IF BACK HURTS BEGIN ON SALTS

Flush Your Kidneys Occasionally If You Eat Too Much Meat

No man or woman who eats lots of meat regularly can make a mistake by flushing the kidneys occasionally, says a well-known authority. Too much meat may form uric acid, which clogs the kidney pores so that they sluggishly filter or strain only part of the waste and poisons from the blood; then you get sick. Rheumatism, headaches, liver trouble, nervousness, constipation, dizziness, sleeplessness, bladder disorders often come from sluggish kidneys.

The moment you feel a dull ache in the kidneys or your back hurts, or if the urine is cloudy, offensive, full of sediment, irregular of passage or attended by a sensation of scalding, get about four ounces of Jad Salts from any reliable pharmacy and take a tablespoonful in a glass of water before breakfast for a few days and your kidneys may then act fine. This famous salt is made from the acid of grapes and lemon juice, combined with lithia, and has been used for generations to flush clogged kidneys and stimulate them to activity, also to help neutralize the acids in urine so it no longer causes irritation, thus often ending bladder disorders.

Jad Salts is inexpensive and cannot injure; makes a delightful effervescent lithia water drink, which everyone can take now and then to help keep the kidneys clean and the blood pure, thereby often preventing serious kidney complications.

THE COMPANY

The history of The California Oregon Power Company shows a substantial growth in facilities and earnings resulting from the large sums of money invested in its properties and from the development of the territory in which it operates.

Steady Growth in Customers Served

The territory now served by The California Oregon Power Company includes parts of Jackson, Josephine, Klamath and Douglas Counties in Oregon, and Siskiyou County and parts of Shasta and Trinity Counties in California. This is an area equal to the combined areas of the states of Massachusetts, Rhode Island and Connecticut.

During the period between 1912 and 1921, the number of consumers has grown from 6,561 to 11,900, an increase of 81.3%.

Increase in Facilities

The Company owns and operates seven hydro-electric plants in Southern Oregon and Northern California. It has never resorted to generation of electricity by steam power. In building these hydro-electric plants, a natural resource is being developed which will be productive forever.

In 1912, the generating capacity was 11,800 H. P. and at the end of 1922, it will amount to 52,580 H. P.

The Company's high tension lines at the end of 1922 will be over six hundred miles in length.

The aggregate length of the distribution lines will be over eight hundred and ten miles.

The investment needed for the construction of these facilities has increased from \$4,189,325.76 in 1912 to \$9,567,430.60 on June 30, 1922.
