TYHE DEFEATS CANADIAN CHAMP

PORTLAND, Feb. 8.—Ted Tyhe retained the light heavyweight belt last night, taking two out of three falls from Frank Saxon, champion of the Canadian title.

RECORDS FALL IN SWIM MEET

MIAMI, Fla., Feb. 8.—One world and two American records fell yesterday in the opening events of the swimming meet here in which leading girl swimmers of the United States are competing.

Gertrude Ederle of New York shattered her own world and American records in the 150-yard free style swim, covering the distance in 1 minute 44 1-5 seconds. Her former world's mark was 1 minute 45 seconds.

Agnes Gharety of New York, swimming alone, ripped 12 seconds off the American mark in the 200-yard breast stroke, which she made in 3 minutes 15 seconds against Mable Arkle's long-standing record of 3 minutes 27 seconds.

Alleen Riggan, New York, failed to disturb Gertrude Ederle's 300-yard mark in the opening event on the program, her time being 4:11.5, while the record is 3:58.2. Sybil Bauer, Illinois, swam the 100-yard back stroke in 1:15.2, a fraction of a second above her own record.

PRIZES OFFERED FOR ESSAYS ON VARIOUS SUBJECTS

UNIVERSITY OF OREGON, Eugene, Feb. 8.—(Special.)—Every high school and secondary school student in Oregon is eligible to compete in the prize essay contest of the American Chemical society, according to word received by Professor Owen F. Stafford of the University of Oregon department of chemistry. The contest is to be country-wide.

Each contestant may submit one essay, not to exceed 2500 words, which must be confined to the following six subjects: The Relation of Chemistry to Health and Disease; to the Enrichment of Life; to Agriculture and Forestry; to National Defense; to the Home; to the Development of the Industries and Resources of Each State (the contestants to write on their own state industries and resources).

The best essay on each of these subjects in each state will be awarded \$25, and six best essays will be selected by the national committee of judges from among the state winners. The writers of the winning essays in the national contest will be awarded four-year scholarships to Yale university or Vassar college, each scholarship to carry with it \$500 a year in addition to tuition fees.

CHILOQUIN TRAIN SCHEDULE CHANGE BEING CONSIDERED

To make better connections for mail transportation, the schedule for the Chiloquin train may be changed next Monday, according to John McCall, postmaster. A movement has been afoot for several weeks to arrange the schedule in such a way that the train would arrive here at 12:30, in time to catch the mail stage for Ashland, which leaves at 1 p. m. The train arrives here at 1:30 p. m. and the mail is held in Klamath Falls for 24 hours.

Business men have been in communication with the superintendent of the thirteenth railway mail service division at Seattle, Wash. Their desires are being considered and there is a strong likelihood that the change in schedule will be effected.

Among the superstitious Irish peasantry Friday is regarded as a very unlucky day. The door should never be opened to a stranger on that day, nor should a cat be taken from one house to another.

"Put Up Your Dukes, Marquis!"

Exclusive picture showing the Marquis of Clydesdale (left) in the ring at Bernersday Town Hall, England, with E. N. Lucas, whom he defeated in six rounds. The marquis is champion of the Oxford Boxing Club. His mother, the Duchess of Hamilton, recently expressed satisfaction that her boy had picked boxing as a career, she thinks it's great stuff, as we Americans say.

ADMITS PART IN CLUB FRAMEUP

MILWAUKEE, Wis., Feb. 8.—Joe Jackson, former White Sox outfielder admitted to Alfred S. Austrian, Chicago American League club attorney, implication in the plot to throw the world series of 1919 and received \$5000 for his part in the scheme, according to testimony given by Austrian in Jackson's \$18,500 salary suit against the club in circuit court here today.

These admissions were made to him, Austrian testified, in his office in Chicago about the time of the call of the grand jury to investigate the world series scandal of that year.

Among other things, the witness said Jackson made the following admissions: That he had been one of the plotters.

That Chick Gandil had first mentioned the plot to him.

That he (Jackson) had demanded \$20,000 as his share and that this sum had been promised him.

That he was to receive installments after each game, but when none was forthcoming after the first two games he complained to Gandil. That he received \$5000 from "Lefty" Williams, Sox pitcher, after the fourth game.

Austrian testified he had talked to Eddie Cicotte, Sox pitcher, prior to the Jackson conversation, and that Cicotte had admitted to him his part in the plot and named Jackson and six other members of the team.

At this point attorneys for Jackson began cross-examining the witness. It was brought out that Charles A. Comiskey had suspicions that all was not well with the series after the completion of the first game. Austrian denied that Comiskey mentioned the names of any players, or that his suspicions were directed against any specific members of the team. He denied Comiskey had sent a detective to Savannah, Ga., home of Jackson, to interview the latter after the close of the series or that Comiskey had had a talk with an agent of Arnold Rothstein, New York, alleged gambler mentioned in the resulting scandal.

SAYS EARTHQUAKE NEARLY EVERY DAY

LONDON, Feb. 8.—The earth is in a continual state of unrest, internally as well as on the surface, says Professor H. H. Turner of the London Training College. In a recent lecture he declared that almost every day an earthquake occurred somewhere and often three or four took place. These quakes seemed to be getting more frequent, and it is still a question with experts whether the worst had been passed or is still to come.

Commenting on the accuracy in our times of the science of seismology, the professor said that modern methods of recording had proved that what has hitherto been written on the seismographs as interior rumblings are in reality earthquakes so far down in the earth that the crust is not broken or disturbed.

MADDOCK NAMED OREGON COACH

RUGENE, Ore., Feb. 8.—Joseph H. Maddock, assistant to "Hurricane" Vost of Michigan in 1923 and 1921, was named football coach for the University of Oregon, at a meeting of the executive council of the Associated Students last night. He will succeed Huntington, resigned.

SIWASHES COMPLETE PLANS FOR TRAINING

SEATTLE, Feb. 8.—Spring training plans for the Seattle Baseball club of the Pacific Coast league are complete, President Charles L. Lockard announced after receiving a telegram from Wade Kilmer, the manager.

The pitchers and catchers are to report March 2 at Elsinore, Cal. "for a week of boiling out in the hot springs," and the infield and outfield candidates March 9 at San Bernardino, Cal., where the whole team will be drilled. Kilmer wired from San Bernardino.

The contract of Ted Baldwin, third baseman last year, was received yesterday.

SEVEN CAGES OF RATS STUDIED AT STATE UNIVERSITY

OREGON AGRICULTURAL COLLEGE, Corvallis, Feb. 8.—"Great rats, small rats, lean rats, brawny rats."

But these rats don't bite babies in their cradles or spoil the women's chins. Indeed, they are among the most friendly, docile, and altogether charming little black and white rats that ever squeaked. Furthermore, they are doing a service for mankind by proving that milk is necessary food for the growing child.

Mrs. Jessamine Chapman Williams, professor of household science, is experimenting with these rats—seven cages of them with two or three in each cage—to find what is the best supplement for bread. Rats eat the kind of food men do. Mrs. Williams has found that those fed on bread and milk weigh four times as much as those fed on bread alone, although they are exactly the same age and come from the same family.

These rats will be a little more than 3 months old when the experiment is finished, February 22. Since this age in a rat's life corresponds to 7 years in a man's life, the results will show the best food for a young child. The foods in the order of their value as supplement of bread, says Mrs. Williams, are milk, cabbage, potato and three fruits—prunes, apples and loganberries.

An elephant cannot see an object outlined against the sky at more than 30 yards.

More than 90 per cent of a blanket of new snow is sometimes made up of air.

Forty thousand tons of tobacco is smoked in the British isles every year.

Recent tests have shown that the oak timbers in the roof of a London building are as strong as when it was erected five centuries ago.

CROOKS GARNER HUGE SUM IN LOS ANGELES

LOS ANGELES, Feb. 8.—A total of \$337,553.48 in cash and property was realized by the criminal element of Los Angeles from operations during the month of January, according to a report made public by Police Statistician Knoles. This figure is exclusive of \$110,000 worth of automobiles which fell into the hands of motor thieves during the same period, the report adds.

The report in detail shows that citizens lost \$136,614.17 in cash in burglaries during the month. The "sucker" list was good for another \$36,176.83 and plain thieves garnered a total of \$73,460.20. Pickpockets, adding their bit to the whole, snagged \$8460.25 from the pockets of unsuspecting victims while gunmen, stalking the streets both day and night, were enriched by \$70,431.56 taken in hold-ups. Worthless checks for \$5994.45 were cashed during the same period and another \$6905 was lost by careless men and women.

The police, however, were not idle during this period, the report indicates. They not only recovered a huge amount of property, but their offensive against crooks in general was intensified to such an extent that the ranks of the criminals were more or less decimated. All told, the police placed 6019 suspected killers, ransoms, petty thieves, suspects and other varieties of law violators under arrest in the 31 days. The total arrests during the month for grand larceny was 166 of which eight were women. There were 28 suspected bandits, 19 drug peddlers and users, 534 asserted Wright act violators and 19 persons charged with reckless driving placed in jail. The number of arrests for drunkenness led the list with 852. Also, there were 200 asserted gamblers taken into custody.

HIGE PRICE IS PAID FOR TRACT

YREKA, Feb. 8.—One of the most important real estate transactions in Siskiyou county this year came to light this week in the announcement of the sale by H. J. Barton of his 100-acre tract on the Klamath river at the mouth of Beaver creek to Sheriff A. S. Calkins of this city, I. P. Taber and the latter's son, Roy Taber of Dorris. The consideration has not been announced, but it is generally understood the property brought the highest acreage price ever paid for real estate in that part of the county.

The location is an ideal one for a summer resort, and it is planned by the purchasers to ultimately make it one of the attractions of the canyon. Several mineral springs, flowing waters of known medicinal quality, are located on the tract, and situated along the Klamath in close proximity of the place are many more springs flowing health giving waters, noted for many years for their remedial qualities.

Sheriff Calkins stated that no definite program for the development of the property had been decided upon, but a colony of summer homes, dance pavilion, automobile camp, baths and playgrounds will be included in the program of early activity.

Aside from its value as a potential summer resort, there is a considerable acreage of gravel near the river carrying places gold values. This ground will be prospected and developed and if the values are of sufficient to justify the step hydraulic giants will be set to work within a few months.

CREAM CLEARS A STUFFED UP HEAD

Instantly Opens Every Air Passage—Clears Throat, Too

If your nostrils are clogged and your head stuffed because of nasty catarrh or a cold, apply a little pure antiseptic cream into your nostrils. It penetrates through every air passage, soothing and healing swollen, inflamed membranes and you get instant relief.

Try this. Get a small bottle of Ely's Cream Balm at any drug store. Your clogged nostrils open right up; your head is clear; no more hawking or snuffing. Count fifty. All the stuffiness, dryness, struggling for breath is gone. You feel fine. Ady.
