Crater Lake Still Attracts—

Even though the season has officially closed at Crater lake, travel to Klamath's great attraction has not ceased, and no less than 16 cars bound for the lake, were passed Sunday by a party composed of Mr. and Mrs. Wm. McNary, Mr. and Mrs. A. H. Harrison, Mr. and Mrs. H. N. Moe and Mr. and Mrs. P. A. Albertson. Snow at the lake ranged in depth from an inch or two to 12 inches where it had drifted, and it was snowing when the party left. A visit was made to the mysterious "Lady of the Lake," over whose origin a controversy is now raging. One of the cars passed here a Michigan license and one was from Wisconsin.

Fall Weather Unique—

That there has never been a fall quite like this one was the statement of Justice Emmitt this morning. "Never have we had such continual sunny weather for this time of year," he declared. And when it has rained it has been a warm spring precipitation. Here it is October 22 and I have tomatoes in my garden not frost bitten and a large supply of unpicked strawberries. This weather in this country is remarkable. Three times since I have been here it has snowed on the Fourth of July and I can remember once on June 20. We had five inches of snow. Usually there is a flurry of snow long before this in Klamath Falls."

Visits In Grants Pass—

Lynn Sabin, secretary of the chamber of commerce, spent the

week-end in Grants Pass visiting his family and transacting business. He drove back last night.

Hunters gave Good Luck—

Duck hunters and quail hunters who braved the occasional downpours yesterday were amply repaid for their fortitude. Quail shooting was uniformly good in nearly all sections, while the ducks seemed to be most numerous around Big Marsh near Kirk, and in the Tule lake section near Merrill. There has been no sign of the fall migration of geese, although there have been several shot recently. They are due now and according to experts will come south as soon as there is a big storm in the north.

Cases in Police Court—

Since the first of the year 644 cases have come before the police court according to Police Judge Gaghagen who was looking over the records this morning. This makes an average of nearly three cases per day, not including Sunday.

Rain Hard on Roads—

A number of Klamath residents returned from Ashland last night after having attended the football game there and had a difficult time on the portion of the Green Springs road that was not macadamized. While the base of the road is rock, still the intermittent showers rendered the highway dangerous, particularly to those without chains. Motorist declared there was ever a tendency for the car to slide off the grade into the ditch. A new cut on the new highway between here and Keno caused considerable difficulty and a number of cars were forced to turn back and take the old road. The rain has caused the highway department considerable worry, as it is impossible for the heavy trucks laden with gravel to make the steep Hayden creek grade. The weather will be the determining factor in the completion of the Green Springs road.

California Hunters Try Luck—

Two hunters from San Diego, Calif., spent the week-end here trying to find a guide to take them through the mule deer country in the vicinity of Bly. Unable to find a guide they left for this country this morning in a truck laden down with supplies, and will hunt till they get the limit if it takes them until the end of the season.
