

Requires fewer coats than enamel—easy to apply—costs less

BARRELED Sunlight can be kept as fresh and white as the day it was put on. Made by a special process, this white paint's surface is so smooth that the worst smudges can be quickly washed off with a damp cloth.

Barreled Sunlight means spotless white woodwork—bathroom and kitchen walls as washable as tile. Comes ready mixed in cans from half-pint to 5-gallon size. It is guaranteed to remain white longer than any gloss paint or enamel, domestic or foreign, applied under the same conditions. Can be readily tinted.

Barreled Sunlight is easy to apply. One coat is generally sufficient over a previously painted light surface. Where more than one coat is required, use Barreled Sunlight undercoat first.

SULLIVAN CASE NEARING CLOSE

(Continued from Page One)

Memory Faulty

Q—"Now, Mike, you say that Tracy was at your ranch about January 8 and again on January 15. do you not?"

A—"Yes, sir."

Q—"Was he there at any other time between these two dates?"

A—"No, sir, not that I can remember."

Q—"You testified in the O'Shea trial, did you not?"

A—"Yes, sir."

Q—"Didn't you testify in that case that O'Shea had come to your ranch on Sunday, January 11, before Sullivan was arrested?"

Murphy hesitated and admitted that he had but said it had slipped his mind.

O'Shea on Stand

John O'Shea was called to the stand this morning to answer several questions put to him by Mr. Myers.

Myers asked O'Shea if he had not carried liquor over to Taylor's ranch and if he had not purchased a large quantity of sugar at Lewis' grocery store to be used for moonshining purposes.

O'Shea denied that he had ever purchased sugar in large quantities and that he had ever transported liquor to or from the Taylor ranch.

COLLINS STILL CAVE PRISONER

(Continued from Page One)

was indicated at 51 feet, and another such soft spot was shown last night, followed by at least 10 feet of limestone. The drill was boring further into this, early this morning, when the top of the new tunnel was uncovered. Drilling was at once stopped, to concentrate on clearing out this tunnel.

Start Timbering

The engineering staff made immediate preparations to timber around and down into the new tunnel, and finish the sixteen-inch section of shaft timbering only sufficiently to prevent cave-ins on the wall over the new tunnel.

The new tunnel as the mouth of it was further cleared away, was easily large enough to accommodate a good sized man, and as far as they could peer down into it, ran straight away from the northwest corner of the shaft, diagonally to the left toward the mouth of Sand cave.

The tunnel was discovered just underneath a thick limestone ledge, giving the officials hope the new tunnel was part of the same honey-comb working in which Collins is trapped.

From his preliminary exploration of the new tunnel, Carmichael indicated he believed the tunnel would lead down to a huge pit located just behind Collins. Entering this, they could roll the rock off Collins' legs and release him.

Miners Hopeful

The high hopes of the diggers and engineers shown in their faces when the mouth of the tunnel was completely exposed and the miners confidently predicted they would have "Collins out by noon."

The use of rope slings around the diggers, previously arranged for what the hoped for tunnel was disclosed, was found unnecessary, since the tunnel appeared in the side wall of the shaft, underneath a heavy limestone ledge. The workmen at the bottom of the shaft are standing on a ten-foot ledge of limestone, so they are in no danger of breaking through into the cavern. When the first exploring party enters the tunnel, the men probably will have ropes around their waists, so they may be held safely if the new tunnel drops over a cliff. The original Sand Cave tunnel drops over a ten-foot cliff a few feet inside the mouth.

Veterans Revive Old Dances of Their Youth

MARYPORT, England, Feb. 12.—William Smith of Exanring hall made a successful attempt recently to reintroduce the old polka into a modern dance program at the Maryport Farmers' dance. He led off with the wife of another farmer. Both were crack dancers in the days when rural Cumberland danced the country dances, the waltz and the lancers. Their dancing was vigorously applauded by the younger generation of fox trotters who, later in the evening, enjoyed a turn at the polka.

OIL CRUISERS LOOK TO SOFIA

SOFIA, Feb. 12.—Many foreigners have applied for the right to prospect for petroleum in various parts of Bulgaria. The committee on commerce of Parliament considered a mass of these applications the other day. The indications are that foreigners will receive concessions for digging oil wells, provided the rights of the state in natural resources are well guarded.

SERIOUS LUNG TROUBLE STARTS WITH COUGHING

Physicians warn against neglecting coughs and colds and tell of the serious lung complications that may result. Leading physicians now prescribe **BALSAMEA** for all bronchial affections. **BALSAMEA** is a pure vegetable preparation made from a newly discovered plant, Dr. Benj. F. Crabtree, Anderson, Mo., writes: "and it is especially for my gratitude and my family. It is quick, sure and safe in its action like nothing else."

Toward the end of the influenza epidemic a government physician noticed that a tribe of Indians in Nevada, by the use of oils from a native plant were immune from the ravages of influenza. He used these oils among his white patients and then in a hospital serving the "deadly" cases. News of the results swept the world and for some time it was not possible to supply the demand.

BALSAMEA has now been standardized and gives uniformly miraculous results in four ways: 1. It soothes the inflamed membranes and relieves irritation. 2. It increases secretion of mucous and permits easy expectoration. 3. It stimulates pores of the skin in throwing off body poisons and 4. It strikes at the cause, checking even action immediately.

Do not confuse it with ordinary balsam cough syrups that are only soothing syrups and do not go to the base of the trouble. Unlike other cough remedies, **BALSAMEA** is free from coal tar and other harmful narcotics. Pleasant to take and absolutely safe to give to children.

Be sure you get **BAL-SA-MEA** with the picture of the Indian on the package. Guaranteed to relieve any cough, no matter what its cause, or your money back. All druggists sell **BALSAMEA**.

In Klamath Falls buy it from Star Drug Co.

BRAN

You get bran just as Nature supplies it in the whole wheat grain when you eat **SHREDDED WHEAT**—the balanced food that keeps you fit. Eat this nourishing food every day.

Shredded Wheat
A FULL MEAL IN 2 BISCUITS

The Woman Pays

For morning groggies, start every day with good cheer. All nature in the morning is the result of accumulated poisons. They are easy to eliminate. Drink a glass of water before breakfast. That washes out the stomach and fits it for food. Add to that water a little Jad Salts. Then you have an acid, effervescent

drink. It is delightful. Jad Salts are made from the acids of lemon and grapes plus lithia. In one hour constipation, indigestion, all the irritations, all the poisons is removed. You start the day fit, happy, energetic, like a child of ten. Millions do that now. If the day looks gloomy, they take Jad Salts in their morning drink. Then everything is sunny in an hour. You will save those lost days when you find this out, and will thank me for it. Start tomorrow. See what a difference Jad Salts make. At all druggists.

BUILDING A TOOTH

Good teeth are built out of vital foods. Building a tooth is not the simple process it seems. Nature regards it so important that she takes a long time to perfect one.

Scott's Emulsion

supplies elements needful to aid normal growth and construct sound bones and strong teeth.

A food- tonic of rare value, Scott's Emulsion gives the best results when taken regularly after meals. Try it.

Scott & Towne, Bloomfield, N. J.

"I Am Thin" "She Is Skinny"

If she only knew that she could put on at least 5 pounds of good healthy flesh in 20 days she wouldn't be worrying about her peaked face, hollow cheeks and neck and ragged hair.

She has tried Cod Liver Oil, but the ill-smelling, nasty tasting stuff upset her stomach and made her feel worse than before.

Doctors and good pharmacists know that Cod Liver Oil is full of vitalizing vitamins that make flesh, creates appetite, restores vigor, builds up the power to resist disease and chases away nervousness.

But it's horrible tasting stuff and every day fewer people are taking it for doctor's are prescribing and the people are fast learning that they can get better results with McCoy's Cod Liver Compound Tablets, which The Star Drug Store, Underwood's Pharmacy, Whitmore's Drug Co., and druggists all over the country are having a tremendous demand for.

It is a wonderful upbuilding medicine for skinny, backward children, especially after sickness and 60 tablets only cost 60 cents.

One woman gained 10 pounds in 22 days and if any skinny man or woman can't put on 5 pounds in 20 days your druggist will gladly return the purchase price.

Be sure and get McCoy's, the original and genuine Cod Liver Oil Compound Tablets.—Adv.
