Advertising for fraternal orders or societies charging a regular initiation fee and dues, no discount. Religious and benevolent orders will be charged the regular rate for all advertising when an admission or other charge is made.

SATURDAY, OCTOBER 6, 1923

## HELL FOR THE GAME

(From Nature Magazine)

WHEREVER there's roads either good or bad, or plain over which automobiles can travel, there will you find the automobile going "hell bent" after whatever game is afoot. It is not enough that the game killer should have a bewildering array of assistants and accessories, consisting of professional guides and cooks, dogs, tents, automatic and pump shotguns, repeating rifles and limitless fixed ammunition, to gain every conceivable advantage over the frightened bird and the harassed wild animal.

It is not enough that the machine guns spray pellets of lead like water from a hose sprinkler. It is not enough that the modern rifle actually kills big game at a quarter of a mile or more. It is not enough that the shrewd "local guide" treacherously reveals the last hiding places of the game that he has seen reared for cannon fodder around his own home.

No. All these grossly unfair advantages seem not enough to pile up against the harassed and bedeviled remnants of killable game. To them the speedy and tireless automobile must be added, in order that haunts of the game may be hunted over, not merely three or four times per season, but ten or twenty times, perhaps.

The automobile is great for the killers, but it is hell for the game!

## GREATER THAN ALL

CO-OPERATION is the life of a town. Antagonism is its death.

It is well for us to keep these facts in mind when we consider the affairs of this town. We all want community life. None of us want stagnation and death. Of course we do not all think the same, and it is well that it is so. Diversity of thought and expression bring out the best and the worst of every question that we have to consider. The advocates of all sides having placed their views before the public, it then becomes the province of the people to judge as to which will conform most to their interests, and adopt that course.

It is then that co-operation creates or antagonism destroys.

It is then that we show up as loyal and progressive citizens, or as mere trouble makers.

Co-operation is greater than all of the seven wonders of the world.

The race has come to a queer pass when it backs away from a platitude for no other reason but that it is sick of hearing the eternal truth.

The general appearance of some of our latter day politicians leads to a wonder how they ever happened to pick out a soap box to stand on.

The schoolboy, as the poet said, may have a shining face, but his sister probably carries a powder puff.

That fellow searching up and down the alley is the June bridegroom looking for his wife's can-opener, thrown away last week in a fit of rage.

Germany's position seems to be that she can't be good until she is relieved from paying for the damage she has done.

## DEMOCRATS TO NAME DELEGATES

WASHINGTON, Oct. 6.—Democrats in 17 states will select their delegates to the national convention next year by direct vote in a series of primaries beginning in March.

A tabulation of the dates of these

primaries has been made public by the Democratic National Committee. In many cases they coincide with the dates on which the voters will express their preference among presidential candidates, although in some states electing delegates directly there will be no preferential vote for president, the delegations being either instructed by state convention or left uninstructed. In many cases, too, Democratic and Republican voters will go to the polls to elect their delegates on the same day. The list of Republican primaries, however, has not

Even first-class passengers do not receive quite the attention obtained by Papyrus, great English three-year-old, when the English derby winner came to this country on the Aquitania. Note the white guards. Note the carpet. Note the police. Note the reverent attitude of the gentleman leading the horse. Papyrus will on Oct. 12 meet the best American horse at three years in a \$100,000 race at Belmont Park. Incidentally prices to watch the race range from \$1.50 to \$25. Photo taken when Papyrus arrived at New York.

She's "Miss Philadelphia" now. Was Miss Marion Green. Winner of all contestants for Atlantic City pageant.

been completed by headquarters of the Republican National Committee.

To Democratic list follows:  
Alabama May 13  
California May 6  
Florida June 3  
Illinois (dist. delegates only) April 8  
Massachusetts April 29  
Montana May 27  
Nebraska April 15  
New Hampshire March 11  
New Jersey April 22  
New York April 1  
North Dakota March 18  
Ohio April 19  
Oregon May 16  
Pennsylvania May 20  
South Dakota (meeting Dec. 4, 1923, to propose delegates) March 18  
West Virginia May 27  
Wisconsin April 1

In Louisiana the method of selecting delegates chosen in district convention is left to the state committee; the usual custom is to call a state convention for the purpose. Other states in which selection of delegates is left to state committees are Arizona, Arkansas and Washington.

In practically all states in which conventions are called to select delegates, the convention dates are set by the state committees. At the Illinois, New York and North Carolina conventions delegates-at-large only are selected; in Maryland the convention primary of May 5; in Michigan the date is usually about May 15 in Nevada the platform convention are chosen in district

conventions in North Carolina; the South Carolina convention is usually some time in May. In only one state is the convention date fixed. Wyoming, where convention day will be May 12.

There will be 1,994 delegates at the 1924 Democratic national convention, and 729 1/2 votes will be required to nominate.

## CHICAGO BABIES THRIVE

CHICAGO, Oct. 6.—Chicago is four times as safe for babies as it was seven years ago, according to a report of the Infant Welfare Society of Chicago.

The annual report of the New York Cotton Exchange contains an item, "Food for cats, \$51.73." In spite of all precautions, rats and mice occasionally appear on the trading floor. Traps have been employed in vain and the cats are the minstrel in combating the nuisance. The rats eat the ticker tape, often destroying several rolls at a time. Spot, the dean of the Exchange cats, spends the night on the trading floor, sleeping in the engine room during the day when the Exchange closes.

Fish at the Pratt, Kansas, state fish hatchery are being fed by electricity. Large light bulbs are placed at the edge of the fish ponds and moths millers and other insects are attracted by the light. The water beneath the lights is soon covered with the insects which the fish devour eagerly.

## TREATED LIKE A PRINCE

## The Office Cat

She that putteth the hand to the steering wheel and straightway taketh it away to powder her nose shall wake up in heaven or a hospital.

Now they say poison gas will cure a number of things. At any rate it will cure the notion that war is glorious.

A cheerful chump gets further than a grouchy genius.

Little drops of courage, little grains of sand, may not win a fortune, but they help to beat the band.

Business is like an aeroplane—to stop is to drop.

## WRONG KIND

Fired from the old church choir. Was Little Sallie Sims. The dear thing never seemed to tire of looking at the hims.

The only way to achieve greatness is to die and millions of us won't achieve it even then.

A group of Klamath Falls neighbors, listening to a little girl singing at her play, were surprised to hear this melody: "Jesus loves me yes I know, for the Bible told me so. Yes we have no bananas."

Someone asked: "Is Ford going to put on the muffler this winter?"

Many a man who thinks he needs a rest really needs arrest.

Blythe, Cal., has just achieved fame by announcing that it has no citizen either Smith or Jones.

Specialists say laziness is a contributing cause of lunacy, but there are no crazy guys in Congress that we know of.

Stories about cooties give us the creeps.

Among the other saddest words in the language are these: Elevator not running.

The reason there are so few female violinists is that they can't keep their chins still along enough.

Wm. McNeely thinks that most of the fish are caught in permanent waves and hairnets.

One reason why Darwin got by was because Bryan wasn't there to read him out of the party.

# The Screen

## A TTHE LIBERTY

J. Warren Kerrigan, hero of many and varied screen encounters, will be seen in "A Man's Man," at the Liberty Theater tonight. The story is by Peter B. Kyne and introduces Kerrigan as a brave young American whose search for thrilling adventure takes him to South America. The picture provides many affecting scenic opportunities, some of which are said to be of uncommon beauty.

A deafening roar—then tons of rock and earth rent asunder by a charge of dynamite, rose in the air. There followed the rumble of huge fragments falling to the ground; after that—silence.

This is the dramatic finish of the Fox production, "Boss of Camp Four," starring Charles Jones which will be shown at the Liberty Theatre for two days, starting Sunday. The events that precede this incident are even more exciting.

Charles Jones is gagged and bound within one hundred yards of an unnel containing blasting powder used in road construction. Inside the excavation is a man who has gone to examine the explosives. Although he sees all these things, Jones, in the character of Chief Fanning, seems helpless. The man supervising the blasting orders the hole closed, preparatory to igniting the powder.

Jones finally frees himself and—but that is the story. It is filled with interest and action. There is a love theme, too. If you like stirring tales of the out doors, here is a narrative that should satisfy your need for entertainment. Judging from this star's previous pictures, his latest offering, reported to be even more engrossing, should provide an enjoyable evening.

atre. They will present "Why men leave home" tonight. With Vandeville between acts.

Twenty miles of pearl oyster beds in the Gulf of Mannar, between Ceylon and the southernmost coast of India, have been discovered. The beds are still young and the earliest date of maturity is 1924. The only other pearl fisheries of any importance in India at present are along the extreme southern coast and the Mergui Islands, off Southern Burma. These latter are exploited by Japanese divers and the production enters but slightly into Burmese exports.
