Want ads and reading notices will be received up to 12 noon on the day of issue.

Herald Publishing Company.

WEDNESDAY, NOV. 15, 1922

#### TIME TO GET IN

WITH the Portland chamber of commerce planning to expend \$300,000 next year in advertising Oregon's resources, and with northern California's \$400,000 advertising campaign mapped and started, Klamath county, lying betwixt and between the zones of probable benefit, should be in line for considerable development.

California boosters have promised that Klamath county will not be discriminated against because its resources lie over the state line.

Portland is awakening to the richness of the Klamath county and must strengthen its relations with this territory.

Conditions are most propitious for Klamath county. What is Klamath county going to do about it?

Where others are sowing so bountifully, it is possible that we may wait idly the results of the sowing, and glean something from the fruits of their labors.

But it will be largely culms and discards. The communities that engage actively in the development program are the communities that will get the cream, that will get big returns.

To reap a big harvest, there must be effort in preparing the ground and a judicious sowing of seed.

The sowing time in this particular enterprise is here, and Klamath has done little, if anything.

This Klamath county has economic problems, that will only be solved with an increase of population, and a consequent spreading out of the tax-paying burden that is too heavy for the few who have pioneered in development.

The Oregonian in a page advertisement advocating the raising of a \$100,000 publicity fund in Portland, strikes at the root of the situation, thus:

Oregon has only 8 people to the square mile; California has 22; Washington has 20. Oregon has less than a million population; all told, she can easily and comfortably support several millions and furnish, besides, a splendid surplus of food, lumber and manufactured products to the rest of the world.

When Oregon gets 20 people to the square mile, most of the economic problems which now confront the state will disappear. With 20 people to the square mile Oregon can have all the good roads, all the good schools, and all other public enterprises she needs. She will then have new thousands of flourishing businesses. Her idle acres will be occupied, manufacturing plants will be multiplied, comforts and conveniences of life will be more plentiful and easier to obtain. Oregon MUST get more people.

Klamath county is as rich in resources as any part of Oregon. Klamath county has far less population than the average Oregon square mile. Yet there is, in the irrigated district south of Klamath Falls and the Malin territory, comfortable support, without crowding, for 25,000 people. That is speaking conservatively, as the land stands at present, without any particular intensive development.

There is a wealth of opportunity in this land for the settler, and settlers are to be had if we go about the task of getting them in co-operative spirit.

We will have to drop our outworn quarrels and start on a new foundation. But it looks as if there has never been, nor will ever be, a better time to start than now.

#### CONSISTENCY

AFTER flooding this community with bushels of propaganda protesting the law's delay and howling the cost imposed upon the tax-payers by reason of the confinement of six I. W. W. in the local jail, the I. W. W. organization now shows a fine consistency by seeking,

and securing, a postponement of the trial for two or three months, and asks that the county treasury defray the transportation and expenses of half a dozen witnesses from Portland to testify in behalf of the defendants.

It is not that we would see them denied all the time necessary to prepare their defense, nor the presence of any witness to speak in their behalf—but how they do avail themselves of the protection the law accords when in trouble, and snarl and bite at the law's protecting hand when free.

The saddest sight on earth is a short man wishing he was taller.

You never have to sit around and beg a phonograph to sing.

Nothing makes a defeated candidate madder than seeing his picture still hanging in a window a week later.

If you can make your handkerchiefs do a few more weeks you will get some new ones Christmas.

These are ticklish times for those wearing scratchy heavies.

Furnaces are like husbands. If you don't watch them they go out.

Inside information is valuable. That's why doctor bills are high.

There never has been enough peace in the world to go around.

Only European crowns worth anything are those the dentists put in.

A goose never acts like an owl when he goes out for a lark.

Many a one-horse town has two movies.

Near Johnson City, Tenn., a drunken pig led officers to a still. The farmer may plead he was raising pickled pig's feet.

No one knows what the future has in store, but it is a store where you must go after what you want.

### KLAMATH BOYS STAR ATHLETES

#### Ted, Percy and Rodger Montgomery Make Good in Football World

OREGON AGRICULTURAL COLLEGE, Corvallis, Nov. 15.—Ted, Percy and Roger Montgomery, three brothers who recently moved to Corvallis from Klamath Falls, have made a name for themselves in the football world. They are the sons of Mr. and Mrs. L. P. Montgomery, former residents of Klamath Falls.

"Ted," the oldest of the three, has made a fine record playing quarterback on the O. A. C. freshman varsity eleven, and is expected to make a strong bid for quarterback on the varsity next year.

"Pat" and "Rod" both play on the Corvallis high school team, Willamette Valley champions, and contenders for the state honors. "Pat" plays right tackle and "Spec" Keene, coach of Corvallis, thinks he is the best high school tackle in the state. "Rod" plays left half, and is noted for his great broken field running. In the game with Brownsville he made two of the five touchdowns and was the individual star in the game against Eugene, making two of the three touchdowns. Corvallis defeated Eugene 18 to 0 in this game.

The coaches of the Corvallis team think that they have one of the best high school teams in the state. They defeated Salem, Chemawa Indians, McMinnville and Eugene. They have piled up 164 points to their opponents' seven.

All three of the boys played on the Klamath high team last year. "Pat" and "Rod" have another year in high, as they are only juniors. They all expect to return to Klamath Falls in the summer, where they will work in the timber with their father, who is connected with the Modoc Lumber company.

The fourth brother "Brady," is a junior in college, and a member of the varsity baseball and tumbling teams. He is also assistant yell leader of the college.

#### NEW PIANOS \$208

Splendid values, ten year guarantee, small size and divided payments covering two and one-half years. Earl Shepherd Co., 507 Main, 161f

### Happy When With Shakespeare

Thoughts of the coming election bring a cheerful smile to the face of Lloyd George in his brief rests between speeches. The former prime minister is shown here with his private secretary, Shakespeare, at Farnley Hall, Leeds.

### REDUCTION SHOWN IN MERCHANT SHIPS BEING CONSTRUCTED

LONDON, Nov. 14.—Lloyd's register of shipbuilding returns for the quarter ended in September, 1922, show that merchant tonnage under construction in the United Kingdom on September 30 amounted to 1,617,945 tons. This represents a reduction of about 302,000 tons as compared with the total at the end of the previous quarter.

The total, however, includes a considerable amount of tonnage (419,000 tons) on which work has been suspended for some time. Deducting this amount for purposes of comparison with figures for normal times, the merchant tonnage actually under construction in the United Kingdom amounted to 1,198,900 tons.

The average tonnage under construction during the twelve months immediately preceding the war was 1,550,000, or 655,000 tons more than the present figures.

The total merchant tonnage now building abroad amounts to 1,065,511 tons, but includes about 256,000 tons upon which work has been suspended, leaving about 829,000 tons actually under construction.

The tonnage building abroad is about 230,000 tons lower than the total building at the end of June last, the figures for the leading countries are: Italy, 210,114 tons; France, 197,065 tons; Holland, 177,924 tons; United States, 147,956 tons; and Japan, 96,897 tons. These figures do not take into account the tonnage building in Germany and at Danzig, for which no returns are available, but it is estimated that the tonnage under construction in Germany at the present time is about 350,000 tons and at Danzig 40,000 tons.

count the tonnage building in Germany and at Danzig, for which no returns are available, but it is estimated that the tonnage under construction in Germany at the present time is about 350,000 tons and at Danzig 40,000 tons.

### Dog Lovers Provide Burial Grounds for Departed Canine Pets

SPOKANE, Wash., Nov. 15.—Dog lovers of Spokane have provided a burial ground to be used exclusively for remains of departed canine pets.

The cemetery, two acres in extent, is located three miles north of the city. A marble monument to the departed pets will be erected in the center of the plot.

The cemetery is a memorial to two nationally known thoroughbred dogs, Stella Southern Ace, a collie, and Roman's Profile, a cocker spaniel. A brass plate bearing an inscription to the two dogs to whose memory the plot has been dedicated will be placed upon the gate leading into the cemetery.

Although the idea of the dog cemetery originated with the owners of the two pets, it will be open to all northwestern dog fanciers who have the privilege of using it as a final resting place for their departed animal friends.

What is said to be the only other cemetery of its kind is located at Hartsdale, New York state.

#### SKATING RINK OPENS

The Scandinavian Skating Rink will open Thursday evening Nov. 16. School children's day every Saturday forenoon. 15-16\*

### FORMER LOCAL RESIDENT DIES

#### Dan Cochran Was Prominent Figure Here; at One Time Ran for Mayor

Residents of Klamath Falls up until 1912 or 1913 will recall an interesting character, Dan Cochran, at one time manager of Pelican Bay Lodge, and manager of the White Pelican bar when that hostelry was opened in 1911. Along with these other affairs Cochran also held the distinction of running for mayor in one of the early city elections, losing by a small margin to his opponent. All these recollections are recalled by the announcement of his death some weeks ago in Portland, word of which was received in a letter to Mr. and Mrs. T. E. McDonald from Father McMillan, also an old time resident of Klamath Falls.

After leaving here Dan Cochran went to Alaska, where he was made a member of the Alaskan Encouraging commission at Seward. In the years that he was with the commission he made a name for himself among Alaskans by his untiring work for the country of his adoption. He was a big strapping, good-looking Irishman with no thought of publicity for himself. In Seward there is a large wilderness which was made to bloom and become beautiful by the work of Cochran, who made this tract into a park for

the people of that district. It is known unofficially as Cochran park, according to Father McMillan, who says that this title did not meet with his big friend's approval. Early in July of this year Cochran, who had been suffering from ill health for several months, left Seward for Fairbanks. He got as far as Anchorage, according to Father McMillan, when he was taken to a hospital. The patient was there until Father McMillan had him brought to Portland, where he died soon after arriving.

#### DEPOSITS DECREASE IN JAPAN

TOKIO, Nov. 15.—Reports of the banks of Japan for the first half of the current year just made to the financial department, show that deposits decreased by 74,000,000 yen, compared with last year, while loans were lower by 23,000,000 yen. Those banks which show increases are charged with having broken the interest rate agreements but their increased deposits are also believed to be due to the economic depression and failure of smaller concerns.

### Small Size Player \$398.00

This little instrument in light mottled Golden Oak, Dark Egyptian Oak, Mahogany bright finish and American Walnut, and is so easy to play that we ask you to play it with one finger on the pedal. Let's see it, anyway.

### Electrical Heat - Perfectly Concentrated

PERFECT cookery demands perfect concentration of heat. The electric units which concentrate the heat directly under the cooking utensil, thereby sending it all into the food, are exclusive features of the

### Hotpoint HUGHES ELECTRIC RANGE

There is no open flame to waste the heat or to raise the temperature of the vessel except at the one point of immediate application.

You can boil, broil, stew, fry, roast and bake the Hotpoint Hughes way with the best results and greatest economy.

The Hotpoint Hughes oven, with its thick, insulated walls, retains all the heat, applies it evenly to the roasting of meat or poultry, and completes the cooking by means of stored heat.

Inquire about our special cooking rate.

The modern home is an electrical home. Not only is it lighted by electricity, but there are many devices to lessen the work and to make it a place of greater pleasure, and these are operated by electricity. The Hotpoint Hughes Range is one of the larger of these. There are many simple articles of small cost that you should have. We mention a few only: Electric Iron, Coffee Percolator, Vacuum Cleaner, Washing Machine, Curling Iron, Toaster, and, when warm weather comes again you will want a fan.

Call at our office and let us tell you how you can make your home an electrical home and save labor and expense.
