

TURK LEADER MADE HIS ESCAPE FROM BRITISH PURSUERS

LAUSANNE, Dec. 15.—Djellaladine Arif Bey, representative of the Angora government at Rome and member of the Turkish delegation at the Near Eastern conference, was president of the senate in Constantinople when the allied governments, under British leadership, closed up the Turkish parliament in 1919 and banished to Malta most of the nationalist leaders who had not joined Mustafa Kemal in Angora.

The British were after Djellaladine, but he was too clever for them. He was warned in advance and lay in hiding until he was able to make his way across the Bosphorus disguised as a peasant. Then he slowly worked his way across Anatolia to a point on the Angora railway which was beyond allied control.

Djellaladine Arif Bey is as large a man as Chief Justice Taft of the United States supreme court. His companion in flight was Halide Edib Hanum, the celebrated woman nationalist whom the English also wanted to send to Malta because of her effective agitation against the terms of the Sevres Treaty. Halide Edib Hanum is of slight, athletic build and found the night walks and horseback rides comparatively easy. But it was difficult to find horses

IRISH AUTOMOBILE OWNERS FORCED TO PAY STIFF TAXES

DUBLIN, Dec. 15.—Irish automobile owners are having hard times. Travel is difficult and dangerous, many roads are impassable, and reported hold ups to examine permits discourage motoring. The tax for light car works out at about ten shillings a week, and many drivers cannot get, under present conditions, more than 100 miles a week out of their cars. If the tax is not paid there is a risk that the authorities may confiscate the car.

strong enough to carry Djellaladine Arif Bey. The horses fell under his weight, and he was badly battered and bruised before he managed to reach a zone of safety.

In the three years and a half since that flight the Angora government has won recognition as the responsible government of Turkey; has defeated Greece, and has unseated the Sultan at Constantinople. So the refugees of 1919 are now returning to Europe under conditions far different from those under which they fled.

BERRY PLANT COST \$50,000

THREE RIVERS, Mich., Dec. 15.—Frank E. Beatty of Three Rivers, who started the horticultural world by paying \$50,000 in cash for the privilege of developing a single variety of strawberry, admits that he owes his present position as one of the acknowledged leaders in the art of strawberry culture to fondness for his family.

Thirty years ago Mr. Beatty sold oil pumps in the inter-mountain and Pacific coast states. He resigned to come back to Michigan and to the family, although his business was highly remunerative. Interested in strawberries, Mr. Beatty turned to their culture. After 30 years in this business he has this to say: "I delight in developing or introducing a new variety of strawberry. Whatever success I have had is due largely to the cooperation between agricultural colleges and fruit growers."

"The new variety is the 'Rock-hill' bred by Harlow Rockhill of Conrad, Iowa. It should revolutionize the strawberry industry of the world, as it produces more and larger berries and fruit of a higher quality in the summer than any of the best summer varieties. During the fall months the plants again bear. The fruiting continues until snowfall and the plants do well in any climate.

"The plants root deeply, grow luxuriantly, single hill almost as large as a bushel basket, and their great vitality and vigor enable them to produce abundantly. The plants have tough leaf tissues and are not affected by any plant disease. The Rockhill is a direct cross of Progressive Everbearer and Early Jersey Giant."

Asked why he paid a heretofore unheard of price for a strawberry plant, Mr. Beatty said:

"I want to establish a standard of compensation that I expect to result in greater horticultural development than has resulted before. I wanted to awaken the public to an interest in horticulture and stimulate plant breeders to greater development. Money becomes a secondary consideration when we consider the well being of all people."

Mr. Beatty has introduced four other varieties of strawberries that have become standard crops in many parts of the country. Mr. Beatty said that previously \$500 was the largest amount he had paid for any one variety.

COMING EVENTS

- 10 days until Christmas.
- December 14-16—Catholic fair, Lyceum Hall.
- December 15—Basketball game—Merrill vs. Klamath high school.
- December 16—School manual Training and Domestic Science Bazaar.
- December 20—Chamber of Commerce Forum.
- December 14-15—The High school musical performance at Pine Tree theatre.
- December 19—American Legion annual election.

IN THE COURTS

State Land Bank vs. Sparks
The state land bank has filed suit in the circuit court against William H. Sparks, et al, for collection of money due on a promissory note.

State Land Bank vs. Baker
Suit was filed in the circuit court this week by the State Land bank against Fred R. Baker, et al, for the collection of money alleged due on a promissory note.

Tipton vs. Tipton
Edna Tipton filed suit for divorce yesterday in the circuit court against H. C. Tipton. She alleges extreme cruelty and failure to provide proper clothing and other necessities. She asks for costs of the case and that her maiden name, Edna Slade, be restored. The Tiptons reside on a ranch near Olene.

ing subjects that are of particular interest. The club endeavors will be such as to cover the particular needs of this particular locality.

Will Secure Secretary
At a meeting held with the employees, which was addressed by Charles Poshler, industrial secretary of the Y. M. C. A., it was decided that a secretary would be secured from their organization to manage and look after the club activities, and the proper man for this position is now being sought and it is hoped he will be available and on hand within the near future.

The central project at Pelican Bay is the beginning of a community plan that will eventually serve all employees of the Pelican Bay Lumber company, for branches will radiate from this community center to all the camps and logging centers maintained by the company.
