

# Business Administration and a Fine City

OR

# Radicalism and a One-Horse Town

The enemies and traducers of Mayor Wilson S. Wiley, have no where and at no time during the present campaign, denied the **HONESTY, UPRIGHTNESS and GREAT ABILITY** of the **BUSINESS MANAGEMENT** of the **CITY'S AFFAIRS** during **HIS ADMINISTRATION**.

**THE HONESTY, FAIRNESS AND ABILITY OF MAYOR WILSON S. WILEY'S ADMINISTRATION THEREFORE STANDS ADMITTED BEFORE THE WORLD EVEN BY HIS ENEMIES.**

Mr. Arthur R. Wilson, a man of blameless life, but wholly untried, is put forward as candidate for Mayor by a radical element of the Civic League.

His platform, framed by them, and for their purposes, is a promise of nothing practical. The only things worthy of attention in the City's affairs as expressed in the Wilson platform are bootlegging and gambling.

## The Naked Truth

**DOES BOOTLEGGING EXIST IN KLAMATH FALLS?**

**OF COURSE IT DOES**, and so does it exist at the present moment in **EVERY CITY, TOWN, VILLAGE, HAMLET and COUNTRYSIDE IN THE UNITED STATES**. It is the most dangerous and perplexing issue of our time. It exists everywhere behind closed doors and concealed from the authorities whose duty it is to suppress it. And the bootlegger takes advantage of the very law that protects the honest citizen from unauthorized invasion of his home, to defeat and defy the police in running down and arresting him.

Does gambling exist in Klamath Falls? Yes, and so does it exist everywhere, hidden away and protected from the knowledge and control of authorities.

**THE CIVIC LEAGUE OF KLAMATH FALLS** is an organization formed by many good citizens, including Mr. Arthur R. Wilson, Messrs. Slough, Chilcote, Dunbar and Leonard, with the entirely praiseworthy aim of bringing about better civic conditions; to **DETECT CRIME** and cause offenders against our state laws and city ordinances to be brought to justice.

The men who are leaders of this Civic League claim to have

**EVIDENCE** in their possession of violations of law within this city.

Have they co-operated with the Mayor and police by offering this evidence to them to assist in detection and punishment of crimes?

**NO, THEY HAVE NOT.**

They criticize and denounce the present city authorities for failure to prosecute offenders while they, claiming to have the evidence necessary to convict withhold it and so themselves ignorantly aid the criminals, and impede the enforcement of law.

This is a fight for justice and good government—A fight for justice to the city officials who have rendered unselfish, devoted, invaluable service to this city—A fight to point the finger of scorn and civic condemnation at those who have persistently slunk through this community whispering vile slanders against our honored mayor; slanders which they do not dare to utter openly.

We call upon **ALL CITIZENS**, including the Civic League, to give their undivided support to all city officials charged with the duty of enforcing our laws and ordinances, whether they are the present city officers or those who may be chosen at tomorrow's election to fill their places.

This should be a city governed **BY ALL** of its people and **FOR ALL** of its people.

Give us a broad, enlightened government, in which radicalism of every form shall be excluded.

We offer
