. We earnestly recommend this "quality" vault.
