### "ABIE'S IRISH ROSE" IS PLEASING COMEDY

A breezy funfest with a delightful plot and deliciously amusing situations is "Abie's Irish Rose," which will be the attraction at the Pine Tree theatre next Sunday and Monday. Revealing in the rich dialogue and the maze of comedy situations, the capable company makes the most of every opportunity and sends the audience away satisfied and chuckling.

Oliver Morosco has had long experience in selecting casts for his plays, and he has picked a stellar aggregation for this season's contribution to his long list of successes. Not only does this latest Morosco comedy contain a wealth of fun and a series of insistently mirthful situations, but its characters have been drawn with such a skillful and careful hand that they take hold on the sympathies of the audience, and keep the interest sustained until the final and unexpected outcome of the plot.

As its name would indicate, "Abie's Irish Rose" had to do with the intermarriage of Irish and Hebrew. It is a tale of deep love and parental prejudice, of sweet subterfuge and affectionate self-sacrifice. It contains more smiles than tears, more laughs than heart throbs, but there are sufficient of the vital elements of life in the absorbing story to make it live.

The typical Morosco cast includes Jack Franks, Sidney Franklin, Harold Shubert, Helen Grossman, Philip Ryder, Christine Francis, Harry G. Keenan, Billy Fay and a bevy of beautiful bridesmaids.

This is the same cast and production that appeared in San Francisco during its long run in that city. This is the first big road attraction to visit Klamath Falls and local theatregoers should secure their seats well in advance. A special matinee will be given on New Year's day.

### AT THE STRAND

Friday there will be a double feature bill headed by Neal Hart in "West of the Pecos" made in the heart of Texas and also New Year's country store. Fifteen prizes given away at 9:15, including turkeys, chickens, candy, crackers and others so put your name in the box Friday. You may be one of the lucky ones.

### AT THE PINE TREE

"Her Mad Bargain," a First National attraction starring Anita Stewart, is at the Pine Tree theatre Friday and Saturday.

The film deals in realistic manner with the life of a pampered society girl who suddenly finds herself cut off from all the wealth and luxuries she has been accustomed to. Faced by this situation, utterly unable to make her own way in life she enters into a mad bargain that will insure her the extravagant things of life she has been used to having.

The story combines tense realism with pathos, humor and swift action. Anita Stewart is bewitchingly charming in the leading role of Alice Lambert.

One unusual scene is shown in an automobile accident where the star runs over a small boy. Only a blood transfusion can save the lad's life and Alice Lambert, humble and penitent as the result of her carelessness, offers herself.

The part of the young boy is played by Ernest Butterworth, who will be remembered by thousands of film followers for his juvenile roles in "What's Your Horry" and "The Love Special." His intensely human characterization of the young newsboy adds immensely to the picture in its contribution of humor and naive mischief.

Walter McGrail has the leading male role and the balance of the cast includes Arthur Edmund Carew, Gertrude Astor, Helen Raymond, George B. Williams, Adele Sarvington, Margaret McWade, Will Badger and Percy Challenger.

### AT THE LIBERTY

Can a woman love a man so madly that she will risk imprisonment to do his bidding? Can she be so deeply in love that she will cast caution to the winds and carry out her part in the schemes even though they lead to the threshold of degradation?

These questions, in a broad way, form the theme of "The Broadway Madonna" a stirring story of keen-edged drama enacted by a superb cast coming to the Liberty theatre today.

As the wife who is dominated by the superior will of her husband, Dorothy Revier interprets a role that requires the utmost in talent in the portraying of its ever-changing emotions. The wife is a woman of rare beauty and goodness but completely under the domination of her husband. When he orders her to act as a decoy in his scheme to prey upon a wealthy and impressionable young man, she hesitates at first but obeys with the same weak will that marks her character throughout. But at no time does she lose the sympathy of beholders. Miss Revier, who bears a singular likeness in face and figure to Gloria Swanson, moulds the character with such deft skill as to mark her as an artist of exceptional potentialities.

### LEGISLATURE OF NORTH DAKOTA TO FACE BIG PROBLEMS

BISMARCK, N. D., Dec. 28.—Financial and public welfare problems, and others having to do with political considerations, will face the North Dakota legislature when it convenes here January 3. For the first time in three regular sessions and two special sessions, it will not be controlled by the non-partisan league, a small majority in both house and senate being members of the Independent Voters association, a coalition of progressive republicans and democrats.

Questions of economy will be the first to come before the legislative session. State taxes have increased \$16,069,469 since 1915, largely through increases in road and school taxation.

Reduction in the number of banks in the state also will be considered. North Dakota has an average of a bank and a half per thousand population. The present law discourages consolidation of banks and an act that will permit their turn over without closing or liquidation, is expected to be passed.

Legislation also is expected looking toward the closing of industrial experiments of the league that have proved unprofitable. The league closed the experimental creamery at Werners and stopped erection of

buildings in its home building experiment. Most of these industrial experiments were adopted as imitated measures. Increase in the power of the farm loan department and provision for the operation of the state owned mill at Grand Forks, are among other expected legislative considerations. One unit of the mill is running, the complete operation of which the independent pledged "an honest effort to determine if it is a successful experiment."
