DR. CAMPBELL SPEAKER. Quoting the famous statistician Roger W. Babson in his theme "Christ or Chaos" and other world authorities in political economy, Dr. H. M. Campbell of San Francisco gave a ranging after dinner address to an audience of men Tuesday evening at the Presbyterian church which will linger long in the minds of his hearers. Dr. Campbell is secretary for the men's work committee of the church in the western district and his territory includes most of the area west of the Rock Mountains. His visit to Klamath was for the purpose of rousing interest in the men's activities in the church and his spirited lecture emphasized the vital necessity of the participation of the men in the various church enterprises and the uselessness of expecting the younger generation to undertake this unless provided by the example of their elders.

Dr. Campbell speedily proved himself to be above the calibre of the usual visitor speaking in this city and his address was highly appreciated by the houseful of church men, many of whom came from Merrill. A considerable renewed interest in bible study was manifested by those present.

MAH JONGG DRESS MAKES INITIAL BOW AT AUTUIEL RACES. PARIS, March 22. — The mah jogg dress made its initial bow to Paris at the Autuiel race track this week on the occasion of the 27th annual running of the grand prix des Printemps. It was the first outdoor display of 1924 styles. The mah jogg dress consists of three distinct frocks, entirely independent one from another, but worn all at the same time and presenting a delightful "fusedecolor" effect. The three dresses can be worn singly or jointly. Americans, who formed a large percentage of the 50,000 in attendance, predicted that the dress worn three-fold would be very popular upon approaching American shores in view of the customs regulations. Tailor made costumes ruled supreme, embroidered with great masses of buttons. Toques no larger than some of the jockey's caps and as varied in their colors lined the front of the stands. Picture hats were absent. Heels showed a tendency to be lower. Marcellus, a black four year old, owned by Antonio Gosset and ridden by Jockey Salmon, won the first big race of the year. His victory caused the public a blue feeling as he was neglected in the betting at 15 to 1.

TASTE IN HOME DECORATION HAS SEEN IMPROVEMENT. CHICAGO, March 22.—Taste in home decoration has undeniably improved in the last quarter-century, "but there still remains the important problem of who shall create the things we live with."

Raymond P. Emsign, dean of the school of the Art Institute here, said in a recent lecture on industrial art. Machinery has definitely supplanted hand craft, which is not to be regretted, he said, because machinery brings beauty to thousands, but it is important that the right artist be found to design the objects that surround the home. "Before the war most designers came from Europe," Mr. Emsign continued. "Even today English, French and Italian influences dominate decorative art and there is need for an authentic American art. The United States is sadly backward, however, in providing adequate training for designers in the industrial art field. In Europe virtually every city of any consequence has a splendidly equipped industrial art school. There are only two in America. "While the present lack is depressing, we should be encouraged in the fact that where Americans have applied themselves and led the way, the results have been highly gratifying. In the art of the American Indian there is much that is intimately related to our civilization, but these motifs must be intelligently handled, not merely extraneously applied without regard for the architectural structure of the object."

FUTURIST WIG IS PASSING FANCY OF PARISIAN ORIGIN. The Futurist Wig is shortly due for a debut. They come in all shades of color, from warmest yellow to brightest emerald green not a single hue is missing. The Futurist wig made its first appearance on the French stage a year or two ago. It is doubtful whether the Futurist wig will ever be more than a temporary conceit—a little madcap whim for millady to adopt at the ball or theatre. Still, only time can tell, we may be seeing them in the churches before long. Fads are like that.

HEAD DRESS Spring style suggestions for the school-girl. A bob parted in the center with the ends of hair slightly curled. The Garcon bob is very popular for millady. A bobbed head of hair can be easily transformed into an evening head-dress by wearing a bandeau of hair around the forehead. A very narrow strand of hair is used, producing a dainty effect, the top and the back of the coiffure is entirely small puffs and curls. During this season of hot weather, many heads will be encircled with a wide embroidered bandeau, or one of silk in various striking colors. This is called the "coiffure a la Lenglen." Mile. Suzanne Lenglen is a tennis champion. It was she who by winding her hair at first with a plain pocket handkerchief to keep it tidy, and then in foulards of bright colors, has brought about the fashion in bandeaux, which ladies and young girls have adopted for games and outdoor sports.

ART OF REDUCING One of the leading questions of the day in America in connection with beauty culture is the matter of reducing. If a reducing system takes off flesh too rapidly, its after-effects are worse than the original condition. It is a case where the cure is worse than the disease, the skin will hang loose and flabby, and you will not keep your youthful appearance. What causes fat? We do not inhale it. We do not absorb it. The truth of the matter is we eat it. Therefore the logical thing to do in planning flesh reduction is to look after the diet, and there have been published within the past few years various books along these lines. I would recommend a small amount of activity, say a daily two mile walk, but in this day and age even this will be neglected.

ROYALTY ATTENDS 'BABY LASCELES' BIRTHDAY PARTY. LONDON, March 22.—The Hon. George Henry Hubert Lascelles, the offspring of Princess Mary (Viscountess Lascelles), celebrated his first birthday anniversary by greeting his royal grandmother with his first "Gama." In the afternoon, as is the custom, he was taken for a ride in the gardens of Buckingham Palace, the attempts to take him into Hyde Park having been abandoned because of the near-riots caused by women admirers who rushed the baby carriage. In the evening members of the royal family gathered at Chesterfield House to partake of a one-canded take.
