Calls On Nation to Get Behind Forestry Measure

Members of Senate Forestry Committee and president of the American Tree Association of Washington, D. C., which is campaigning to arouse the public to the importance of putting eight-one million acres of idle land to work growing trees.

If there were \$1,000,000 idle
freight cars or \$1,000,000 idle people
in this country a terrible roar would
go up, says Charles Lathrop Pack,
president of the American Tree As-
sociation of Washington, D. C., which
is campaigning for a national fore-
stry policy. But the fact there are
\$1,000,000 million acres of idle land
in this country most of it east of the
Mississippi river and fit for little
else, but growing trees does not in-
terest the public as it should, ac-
cording to Pack.

The McNary forestry bill has
just been introduced in the United
States. The chamber of commerce
of the United States has just an-
nounced a referendum vote in favor
of forestry policy legislation by a
tremendous majority. The national
forestry program committee, made
up of newspaper publishers, lumber
men and paper manufacturers, has
been before the senate forestry com-
mittee and stated the situation.

Pack, who has just given annual
forestry prizes to various forest
schools and a thousand-acre dem-
onstration forest to the New York
State college of forestry at Syracuse,
says the people must wake up to an

GEORGES SETS BEAUTY STYLES

SAN FRANCISCO, Feb. 8.—With
Georges Carpentier, famous French
pugilist, setting the style, are the
beauty shops and hair dressers about
to find themselves swamped by male
patrons demanding a marvel of per-
manent wave? Photographs of the
Carpentier coil have reached this
country and the followers of fash-
ion's latest fancies are secretly try-
ing out the effect.

It is said that Carpentier has a
method in his madness. All mat-
resses are made of curled hair. It
has resilience. A curled hair is like
a spiral spring.

If Carpentier is ever called to meet
Jack Dempsey again he will have
something to bounce on. He has
read the account of how Jack, him-
self, went through the ropes and
"bounced the old bean" off a type-
writer. Georges prefers a good Os-
teometer, even if he has to carry it
around with him.

The marvel wave for a prize-
fighter has the principle behind it
of a shock absorber. It might even
save an ear from becoming a
"cauliflower." It may appeal to
aspirants on the football squad for
next year.

Why speak of practical values,
however, when there is so much to
be said for beauty? It is only the

DEATH RATE IS LOWER IN LONDON
LONDON, Feb. 9. — Sir Walter
Kliener, controller of the National
Health Insurance department, is
rather optimistic about the health
of the people of Great Britain.
In a recent speech Sir Walter said
that despite the fact that during the
last few years they had been pass-
ing through the greatest wave of de-
pression the country had known
since the Napoleonic era, the health
of the people was steadily improv-
ing. Last year, he added, the death
rate was the lowest on record and
the infant mortality rate was about
one-half of that of 15 to 20 years
ago. It was a cheering fact to re-
member, the speaker concluded, that
a child born today had an expecta-
tion of life 12 years longer than
had his grandfather.
