Is Your Time Valuable?

Do you object to long-drawn-out sessions in the Dentist's chair? They are unnecessary. Most delay is due to the wait for laboratory work to be completed. This is obviated in our establishment, where a complete laboratory in charge of an expert is only one of the reasons we are prepared to render you speedy service.

Portland Announcement Tells of Plans Made for This City

PORTLAND, Oregon, Feb. 18.—Plans for expenditure this year of \$5,000,000 in Oregon by the Pacific Telephone and Telegraph company were announced here today by C. E. Hickman, division superintendent. Extensions and improvements to plants and equipment in Portland and several cities of the state are included, and long distance lines are to be extended and replaced in some sections.

Mr. Hickman's statement said: "Klamath Falls is another city in Oregon where population has increased beyond all estimates in the past." At Klamath Falls underground extensions are planned in some of the downtown section and extensions are to be made in aerial cables. Similar conditions to those existing in Astoria and Klamath Falls exist in Eugene, where the company has expended large sums in the past year and where it is necessary to provide additional capital investment, said the announcement. Work in this city will begin about April 1, according to F. R. Dunn, local manager. Work in prospect in this city will largely be with the idea of providing for rapid growth in the immediate future, Mr. Dunn said.

AIR PROBERS TO RECEIVE INSIDE DOPE FROM U. S.

Committee to Be Told of Plans for Repelling Attacks From the Air

WASHINGTON, Feb. 18.—The status of the nation's aircraft defense forces held the attention of two congressional committees today with the house military committee reentering the controversy to resume hearings on the bill to create a unified air service.

The house aircraft committee, at the same time, arranged for a special executive session to receive confidential information from representatives of Secretary Weeks and Secretary Wilbur on plans of their respective departments for national defense against attack from the air. Brigadier General Mitchell, assistant army air chief and central figure in the controversy and Theodore Roosevelt, former assistant secretary of the navy, were the witnesses called by the military committee.

The war and navy departments were called on for confidential information by the aircraft committee by unanimous decision of the committee in executive session yesterday, several members admitting the action was prompted by repeated statements of witnesses that the nation is lagging in the development of air power. The action was suggested by Representative Perkins, Republican, New Jersey, committee examiner.

Colonel Roosevelt told the military committee it would be a "grave mistake" if the army and navy air services were united. Money saved by such a step would be false economy, he said. The bill is opposed by the administration and favored by General Mitchell.

MINISTERS BACK CLEANUP MOVE

(Continued from Page One)
REV. T. A. MERYWEATHER, rector of the local Episcopal church, in response to a wired inquiry from The Herald, telegraphed from Pendleton as follows:

"Pendleton, Ore., Feb. 18. The Evening Herald, Klamath Falls, Or. 'If clean up gets the big fellows and demands observance of all laws I am for it. Constructive campaign against all crime only solution. May Loucks be the General Butler of Klamath.' 'T. A. MERYWEATHER.'

Merchants Discuss "Peddler" Menace

EUGENE, Ore., Feb. 18.—The 21st annual convention of the Oregon Retail Merchants' association swung into its final sessions here today. The session at 9:30 o'clock this morning was devoted to the annual report of the bureau of business research, conducted by Dean E. C. Robbins of the University of Oregon.

At 10 o'clock a discussion of "The peddler" was taken up by H. W. Schnell of Seattle. "Credits and Collections" were discussed by John Knight of McMinnville, president of the Oregon Collector's association. The afternoon meeting will be featured by a talk by W. J. Hindley of Seattle and the annual election of officers.

ROCK PILE MAY BE THE FATE OF DRY PRISONERS

House Passes Bill Increasing Salaries of District Attorneys

STATE HOUSE, Salem, Ore., Feb. 18.—Prohibition law violators may be put to work on the rock pile by sheriffs if house bill 346, passed by the house, is passed by the senate and signed by the governor.

The use of selms on coast streams entering the Pacific south of the Columbia is proposed by house bill 284, which has passed the house.

The senate has passed house bill 49, providing for creation of the Warner game refuge in Lake county.

The senate passed house bill 209, authorizing irrigation districts to enter into contracts with the United States government according to "fact finders" bill.

The house defeated the Banks bill providing for appeal from council license revocations.

Senate bill 173, requiring adjustment of claims under the Carey irrigation act, passed the house.

The house passed senate bill 177, setting a speed limit of five miles an hour for entering a highway from a cross road.

The veto of Governor Pierce was sustained by the senate yesterday on house bill No. 91, which had for its purpose the authorizing of the state text book commission to obtain at the lowest possible price text books for the purpose of which the publishing companies refused to extend contracts.

A strong fight was made in the senate yesterday afternoon against house bill No. 213, increasing the salaries of the district attorneys of Oregon, but not quite strong enough to keep the bill from passing.

FORUM HEARS COUNTY MEN

Colonel Thomson of Crater Lake Park Addresses Chamber Guests

Outlining work for the coming year and reviewing the accomplishments of the past year, C. A. Henderson, Klamath county agriculture agent spoke before members of the chamber of commerce today noon. Going first through origin and function of the work, Henderson identified the three heads under which the work falls; that work which is necessary every year; work started in other years and continuous and ne wproblems which are continually arising and which must be faced by the organization heads.

The rodent and pest control and the cutting down of animal diseases, mostly tuberculosis among cattle, were fully discussed and an interesting discussion followed.

For the new work of the year, Henderson named the production of sugar beets as among the most important of the demonstration work to be instituted. The resident agriculturist from the Sacramento Valley Sugar company is expected within the week according to Henderson, and will remain until results are obtained from the forthcoming crop. A future in flax, lettuce, cabbage, field peas, red clover for feed, prize potatoes through organized planting and canning peas was predicted by the county agriculturist, some of these crops previously having been tested.

Frank Sexton, county club leader also shared a portion of the program when he gave the projects of county club work, so successfully worked out among the boys and girls on the Klamath county farms. Sexton names sewing in the three divisions as ranking high in the interest of the girls with potatoes and calve raising coming close. Next year the boys and girls of the various clubs hope to send exhibitions to the Pacific international fair as they did to the state and county fair this year. The main interest of the club, according to Sexton, is the bringing in closer contact, the home with the school.

Through the courtesy of Bud Moo of the Pine Tree, Mr. Logan entertained with piano numbers.

Colonel C. G. Thomson, superintendent of the Crater Lake National Park spoke on the road program, stating that funds of \$133,000 were now obtained to improve the west and southern entrances into the park, improving the Medford entrance to Anna Springs and the Klamath entrance to the government camp. More snow is reported in the park than at any time during the past six years.

Out of town guests of the chamber this noon were Chester Barr, president of Medford Kiwanis; Verne H. Vester, exalted ruler of the Elks; Floyd Hart, ex-aviator; Carl Tengwald, representative of the American Legion, and C. G. Thomson, superintendent of Crater Lake Park, all from Medford. V. D. Carlson, relief manager of the West-

Pains Stopped for millions in this way

Remember this when you feel a pain. Millions have learned how to stop it at once. For 65 years they have done so by rubbing with St. Jacobs Oil. All the pains allied with rheumatism, with soreness, backache or lameness. And chest colds are checked at the start. Just rub the sore spot with St. Jacobs Oil. It causes counter irritation. Or it relieves the congestion by bringing the blood to the surface. Then the pain is ended, and you can wait in comfort while Nature cures. Now there are several ways offer to do this. But remember that St. Jacobs Oil has for 65 years stood the test. It has proved itself to millions. Nobody has ever found anything better, and nobody ever will. Don't wait until the pain starts. Keep St. Jacobs Oil on hand. It may save nights of suffering. Rub the sore spot as soon as a pain appears, or a chest cold. Get relief at once. Think what protection this means to you, and the cost is only 35c.
