"Does the baby talk yet?" "No," replied the baby's disgusted little brother, "the baby doesn't need to talk."

"No, all the baby has to do is to yell, and it gets everything, in the house that's worth having."

# Why This Massive Cushion Gives Longer Life

Did you ever stop to think how much action goes on inside . solid tire under the stress of load and speed?

When we selected the right truck tires to offer you we knew that in designing the Firestone Heavy Duty Cushion Tire, Firestone engineers allowed for this "play" and "flow" of rubber.

They built a tire in which the free, easy rubber action is assisted and heat carefully radiated. And the result is a tire of greater traction, better cushion and longer mileage.

The traction groove at the center has powerful groundgripping shoulders and frequent radiation pockets.

After thousands of miles of service it will still be lively and resilient because constant heating has not hardened the mass of rubber. It will show less wear because it is tough and resilient.

We sell Firestone Tires because Firestone has con-

sistently been a pioneer and leader in this field and We would like to show you the full line of Truck tires and give you benefits
