

Radicalism Is Issue in England

The "Menace of the Reds" is one of the vital issues in the English election. There are 42 Labour candidates in the field. Conservatives have circulated millions of these posters to catch the votes of the workmen.

EDUCATION WEEK DECEMBER 3-9

President Harding to Issue Proclamation: Good Citizenship Will Be Taught

WASHINGTON, Nov. 21.—Education week, under the auspices of the bureau of education, will be observed this year from December 3 to 9. After the first celebration throughout the country of a week to promote education two years ago, cooperation of the American Legion, the National Education association, clubs, schools and churches became widespread and this year greater good than ever is expected to result from the campaign.

President Harding has assured Commissioner of Education Tigert that he would, by proclamation, set aside that week for education purposes, and a real nation-wide revival of educational enthusiasm is looked for by educators generally.

In order to concentrate the campaign upon phases of education which are of outstanding significance, certain days were designated upon which topics will be stressed. These are: Sunday, December 3, God and country; Dec. 4, American citizenship; 5th, patriotism; 6th, school and teacher; 7th, illiteracy; 8th, equality of opportunity; and 9th, physical education and hygiene.

Every facility for publicity and education, even the air will be used, for the bureau of education has arranged with the inter-department advisory committee on government radio broadcasting to use government radio to broadcast educational material twice daily through the week. Cooperation of motion picture theatres also has been tendered.

Governors, mayors and other executive officers have been invited by the education officials to issue proclamations and otherwise promote general observance of the week. Newspapers and magazines also will set aside space for the campaign.

Commissioner Tigert said the topics for each day were selected because they were considered of national importance. He explained, however, that these selections should not preclude the various states, municipalities and countries from stressing those features of education which need emphasizing locally.

Effort Made to Bring Down H. C. L. in Japan

OSAKA, Japan, Nov. 21.—Great efforts are being made by the government and the people of Japan to bring down the cost of living, but leading economists agree that it is difficult to bring about a permanent reduction of the price of agricultural products as long as the value of farm lands remains high.

There are about fifteen million acres of agricultural lands in Japan, of which approximately one-half is paddy fields, which is exclusively devoted to the growing of rice. The average value of the rice fields in Japan is as high as \$1,240 per acre.

AT THE THEATRES

PINE TREE

A picture which combines magnificent scenic beauty with a thrilling story is "The Valley of Silent Men," adapted from James Oliver Curwood's famous novel of the same name as a Cosmopolitan production, and released by Paramount.

Those familiar with the novel, which ran serially in Good House-keeping Magazine in 1920 will recall that it is a story of the Royal North

Alma Rubens in the Paramount Picture "The Valley of Silent Men" Courtesy Cosmopolitan Productions

West Mounted Police, with the Rocky mountains for a background. It is a picture of tremendous power, having as it does the souls of five men and a woman who are isolated in a little narrow valley.

For the purpose of imparting this realism to the screen the entire company went to Banff, in the Canadian Rockies, and there practically every foot of the action was enacted and photographed. The result, apart from the dramatic value of the production, is a picture of unsurpassed scenic beauty.

The picture, which was directed by Frank Borzage, and which features Alma Rubens at the head of a small but powerful cast, is coming to the Pine Tree theatre tonight for 2 days. It is well worth seeing.

THE LIBERTY

There are two standards by which to judge "Human Hearts" before seeing it at the Liberty Theatre tonight.

One is the elements that went into its making.

House Peters, the star, a favorite with all who appreciate real dramatic ability.

The cast including such noted players as Russell Simpson, George Hackathorne, Mary Philbin, Edith Hallor, Gertrude Claire, Ramsey Wallace, Snitz Edwards, H. S. Karr, Gene Dawson, Lucretia Harris, Geo. W. West and Emmett King.

The story the greatest play that ever ruled the stage; for a decade the most popular play in the world, having more road companies out at one time than any other piece. Written by Hal Reid, Wally's father.

The director, King Baggot, not only competent as a director, but familiar with the story through having played the lead in the first picturization years ago.

Sum up these "makings" and add the quality of Universal-Jewel filming, the top calibre of pictures.

The other standard is previous reception.

Critics in the metropolitan cities acclaimed it a real addition to the list of exceptional pictures of the year. It lives up to every claim made for it. The action of the piece proceeds with the utmost smoothness and the manner in which the suspense is sustained is a positive triumph for Director King Baggott.

One of the greatest factors in the success of "Human Hearts" is due to the fact that the play is a cross-section of real life, and appeals to every one because the characters are just the type one meets on all sides daily.

Manager Poole of the Liberty feels that his patrons will add their unqualified endorsement after they have an opportunity of witnessing this Universal-Jewel. The picture will be seen here two days.

THE STRAND

A different picture is "The Hidden Scar" starring Ethel Clayton, which will be shown at the Strand theatre tonight. This picture is of the mystery type as the name suggests, and it is a picture of action and thrills, without one dull moment.

Miss Clayton is well known to movie fans and in this story her portrayal of the heroine, the girl with "The Hidden Scar," is done with a skill wonderful to watch.

Come tonight and watch this story unfold and be presented on the screen by this wonderful actress ably assisted by Holbrook Blinn and others.

There will also be an unusually laughable comedy which will serve to brighten up the evening and make you go home with a smile on your face. Tonight at the Strand at regular prices.

ROAD BUILDING SHOWS INCREASE

10,000 Miles Completed in Last Fiscal Year; Total Now 19,308

WASHINGTON, Nov. 21.—Ten thousand miles of federal-aid highways were completed in the last fiscal year, bringing the total mileage to 19,308, says an announcement of the bureau of public roads, department of agriculture. The year's work constituted a new record.

Texas leads in miles of completed federal-aid roads with 1,723 miles, while Minnesota is second with 1,416. Texas also is first in mileage under construction with 1,408 miles, and Nebraska is second with 970 miles. Iowa is third with 945 miles.

Texas and New York receive the largest allotments of federal aid, which is distributed on the basis of population and mileage of state highways.

Aside from the federal-state highway work, the bureau of roads has completed one thousand three hundred and fifty two miles of road in the national forests, and there are under construction 617 miles, the whole to open up regions of great natural beauty.

Based on available data, bureau officers state, the sum to be spent this year on highways will total \$742,000,000. The figure includes federal-aid roads and projects built in addition by the states and smaller municipal units without the aid of federal funds.

More than 20 miles of bridges have been built under the federal-aid highway program since 1916. One of the largest of these bridges, that from Mandan to Bismarck, N. D., is more than three and one-half miles long and cost \$1,428,000.

Highway building over the country is to be given additional impetus, as the result of assistance offered by the federal government. The bureau of public roads has addressed a memorandum to the highway departments of all the state governments, offering them thousands of tons of explosives which were left over from the war. Picnic acid is being distributed in large quantities and road builders and highway engineers are urged to write to Washington, to obtain allotments of the explosives, for use both in construction and maintenance.

NOTED PLAYWRIGHT SUICIDE

LOS ANGELES, Nov. 21.—George Bronson Howard, playwright and novelist, was found dead in a gas-filled room in his bachelor apartments today. He inhaled gas through a tube. He had been despondent. He had suffered from wounds received while serving with the British army.

Canary the Death Gauge at Spangler

Canaries were carried into the gas-filled death pit at Spangler by rescue squads who went down to save miners from a death by poison gas or fire. The canary in its cage is shown with a squad who are about to descend.

Today At The Liberty

The Story the Whole World Loves "HUMAN HEARTS"

from Hal Reid's great stage success. A real all-star cast headed by House Peters. This is doubtless one of the finest productions we have ever shown—and you know we have had some good ones. You will be glad you came.

Glass Headdress

The present sensation of Paris is Anka Napierkowska, the Russian beauty who dances in a remarkable costume, the headpiece of which is made of glass. The remainder of the costume, of which there is little, is made of huge shells and pearls.
