The following has been received from Senator McNary: "The determination of congress to adjourn will prevent passage of bill S. 2655. I regret this exceedingly. When congress convenes next fall I shall be glad to bring the matter to the attention of the committee."

MOVIE CENSORSHIP IS PROBLEM TAKEN UP BY FEDERATION

LOS ANGELES, June 13.—Censorship and control of the motion picture industry, the betterment of the quality of films and their increased use for educational purposes, these form intricate and perplexing problems, it was stated to the biennial convention of the General Federation of Women's Clubs here today by Mrs. Harry Lilly of New York, chairman of the federation's national division of motion pictures.

"A most question is that of censorship," explained Mrs. Lilly. "It is taken for granted that there must be some protection from the exhibition of questionable films, but whether it shall be state control or federal or community pressure upon the local exhibitors has evoked expressions of sincere differences of opinion. The ordinary citizen, busy with his daily duties, cannot spend his time viewing pictures and it would seem as if the responsibility for compelling productions to adhere to some fixed standards of morality ought to be lodged in the hands of capable persons who have no other claim upon their time and attention.

"Concern about the filming of books whose popularity as 'best sellers' depends upon the exploitation of the so-called sex problem have been received and passed on to producers, but the pictures as a rule

are free from the objectionable features of the books and our protests fall flat."
