MONTANA LIFE CO. PAYS JORDAN POLICY

George L. Forge, general state agent of the Montana Life insurance company of Helena, Mont., reports an incident which is most significant.

On December 9, 1923, application was made for a joint 20-pay contract on the lives of Mr. and Mrs. Roy A. Jordan. On December 23d, the policy was issued at the home office of the company and was delivered January 5th, settlement of the contract being made by a 90-day note.

On February 5th, just 80 days from the day the policy was delivered, Jordan met his death by accidental electrocution, and on February 9, a check for \$2000, was mailed to his widow, payment being made within four days of the date of the accident and without his having paid out one cent.

It will be noticed that just 60 days elapsed from the time application for insurance was made until the check was written. 13-14*

AUTONOMY FOR VOLGA PROPOSED

BERLIN, Feb. 14.—Soviet Russia is about to give autonomy to the German colonists on the Volga, and will make the community, which has already been organized by the Volga Germans, a part of the Soviet federation. Of the 800,000 German colonists still reported to be alive in Russia, Dr. Otto Fischer of Hamburg, who is well acquainted with the conditions in Russia, says at least 600,000 are in great distress. The remainder of the German colonists in Russia are along the Black sea and the remainder are on the Volga, in the vicinity of Saratoff.

Some doubt is expressed by the German press as to whether the Germans in Russia along the Volga can be won over to the soviet standard by giving them autonomy because of the extreme hardships they have suffered under the bolshevik regime and the disorganization and death visited upon them by famine and the requisitioning of their grain and cattle by the soviet government.

German first emigrated to the Volga area 150 years ago and 50 years later the German colonists settled along the Black Sea. Of recent years there has been a great emigration of these German-Russian colonists to the United States, especially to Kansas and North Dakota. Many of them also have gone to the Argentine.

A new famine is now facing the Volga Germans, and the Berlin Catholic paper Germania is carrying an appeal for the colonists. The extremely high price of all sorts of textiles in Russia and the bad economic state of the Volga Germans make it impossible for most of the colonists to buy clothing. Many children cannot attend school because of the lack of clothing, and even the clergymen are reported to be so poverty-stricken that they have no suitable clothing to wear in the churches.

Both the Catholic and the Protestant German colonists have clung to their religion in Russia in spite of the bolshevik agitation against all churches and the martyrdom of the priests and preachers and they have clung to their mother tongue and customs.

Marienthal, the largest Catholic community in Russia, had 12,000 inhabitants before the soviet regime. It now has only 4000 and other centers have been similarly reduced under the disorganized and unsettled conditions brought about by the political upheaval and the famine.

HAWAIIAN FARMERS PROSPER

HONOLULU, Feb. 14.—Hawaiian farmers, unlike their fellow workers on the mainland, apparently are in a highly prosperous condition, according to Walter Coombs, executive secretary of the territorial farm loan board.

He bases his statement on the fact that he has been unable for six months to obtain borrowers for \$32,000 available for loans to farmers at a small rate of interest.

A young French archeologist, swimming into the recesses of a partially submerged cave near St. Martory, France, found valuable secrets. Keeping his matches and candles dry by means of a special contrivance he swam nearly a mile, resting on rocks en route, when he reached a dry gallery 200 yards long, the walls of which were covered with inscriptions and age-old drawings, together with statues of animals that disappeared from the earth thousands of years ago.

INDIAN COP TOO SLOW; PRISONERS WERE IN HURRY

Wires between Chiloquin were hot for a short time yesterday morning over the supposed escape of A. W. Carey and B. E. Duncan, alleged bootleggers. The two men were lodged in the city jail and were to have appeared for trial in Chiloquin yesterday morning. An Indian policeman was sent down to take the two men to Chiloquin. Such slow progress was made, from the station to the depot that the two men told him to get to Chiloquin any way he could and they would hurry and catch the train.

The two men did as they promised and leaving the dumbfounded Indian to his own resources caught the train and arrived on scheduled time for the trial. They were acquitted.

R. C. Spink, justice of the peace of the Wood River district received word that the two men had escaped and was about to take measures for their apprehension when they arrived in court.

Just a Question of Vision

"Wisdom points to owning your own home," says Mr. Bellman, a prominent Klamath Falls authority on real estate. "It's a matter of economy. Just figure how much rent you have paid in the last few years, and the fact that you cannot borrow a cent on those rent receipts. Why not start building your own home and pay rent to yourself? All we need is a little vision."
