Geary, first vice-president, presided in the absence of Mrs. Don Belding, who is visiting in Portland. Mrs. Bridgeford, secretary, read the minutes of the last meeting, after which routine business of the year was wound up.

The new officers went into office at this meeting, the books being taken over by them at the close of the business discussion. Mrs. Bert Thomas delivered an interesting address on the kindergarten measure about to be brought to a vote before the legislators. Mrs. Thomas is chairman of the publicity work in Klamath County in the proposed kindergarten bill, and her talk was both instructing and interesting. A social hour followed, refreshments were served and a very pleasant afternoon ensued.

Actors in Film Are Athletic Personages

Actors in the cast of Tom Forman's production, "April Showers," now showing at the Liberty theater, have the reputation of being the most athletic group of screen players ever brought together. Kenneth Harlan—boxing, running, tennis, golf. Colleen Moore—swimming, tennis. Ruth Clifford—fancy dancing. Myrtle Vane—walking. Priscilla Bonner—gymnasium work.

Florida, total \$73,846,374. Of this amount, Mr. Gulon said, loans have been cancelled with total principal and interest of \$16,321,130. "It is almost impossible to tell how many farmers have been able to buy farms since the federal land bank was established," the speaker continued. It has been more of a question of keeping the farmer on his feet rather than helping the farmer buy a farm. "The standard of living, probably would drop, in the average case, for one or more years while the farmer is paying for his farm and purchasing machinery, but would rise eventually to above the level of the tenant farmer," the "acting president" stated, discussing the standard of living of the landowning farmer.
