

Let's Get Sick in Albania

Dinetra Taina, medical student at Boston University, expects to be the first woman doctor in Albania. She is the first Albanian to study in an American college.

PSYCHOLOGIST IS TO LECTURE HERE

M. G. Reed, psychologist, magazine writer and lecturer, arrived here yesterday, accompanied by Mrs. Reed and John Herbert, his business manager. Reed specializes in business efficiency, character analysis, the psychology of salesmanship and the development of personality. He is planning to give a series of lectures in Klamath Falls if suitable arrangements for a hall can be made. Mrs. Reed is well known to Klamath people through her connection for the past two years with the management of the annual Chautauqua.

Reed has just completed a lecture tour of the east, where he says he found conditions good in the industrial and manufacturing centers, but very bad in the rural districts. Even the rich state of Iowa is suffering from depression and both North Dakota and South Dakota are hard hit. Montana is practically bankrupt, Reed says, there being whole counties in that state where there is not a bank left.

Reed is the author of "The Mystery of Happiness," which is to be filmed soon for the motion picture screen.

A jazz band played "Yes, We Have No Bananas" and "Ain't We Got Fun," at the funeral of Jules Tantot, theater owner of Amlens, France. M. Tantot's will obliged his heirs to fulfill its conditions of a jazz funeral, with a full brass band, although the good people of Amlens and the surrounding country were shocked.

Guarding King Tut

Photo shows a fully armed native guarding the tomb of King Tut, following quitting of Howard Carter, excavator. It was taken at Luxor, Egypt, where the priceless tomb was discovered.

Dear Madam:

This will inform you we have received several new Spring Pumps. Yes, they are Suede. We have the black and cross-strap effect Jackrabbit grey, airedale oose in strap and sport oxford styles. They carry the comfortable Cuban heel.

P. S.—We suggest you match them with Luxite, the better Hosiery

A High-Grown Coffee Bean
Hard, high quality. The hard, strong fibred, high-grown coffee bean is rich in caffeine. It holds its fine flavor, rich aroma, and high quality intact until released by roasting and steel cutting.

A Low-Grown Coffee Bean
Soft, inferior. The larger, softer bean, grown on low lands is poor in caffeine and lacking in flavor, aroma and quality.

Golden West Coffee

High

In coffee, "high-grown" means high quality and fine flavor. Only coffee grown at an elevation of 3000 feet or higher is top quality.

High-grown coffee beans are rich in caffeine—the aromatic essential oil that gives good coffee its fine flavor. In Golden West, nothing but high-grown coffee beans are used. These are blended and roasted "just right", then steel cut (not crushed) and vacuum packed in the handy key-opening Golden West can.

To be sure of getting "high-grown" and finest flavor always ask for—
