Return From Legion Meet—

H. E. Getz, Fred Holbrook, the Rev. H. P. Andrews and Wm. Lorenz delegates to the district convention of the American Legion at Grant Pass yesterday, returned late last night, making the trip by motor in one day. Getz said 20 delegates from southern Oregon posts attended the meeting and membership and the auxiliary were the principal subjects discussed. It was disclosed at the meeting that six drum and bugle corps have signed up for the state convention in June, and Getz says unless the local corps wakes up it will find itself in the background while other posts are getting all the glory.

"HOW MUCH?"

It is the history of important innovations in the home that their general acceptance has waited until their daily need and reasonable cost to the consumer has been challenged and satisfactorily proven. It can now be fairly stated that electric short cuts for business and home purposes have proven both their value and low cost.

When you ask "how much" electric equipment will cost, or save you — you may well be surprised at its genuine economy.

For example, electricity will sweep, wash, iron, cook, light and heat water — with a minimum of labor on the part of the housekeeper for the low average monthly cost of \$8.50.

It has required foresight and investment to make this possible. Nor is this Company neglecting the future. At the beginning of 1924 it had increased its plant investment to \$11,700,000 so that the future needs of the home, business and industry would be cared for with an abundance of hydro-electric power at a reasonable rate.

Rate cost data, information regarding the correct wiring of homes and business houses are always available at our offices.

We will gladly show you how amazingly cheap electric service is.
