

OREGON SECOND IN LUMBER CUT

Oregon was second in lumber production in 1923 with a cut of 3,800,000,000 feet board measure valued at \$100,000,000, according to a bulletin just issued by the Western Forestry and Conservation association. There are 685 sawmills in the state. Forty-three thousand men are employed in the lumber camps and mills, making 65 per cent of the industrial payroll of the state.

Lumber production being one of the largest industries in Oregon, the maintenance of this industry through the protection of the forests in Oregon, the bulletin points out, is of vital importance because it means:

1. Continuous use of the forest land through the growth of successive crops of wood.
2. Permanent employment for labor.
3. Permanent employment for capital and mills.
4. Permanent homes and towns.
5. A larger and more permanent local market for agricultural products.

The perpetuation of Oregon's forest goes hand in hand with the regulation of stream flow to provide water for water power and irrigation, says the bulletin, and the prevention of erosion. The perpetuation of Oregon's forests is also necessary if the fish, game and wild life are to be saved from extinction.

HEALING CREAM STOPS CATARRH

Clogged Air Passages Open at Once—Nostrils Cleared

If your nostrils are clogged and your head stuffed because of catarrh or a cold, get Ely's Cream Balm at any drug store. Apply a little of this pure, antiseptic, germ destroying cream into your nostrils and let it penetrate through every air passage of your head and membranes. Instant relief. How good it feels. Your head is clear. Your nostrils are open. You breathe freely. No more hawking or snuffling. Head colds and catarrh yield like magic. Don't stay stuffed up, choked up and miserable. Relief is sure.—Adv.
