

Thinking of Building?

Then think of the

Link River Electric Co.

This organization has a force of 7 men, expert electricians, in addition to unusually comprehensive estimate department. Bring us your house plan and let us figure with you. A little thought expended in selecting the proper type of fixture will add many dollars to the value of your home when you sell.

We Sell MOTORS

- Westinghouse Ranges,
- Lighting Fixtures
- Electric Irons
- Pressure Cookers
- Percolators
- Vacuum Sweepers
- Electric Washers
- Electric Heaters

We especially wish to call your attention to the fact that there has been a great change in fixture style within the past year. It costs but little to modernize

PEARY'S SIDE-KICK IN SERIOUS TROUBLE

WREXHAM, Wales, Jan. 27.—James Jackson, who accompanied Admiral Peary on his Polar trip in 1906, is in trouble. He was committed for trial at the assizes here on a charge of arson. It was alleged Jackson was responsible for the burning of a portion of the premises he occupied and that furniture found in the place smelt of paraffin. Jackson served during the war and received a permanent injury to the head which resulted in a steel plate being inserted.

A Swiss town is populated solely by women, who carry on an extensive dairying business.

BEETHOVEN LOST SONG IS LOCATED

LEIPSI, Feb. 27.—The original manuscript of a Beethoven wedding song was recently found attached to another manuscript in the possession of the firm of Breitkopf & Haertel, Beethoven's musical publishers.

The song was composed on the occasion of the marriage, Feb. 6, 1819, of the daughter of Giannatrasio del Rio, principal of the boarding school attended by Beethoven's nephew Carl.

All trace of the song had been lost until an employe of Breitkopf & Haertel searching for Beethoven's piano concertos written in the master's hand. The song was fastened to one of them by a clip.

SOVIET MEDICAL MEN TO MEET

MOSCOW, Feb. 27.—For the first time since the Bolshevik revolution, a congress of the physicians and surgeons of all the countries comprised within the Soviet Union is to be held here next spring. With the congress there is also to be held an exhibition of medical progress.

This exhibition will consist not only of objects loaned or donated by Russian medical men, but medical museums and institutions in other countries also will be requested to loan some of their material.

Gardeners are planning plots all vegetables and a yard wide.

German scientists have developed an artificial wool from the long spines of Scotch pine, chemically treated.

Dark Horse Wins

Here we have the national indoor junior tennis champion, Edward Jacobs of Baltimore. He wasn't conceded an outside chance to win at the opening of the winter tennis season.

GERMAN LINES SEEK PROGRESS

Railroads Now Freed of Government Control Consider Improvements

BERLIN, Feb. 26.—German railroads, now freed of government control and politics are considering innovations and improvements. Under the general superintendency of Rudolf Oeser, formerly minister of transportation, careful study is being made of the needs and comforts of passengers, the increase of speed, the maintenance of safety, and a proper margin of profit.

When the tourist season opens next May, overseas passengers will be able to take a through train from the docks at Bremerhaven and Cuxhaven for Berlin. Thus will a pre-war service be resumed. Wireless telephones have been installed on the trains between Berlin and Hamburg, Frankfurt and Munich.

The average speed of German trains before the war was 41.5 miles an hour, and Germany always has enjoyed the reputation of having fewer accidents than any other country in the world. In 1924 the speed average was 34.7, but Director Oeser is confident this will be increased in 1925. To this end there will be extensive improvements to tracks, engines and rolling stock already are satisfactory, the director asserts.

The German railroad system employs about 800,000 men. There are 11,250 railroad stations, 33,000 miles of track, 106 construction shops and 3,237 administration offices.

One of the director's chief tasks is to make the lines profitable enough to take care of their share of the reparations burden, and he is confident this can be done. He has a free hand to run the system on strictly business principles. He has dismissed 300,000 men whom he considered superfluous; railway officials no longer hold their jobs for life. He is catering to the business of the countries surrounding Germany which need the German lines for transshipment purposes.

GERMANS LIKE U. S. HORSES

BERLIN, Feb. 27.—First-class race horses are being imported in growing numbers to Germany from the United States. A representative of the Prussian state racing commission recently visited America officially, and purchased several trotters both for racing and breeding purposes. He gave so glowing an account of American horse breeding that leading sportsmen are quickly following suit in placing orders with America.

Here's Her Face

Cecile Evans' ankles are insured for \$100,000. And Coles Phillips, artist, believes her face is equally perfect. He's nominated her as "one of 14 'perfect' beauties for 1925. You've seen her ankles before. They're featured in advertisements.
