THE SCHOOL BILL

THERE are a few stern facts which are indisputable, facing the voters of Oregon relative to the Anti-Private School Bill.

First, that some 14,000 children that are now educated in the common school branches in private schools would immediately be forced into the public schools, against the wishes of the parents.

Second, that the Oregon tax payers would have to pay over a million dollars more in taxes annually to provide for the teachers salaries and added buildings and facilities.

Third, that many millions of dollars of private property would be destroyed without compensation and without a justifiable cause.

Fourth, that the unity and goodwill of the citizens of Oregon would be destroyed, and from henceforth the state would be divided into bitter factions, because the dictates of conscience and the spirit of religious freedom cannot be suppressed and obliterated by a law which was conceived and born in religious bigotry, and cradled in the crib of intolerance.

These four items are facts which face the voter in Oregon and he wants to count the cost before he sacrifices his pocketbook and the good name of his state, which has always stood for the constitutional guarantees of civil and religious liberty vouchsafed to each individual citizen.

THE FAIR TAX

OUT of the \$20,000 which it is estimated the mill tax levy for permanent county fair grounds will raise, agriculture will pay, in round figures, \$4,000—one-fifth the total cost.

The lumbering and timber interests will pay \$10,000, public utilities \$1,300 and the city of Klamath Falls \$4,000. Property in other towns will absorb about \$700, leaving \$4,000 to be raised by a tax on agricultural property.

While all will benefit from the fair grounds, it is hard to see who will benefit more directly than the farmer and stock-raiser.

The competition stimulated by the annual fair results in a general raise in grade of farm produce. It means better stock and better stuff, and an opportunity for their display where they will attract attention and buyers.

Each farmer can easily figure for himself what a mill levy on the dollar, ten cents on the hundred, of his assessed valuation will cost him, and balance the cost against the benefit that may reasonably be hoped to be derived.

We don't want to see the fair ground measure defeated at all, but we certainly do not want to see it defeated by the vote of those who should support it most strongly.

I AM YOUR TOWN

Make of me what you will—I shall reflect you as clearly as a mirror throws back a candle beam.

If I am pleasing to the eye of the stranger within my gates, if I am such a sight as, having seen me he will remember me all the days as a thing of beauty, the credit is yours.

Ambition and opportunity call some of my sons and daughters to high tasks and mighty privileges, to my greater honor and to my good repute in far places, but it is not chiefly those who are my strength. My strength is in those who remain, who are content with what I can offer them and with what they can offer me.

I am more than wood and brick and stone, more even than flesh and blood—I am the composite of all who call me Home.

I am your town.
