## SALES OF GAS IN 1921 SET NEW HIGH RECORD FOR NATION

NEW YORK, Oct. 28.—Sales of manufactured gas in 1921 set a new high record, a total of 225,000,000, one cubic foot being consumed, according to the annual survey of the gas industry of the United States just published by the American Gas Association.

This is an increase of 7,000,000,000 cubic feet over 1920 and 20,000,000,000 cubic feet over 1919. An analysis of the gas consumption statistics discloses that the per capita increase for the 10 year period, 1911 to 1921 was 34 per cent, while for the period from 1911 to 1921 it was 50 per cent, showing that the American people during the last ten years consumed nearly three times as much gas per capita as they did during the preceding decade.

Increased use of gas for industrial purposes and for domestic purposes other than illumination in homes is responsible for the rapid growth of the industry. The survey shows that 21.62 per cent of the gas used in the country last year was for industrial purposes, about 1200 different uses being recorded.

The use of gas for heating is growing less every year, only 18.50 per cent being used for illumination last year, while 54.71 per cent was used for cooking, heating water, heating rooms and other domestic purposes, and 3.17 per cent was consumed for uses not classified.

The companies of the country have 9,291,000 customers, which means that approximately 67,000,000 persons are served by the gas industry. Gas is being used in 2,000,000 cooking appliances, 1,573,000 water heaters, 1,268,000 room heaters. The gas companies serve their customers through 69,500 miles of mains, not counting the thousands of miles of smaller service pipes which lead from the mains to the homes or factories of consumers.

**Statement of Arthur L. Wilson**

**Candidate for Mayor of Klamath Falls**

If elected Mayor of Klamath Falls I will be guided by the following principles:

I favor strict economy in all city matters, in so far as economy is consistent with progress and improvement. Finances of the city require careful supervision to keep them on a sound financial basis, and this should be the first aim of the city administration.

I favor progressive action towards cleaning the city, both physically and morally, and will work to this end. With due regard to economy, care must be taken to keep the streets and parkings of the city clean and attractive, and encourage beautifying the city by the citizens themselves.

There is no excuse for tolerating boot-leggers or gamblers in our city, and it will be my aim to drive them out and keep them out.

I do not favor closing pool halls or moving picture houses on Sunday. I have made no pre-election pledges nor promises nor even discussed possible appointments to city offices with any one.

I am in favor of progress in all lines, and will endeavor to give the city a business administration.

(Signed) ARTHUR L. WILSON.
