WAR AVIATORS IN PEACEFUL CONTESTS

GOTHENBURG, Sweden, Aug. 30.—The first international aviation meet in Europe since the war is now open in this city, bringing together in peaceful competition fliers and exhibitors from countries that five years ago were at war. Thus Germany is represented as well as France, England and the United States. The neutral countries participating at Holland, Switzerland, Denmark, Norway and Sweden, Belgium, Italy, and Czechoslovakia. Even such far away states as Colombia and Siam are taking part. Great Britain's interest is shown by the personal visits of General Brankner, director of civil aviation, who flew from England to Sweden, and Sir Samuel Hoare, the British air minister.

Airplanes of every known make are entered in the program of contests between military, commercial, and exhibition fliers. Also there are a great number of balloons, gliders, hydro-kilders, etc., and an exhibition of at least 30 different types of airplane motors.

An unusually interesting section of the exposition is that which illustrates the history of aviation. The development of heavier-than-air machines, from the earliest crude types to the most up-to-date military and commercial machines, is shown.

Sweden has entered 22 different machines, including a type specially constructed for the Swedish red cross to be used in carrying invalids or wounded persons.

\$1,000 FOUND IN "BOOK"

LONDON, Aug. 30.—The widow of the late John Troutbeck, for many years coroner for Westminster, had such a surprise when a box, shaped like a book, containing 200 pounds (\$1,000), was returned to her, that she fainted. It appears the "book" was among a number which Mrs. Troutbeck sold for three pounds (\$15), thinking they were old medical works of her late husband, and of little value. The bookseller on examining them discovered one had a lock, and on opening it found a five-pound note and 190 one-pound notes, which he promptly returned to the widow.
