## Not Just Meat

Meat, considered simply as such, is much the same the world over.

What counts is the way it is prepared for your consumption, and the way it is delivered to you. Miller's meats, poultry and fish have this one unvarying quality—they are CLEAN!

Selected animals, butchered under the most sanitary conditions in a modern packing plant, are then kept for you in a modern refrigerating plant. At our store all meats are kept under glass with ice coils nearby.

Deliveries are made four times daily, at your convenience.

We believe you will appreciate these things. That's why we say—

The fare to any place in town is just 50c.

### Japan Says Her Navy Is 42 Per Cent of Ours

TOKIO, Feb. 19.—Replying to a written interpellation submitted and signed by fifty members of the Diet on January 22 regarding the projected American naval maneuvers in Far Eastern waters this year, the Japanese government today stated that, while it is true that American naval practice as outlined had aroused public opinion, the government could not take it as a threat to Japan.

Referring to the Singapore base, the reply said the construction of such a base might affect Japan more or less, but was not considered a menace.

The reply places the American and Japanese navies in ratio of 100 against 42.

### X-Word Mate

Miss Ruth Davis' marriage to her stepbrother, Andrew Jean Stormfels, at Kansas City, Mo., made her mother-in-law her stepmother and her mother-in-law, and her stepfather her father-in-law. She's her own step-sister-in-law, too. Figure it out.
