Australian Fruit Prosper

SYDNEY, Australia, July 31.—The annual fruit production of Australia has increased from about 1,000,000 bushels in 1913 to 4,702,876, the figures for last year.

The fruit finds a ready market in England, where it has already served to lower the price on all classes of fruit.

Fred Garlich says the worst thing about a vacation is the reminiscence thereof.

PILES

Suffered 25 Years

"I AM entirely free from my Piles and aches and pains," writes one of my former women patients who, after suffering 25 years, was cured by my painless, non-surgical treatment. But this case is no exception, as scores of letters in my FREE illustrated book will testify. I use no knife, anesthetic, clamps, ligatures, stitches, burning or other disagreeable or dangerous method in treating Piles, and GUARANTEE results.

Remember my guarantee means a positive and permanent cure no matter how severe your case may be.

HOSPITALS FIND

BOOKS AN AID TO PILLS FOR CURING

CHICAGO, July 31.—Books as well as pills for curing the sick are now being used in the principal hospitals of the country, according to Miss Louise Singley, district manager for the American Library Association.

"Robinson Crusoe won't cure a case of tuberculosis, but reading down keep a patient's mind off his troubles," Miss Singley said. "Efforts are made to put the right book in a sick man's hands. A librarian in a hospital studies her patrons somewhat as a doctor does. Every-thing depends on the individual case."

"Some books depress and others

excite. Many librarians say that whole classes of books should be tabooed from hospitals for these very reasons. But if a librarian studies her patients like the doctor, she can prescribe books for him without danger. A book that would hurt a person with a certain ailment or with a certain temperament will be all right for another.

"The psychology of the patient must be taken into consideration. A tuberculosis patient can undertake more serious reading than most of the other sick people because his convalescence covers a longer period of time."

"A librarian cannot tell a patient he must take one novel a week in large doses. However, she has to steer her readers without them knowing it. Later on the patient gets interested in some particular line of work, and after that he takes care of himself."

"The Winchester Store"

Say It With Type

A SAN FRANCISCO merchant made the assertion that his firm was so well known that advertising was unnecessary. To prove the assertion incorrect an advertising man took a position on Market street with a representative of the well known firm by his side and asked two hundred passersby to direct him to the merchant's place of business. Two men out of two hundred were able to do so. The merchant's half million dollar stock had not advertised the store so well that everybody knew about it. Herald advertising pays big dividends.
