RED CROSS ROLL CALL TOMORROW

Proclamation is Issued by President; Drive Ends Thanksgiving Day

WASHINGTON, Nov. 10.—President Harding in a proclamation issued today calling attention to the annual membership roll call of the American Red Cross, which begins tomorrow, declared "There are no really urgent reasons to appeal this year in behalf of an even greater generosity than has been necessary in some other times."

Notable among these reasons the President mentioned is the focus in the Near East where he asserts millions of people must look to more favored national communities such as the United States for the means of life. He bespeaks the aid of the American people for the Red Cross as one of the chief relief agencies and the conservation of Americans in the support of all the organizations at work in that portion of the world.

The proclamation follows:

"To the American People:

"The assurance, based on many years' experience, that there will be prompt and generous response makes it advisable a satisfaction to direct public attention to the annual membership roll call of the American Red Cross. This year it will open on Armistice Day, November 11, and close on Thanksgiving Day, November 26. As a sign of the United States and also president of the American Red Cross, I hereby proclaim November 12 as Red Cross Sunday, and invite all the people to unite with their spiritual leaders in such observance of it as may promote a renewed consecration to the cause of service held upon divine injunction and sanctioned by all good concurrence."

On the terms of the concession at church which called it into being, the American Red Cross is charged with certain clearly defined duties and obligations. These it has continued, during the past year, to discharge faithfully and efficiently. There are peculiarly urgent reasons to appeal, this year, in behalf of an even greater generosity than has been necessary in some other times, because of the extraordinary demands upon such services of mercy and humanity. One of the most fearful chapters of all history has befallen the illustrious Near Eastern area, where the lives of millions of unfortunate people even now depend, and must continue for a long time to depend, on the untiring industry of more favored communities. A very great sum is required to be raised if the emergency shall be met; and while the task is one in which all well-disposed peoples must contribute, our own country in virtue of its inspirations of humanity and its fervent endowment in material possessions, must be conspicuous for both the great share it shall give, and the high spirit animating the gift. It is therefore asked that co-operation be established between the Red Cross, the Near East relief, and all other agencies which are concerned to assist in dealing with this crisis.

In the domestic field, demands continue to press heavily upon the Red Cross. The government is earnestly seeking to insure to every disabled or disabled ex-service man the full measure of care and help which national gratitude and simple justice dictate. The aim must be to restore every service man to the best possible health and the largest opportunity for useful service.
