KLAMATH FALLS, OREGON, TUESDAY, MARCH 11, 1924

### STATE AID IS **SOUGHT TO BAR** EXPOSED STOCK

#### County Court is Without of 50.4 per cent. Jurisdiction; Message Sent to Governor

Holding that they had no power to restrict all stock and chicken importations or any other domestic animals that would be likely to carry the dreaded hoof and mouth disease from the infested regions of California, the county court yesterday sent a telegram to Governor Plerce requesting immediat action.

#### The telegram reads:

Situation is critical for all Oregon counties bordering on California on account of the boof and mouth disease in that state, Several herds of cattle have been alrealy imported to Klamath county and others ready to move. Any such importation will prove disastrous to our cattle and owners. Urge that you make proclamation under Oregon Jaws section 9231 immediately applicable to all domestic animals and fowls from all parts of California. We urge that no special permits be issued to bring California cattle into Oregon at this time.

#### Klamath County Court R. H. Bunnell, Judge.

While there is a general pro clamation against the importation of California cattle from quarantined area in California, it was held by C. A. Henderson, county agent, that domestic animals would be transported through the infested area on their way to Oregon. The safest course to follow Henderson averred, was to abso lutely forbid the importation of the California animals until the infestation is under control.

The county court strongly upheld Henderson's stand and endeavored to seek some way to forbid California importations. It was found that there was no law under which the county court could

In addition to the telegram sen to the governor, one was sent to the state veterinarian, Dr. Lyle, to come to Klamath county at his earliest opportunity. It is hoped grating full blast, A small crew of that if the hoof and mouth disease is in its incipient stages in Klamath county that the Dr. Lyle will men will be at work in the camps, be able to counteract it before it | Preliminary work connected with attains any proportion.

Henderson declared.

That action would be taken by the governor immediately was the prediction of Henderson,

'We should know what he will do about it by tomorrow at the latest," he said.

#### BOB HAIRED WOMEN ORGANIZE AGAINST WHISKERED MALES

SPOKANE, Wash., March 11. -Formal organizations of the "Bobette club" with a membership of 117 bob-haired women pledged to wear their hair cut for at least three years, was announced here today by Miss Margaret Brenger, the vice-president. The pledge taken by members, she said, includes a promise "not to dance, filtt nor go to a show with any man, old or young who wears whiskers, believing that whiskers on a man's face are as unsanitary as long bair on a woman's head."

Members promise to pay up to \$1 a year for the purpose of helping support any girl who may lose her employment because she has had her hair bobbed, and agree to use their influence in combatting antagonism to bobbed hair.

"This club is not a joke," Miss Florence Hurd, the secretary, declared. "We even hope to be able to take into court some of the managers of business houses who are making life miserable for their bobbedhaired employes."

## BARE FOSSILS OF PAST AGES

#### est Disclosed on Big March Near Crescent

BEND, Ore., March 11 .-- Huge preme court today held that the state chunker of mineralized organic matgame commission has no right to ter resembling charcoal, remnants of the forest destroyed ages ago son by fixing dates other than those can continent was torn by seismin disturbances and covered by volcanic material, have been found in the Marion county, involving the comis deep cuts being made in the earth

The information, brought to Bend by H. L. Plumb, supervisor of the Deschites national forest, who re-Priday, that chercoal has been found inder layers of pumice and volcanie material over 20 feet in thickness in the B/g Marsh country, has aroused the interest of local people who are interested in geology, and it has been predicted that many unknown formations, and perhaps fossil remairs of now extinct animals that ranged in this part of the world thousands of years ago, will be found in the deep railroad cuts.

Rich Fossil Region. The south-central region of this state has long been known to be one of the richast fossil regions in the world, geologists and palentol ogists having unearthed mineralized skeletons of prehistoric life in the vicinity of Forsil and Christmas lakes. The Nation cutoff line will not pass near these takes, but it is thought prohable that other fossii beds may be found in the fittle known region east of the mapped for ii beds.

Near Corral springs, south of Cresent, the Natron cutoff line will be laid in a deep cut five miles in length along the side of the mountain, it is said. This cut will open strata which will probably hold a record last night on the ground that the of the formation of the land mass. Covered by Forests.

It has been the theory that much of this region was covered by a verdant forest before the volcanic forces an improvement that the petitioners threw out seas of lava from fissures desired. The petition was to improve in the earth and from volcanic cones, Upham street. and the finding of the charcoal is further proof of the theory. Whether the charcoal can be used for heating

### BRITISH LABOR **REGINE STA** BEHIND LEAGUE

PRICE FIVE CENT

#### Promise of Support Given As Session is Opened; Wilson Eulogized

GENEVA, March . 11. - Ples for American, German and Russian ud-hesion to the League of Nations delivered by Lord Parmoor today at the opening of the public session of the league council. Parmoor pledged British labor government to whole-

hearted support of the league.
Senor Guani of Uruguay, new
president of the council, delivered
a culogy of Woodrow Wilson, as the creator of the League of Nations, and 'illustrious leader who had con tributed to the abolition of war by promoting the brotherhood of man through the foundation of an inter national organizm for conciliation."

GENEVA, March 11.—As one of the slogans of the new British labor cabinet is that more use be made of the League of Nations in the effort to put Europe's political house in order, special interest is attached here to the present meeting of the Council of the league.

Lord Parmoor's program of ac tivity is still an unknown quanti-ty, but as Premier MacDonald has come out for the admission of Germany and Rusia to the league, the new British delegate may come to Geneva with some tangible susgestions calculated to hasten the advent of the two great Europ powers who are still outside the Council Refuses to Grant Reduction of 25 Per cent league portal, Interallied military control of the Rhine district as linked up with the great problem of security for France, constitute a weighty matter that may find an echo at the March council reunio lied control of affected German territory passes to the League of Nations, so that the question of league direction does not present portance of the reduction would difficulties once the great powers and Germany reach an accord and accept the impartial Geneva juris-
