

NEW BRAND OF WHEAT FOUND BY GOVERNMENT

WASHINGTON, Nov. 7.—Development of a new variety of winter wheat which is resistant to rust or smut is announced by the department of agriculture. It has been named "Ridit" because it is expected to rid the wheat fields of smut. The variety was developed by Dr. E. F. Gaines of the Washington agricultural experiment station at Pullman, Wash., in co-operation with the department of agriculture. It was bred through crossing Turkey and Florence varieties, the latter a smut resistant spring wheat from Australia. Ridit has been found better adapted for the more humid regions than for semi-arid regions. A few hundred farmers in eastern Washington planted Ridit this fall to give it a more complete trial than it has had in experiments.

Business Depression Closing Factories In Foreign Countries

BUCHAREST, Rumania, Nov. 7.—Despite its natural resources of wealth, Rumania today is in the midst of an acute economic crisis. A local newspaper, Universal, says "the internal situation is grave, especially in relation to economic and financial affairs."

Large industrial enterprises, even including the oil interests, are reducing their working forces at the approach of winter. Factories are closing because they find difficult in collecting the payments due them and the export of wheat has been reduced to negligible proportions, in spite of recent efforts of the government to stimulate exportation.

One reason for the existing situation is the low purchasing value of the lei, which has fallen lower than the currency of any of the Balkan states.

Advertising pays. Try it and see.

England In Need of Number of Dentists

LONDON, Nov. 7.—There are 3,000,000 children in England and Wales who need dental treatment, and it has been said recently by an insurance concern that bad teeth are the direct cause of most of the general debility and minor illnesses which exist today. England has only 117 dentists to every million of population which is far from enough.

Wood To Burn

Bad weather is closing down the mills and glowing the deliveries.

Winter prices will soon be on. We have a good stock of dry wood at fair prices.

We are still delivering Green Slab and if you care for this good fuel at a cheap price, order quick.
