IF KIDNEYS AND BLADDER BOTHER

Take Salts to Flush Kidneys and Neutralize Irritating Acids.

Kidneys and bladder irritations often result from uric acid, says a noted authority. The kidneys filter this acid from the blood and pass it on to the bladder, where it may remain to irritate and inflame, causing a burning, scalding sensation, or setting up an irritation at the neck of the bladder, obliging you to seek relief two or three times during the night. The sufferer is in constant dread; the water passes sometimes with a scalding sensation and is very profuse; again, there is difficulty in voiding it.

Bladder weakness most folks call it, because they can't control urination. While it is extremely annoying and sometimes very painful, this is often one of the most simple ailments to overcome. Get about four ounces of Jad Salts from your pharmacist and take a tablespoonful in a glass of water before breakfast; continue this for two or three days. This will help neutralize the acids in the urine so it no longer is a source of irritation to the bladder and urinary organs, which then act normal again.

Jad Salts is inexpensive, harmless, and is made from the acid of grapes and lemon juice, combined with lithia, and is used by thousands of folks who are subject to urinary disorders caused by uric acid irritation. Jad Salts is splendid for kidneys and causes no bad effects whatever.

Here you have a pleasant, effervescent lithia water drink, which often quickly relieves bladder irritation.—Adv. 108.

Bargain Glasses Are Expensive

The cost of glasses does not lie in the cost of the material alone, that is but a small part of the cost, but the examination and then in the preparation of the lenses to correct the defects of that particular eye.

Bargain price glasses cannot have these things done correctly, as the cost would prohibit the low price.
